ANNUAL REPORT

OF THE

AUDITOR OF THE STATE

OF

NORTH CAROLINA

FOR THE

FISCAL YEAR ENDING NOVEMBER 30, 1901.

CONTENTS.

PART I.

BONDED INDEBTEDNESS AND INVESTMENTS OF THE STATE.

Statement showing the bonded indebtedness of the State, also the investments of both the General and Educational Fund. Page viii.

GENERAL STATEMENT.

Showing the condition of the State Treasury on the first day of December, 1900. Page ix.

STATEMENT A.

Showing sources from which the receipts of the Educational Fund were derived and purposes for which the disbursements were made. Page 1.

STATEMENT B.

Showing in detail the sources from which the receipts of the Educational Fund were derived. Pages 2-10.

STATEMENT C.

Showing in detail the different purposes for which the disbursements of the Educational Fund were made. Pages 11-13.

STATEMENT D.

Showing detailed receipts of the Public Fund. Pages 14-87.

STATEMENT E.

Showing detailed disbursements of the Public Fund. Pages 88-293.

STATEMENT F.

Showing monthly receipts and disbursements of the Public Fund. Page 294.

STATEMENT G.

Showing the several sources from which the receipts of the Public Fund were derived. Pages 295-296.

STATEMENT H.

Showing the several purposes for which the disbursements of the Public Fund were made. Pages 297-299.

STATEMENT I.

Showing the amount of receipts and disbursements for each fiscal year from 1868 to 1900, inclusive. Page 300.

PART II.

STATEMENT 1.

Showing the number and value of the different subjects of taxation and gross tax for State, Pension, School and County purposes, also the aggregate value of real and personal property of each county for the year 1900, as per returns on file in this department. Pages. 1-193.

STATEMENT 2.

Showing the aggregate number and value of the different subjects of taxation in the State, and the gross amount of State, School and County Taxes derived from the same as per reports for the year 1900. Pages 194-196.

STATEMENT 3.

Showing the number of acres of land, value of land, number of acres mineral, quarry or timber interests, value of mineral, quarry or timber interests, value of town lots, aggregate value of land and town lots, number and value of horses, mules, jacks, jennets, goats, cattle, hogs and sheep, value of farming utensils, money on hand, solvent credits, stock in incorporated companies, other personal property; aggregate value of all personal property and aggregate value of real and personal property in every county in the State, as per reports for the year 1900. (See folding table).

STATEMENT 4.

Showing the number of white and colored polls in the various counties in the State for the year 1900 and variation in the aggregate value of real and personal property, including bank stock and railroads, in each county in the State for the year 1900, as compared with the year 1895, last assessment (assessment every four years). Also the amount of property listed for taxation by white and colored citizens separately. Pages 198-201.

STATEMENT 5.

Showing the gross amount of taxes levied in the various counties, payable to the County Treasurer, during the fiscal year ending November 30, 1901, for school purposes; also giving the sources from which said taxes were derived. This statement also embraces amount of County Taxes levied for general and special county purposes, as per returns on file in this department. Pages 202-205.

STATEMENT 6.

(Comparative).

Showing the number of acres of land, number of horses, mules, cattle, hogs, sheep, etc., also the value of the same, including town property, farming utensils, money on hand or on deposit, solvent credits, etc., in the State for the years 1875, 1876, 1877, 1878, 1879, 1880, 1881, 1882, 1883, 1884, 1885, 1886, 1887, 1888, 1889, 1890, 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899 and 1900. Pages 206-209.

STATEMENT 7.

Recapitulation, showing the aggregate value of real and personal property in the State, as per returns on file in this department, for the year 1900, and the aggregate value of railroads, steam-boats, canals, sleeping cars and telegraph lines, as per returns for the year 1901. Page 210.

ANNUAL REPORT
OF THE
AUDITOR OF THE STATE
FOR THE
FISCAL YEAR ENDING NOVEMBER 30, 1901.

RALEIGH, N. C., January 1, 1902.

To His Excellency, CHARLES B. AYCOCK,

Governor of North Carolina.

SIR:—In compliance with the law, I have the honor to hand you herewith the annual report of the Auditor's Department, exhibiting the financial transactions and conditions of the finances of the State of North Carolina for the fiscal year ending November 30, 1901.

It gives me pleasure to acknowledge the obligations I am under to your Excellency for the uniform courtesy and kindness with which you have always been ready to aid this department with advice of practical and intrinsic value.

The assessed tax values of real and personal property as shown in this report are based upon returns made by the various counties for the year 1900. The revenues derived from unlisted taxables under Schedules "B" and "C" of the Revenue Act are also based upon reports submitted to this department for the year 1900. The tax values of Railroads, Telegraph, Telephone, Steam-boat, Canal and Express Companies, together with the Banks and Domestic Corporations, are on assessments made by the Corporation Commission, as well as appraisals by this department for the fiscal year of 1901.

STATEMENT OF BONDED INDEBTEDNESS AND INVESTMENTS.

4 per cent. consolidated debt bonds.....	\$3,397,350.00
4 per cent. Prison debt bonds.....	110,000.00
4 per cent. Prison Farm bonds.....	60,000.00
Total 4 per cent. interest-bearing debt.....	\$3,567,350.00
Total 6 per cent. interest-bearing bonds.....	2,720,000.00
Total present interest-bearing debt.....	\$6,287,350.00
The old fundable bonds, still outstanding, if presented for 4 per cent. consolidated.....	218,420.00
Old construction bonds unredeemed.....	22,000.00
Making total debt, interest and non-interest-bearing..	\$6,527,770.00

INVESTMENTS.

General Fund.

	<i>Par Value.</i>
30,000 shares North Carolina Railroad stock.....	\$3,000,200.00
12,666 shares Atlantic and N. C. Railroad stock....	1,266,600.00
Alexander county bonds.....	3,000.00
Total	\$4,269,800.00

Educational Fund.

N. C. 4 per cent. bonds.....	143,250.00
N. C. 6 per cent. bonds.....	2,000.00
Total investments	\$4,415,050.00

The last Legislature placed the appraisal of the Banks of North Carolina, as well as the appraisal of the capital stock of all Domestic Corporations, in the hands of this department. It also revised the pension law of our State, thereby rendering it necessary to make out an entirely new list of pensioners. All this additional work has been accomplished through much tribulation by the same force hitherto had in this department. Of course this has required much work out

of office hours, and I take this opportunity of thanking my Chief Clerk, Mr. H. T. Hudson, for the pains-taking care and efficiency with which he has discharged the duties of his position. His books are models of neatness and accuracy. The work of Mr. W. H. Bain, Assistant Clerk, has been onerous and heavy, yet he has cheerfully gone to his task from day to day in such a way as to win the appreciation and praise. The work of our Stenographer, Mrs. Fannie W. Smith, owing to the novel laws enacted by our last Legislature, has been much more burdensome than formerly, but with a cheerfulness that is praiseworthy, she has performed her work and won the especial thanks of the department.

Very respectfully,

B. F. DIXON,
State Auditor.

BONDED INDEBTEDNESS AND INVESTMENTS.

STATEMENT SHOWING THE BONDED INDEBTEDNESS OF THE STATE; ALSO THE INVESTMENTS OF BOTH THE GENERAL AND EDUCATIONAL FUND.

BONDED INDEBTEDNESS.

ANNUAL REPORT

AUDITOR OF THE STATE

OF THE STATE

OF THE STATE

CONTENTS.

PART I.

GENERAL STATEMENT.

Showing the condition of the State Treasury on the first day of December, 1901. Page xi.

STATEMENT A.

Showing sources from which the receipts of the Educational Fund were derived and purposes for which the disbursements were made. Page 1.

STATEMENT B.

Showing in detail the sources from which the receipts of the Educational Fund were derived. Pages 2-10.

STATEMENT C.

Showing in detail the different purposes for which the disbursements of the Educational Fund were made. Pages 11-13.

STATEMENT D.

Showing detailed receipts of the Public Fund. Pages 14-91.

STATEMENT E.

Showing detailed disbursements of the Public Fund. Pages 92-248.

STATEMENT F.

Showing monthly receipts and disbursements of the Public Fund. Page 249.

STATEMENT G.

Showing the several sources from which the receipts of the Public Fund were derived. Pages 250-251.

STATEMENT H.

Showing the several purposes for which the disbursements of the Public Fund were made. Pages 252-253.

STATEMENT I.

Showing the amount of receipts and disbursements for each fiscal year from 1868 to 1901, inclusive. Page 254.

PART II.

STATEMENT 1.

Showing the number and value of the different subjects of taxation and gross tax for State, Pension, School and County purposes, also the aggregate value of real and personal property of each county for the year 1901, as per returns on file in this Department. Pages 1-195.

STATEMENT 2.

Showing the aggregate number and value of the different subjects of taxation in the State, and the gross amount of State, School and County taxes derived from the same, as per reports for the year 1901. Pages 196-198.

STATEMENT 3.

Showing the number of acres of land, value of land, number of acres mineral, quarry or timber interests, value of mineral, quarry or timber interests, value of town lots, aggregate value of land and town lots, number and value of horses, mules, jacks, jennets, goats, cattle, hogs and sheep, value of farming utensils, money on hand, solvent credits, stock in incorporated companies, other personal property; aggregate value of all personal property and aggregate value of real and personal property in every county in the State, as per reports for the year 1901. (See folding table).

STATEMENT 4.

Showing the number of white and colored polls in the various counties in the State for the year 1901, and variation in the aggregate value of real and personal property, including bank stock and railroads, in each county in the State for the year 1901, as compared with the year 1895, last assessment (assessment every four years). Also the amount of property listed for taxation by white and colored citizens separately. Pages 200-203.

STATEMENT 5.

Showing the gross amount of taxes levied in the various counties, payable to the County Treasurer, during the fiscal year ending November 30, 1902, for school purposes; also giving the sources from which said taxes were derived. This statement also embraces amount of County Taxes levied for general and special county purposes, as per returns on file in this Department. Pages 204-207.

STATEMENT 6.

Showing amount of levy for County Taxes for year 1901. Pages 208-209.

STATEMENT 7.

(Comparative.)

Showing the number of acres of land, number of horses, mules, cattle, hogs, sheep, etc., also the value of the same, including town property, farming utensils, money on hand or on deposit, solvent credits, etc., in the State for the years 1875, 1876, 1877, 1878, 1879, 1880, 1881, 1882, 1883, 1884, 1885, 1886, 1887, 1888, 1889, 1890, 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900 and 1901. Pages 210-213.

STATEMENT 8.

Recapitulation, showing the aggregate value of real and personal property in the State, as per returns on file in this Department, for the year 1900, and the aggregate value of railroads, steamboats, canals, sleeping cars and telegraph lines, as per returns for the year 1902. Page 214.

ANNUAL REPORT
OF THE
AUDITOR OF THE STATE
FOR THE
FISCAL YEAR ENDING NOVEMBER 30, 1902.

RALEIGH, N. C., December 17, 1902.

To His Excellency, CHARLES B. AYCOCK,
Governor of North Carolina.

SIR:—In compliance with the law, I have the honor to hand you the annual report of the Auditor's Department for the fiscal year ending November 30, 1902.

The receipts from all sources during the year for the General Fund have been \$1,907,958.68 and the disbursements \$1,864,004.65, leaving a balance of \$43,954.03.

The balance of the Educational Fund is \$48,909.18.

The total balance, therefore, is \$92,863.21.

The above balance from the Auditor's ledger does not show the amount of actual cash in the Treasury at the close of the fiscal year, as there are outstanding warrants which are chargeable to the Treasurer as so much cash.

STATEMENT OF BONDED INDEBTEDNESS AND INVESTMENTS.

Four per cent. consolidated debt bonds.....	\$3,399,100.00
Four per cent. Prison debt bonds.....	110,000.00
Four per cent. Prison farm bonds.....	60,000.00
<hr/>	
Total four per cent. interest-bearing debt.....	\$3,569,150.00
Total six per cent. interest-bearing bonds.....	2,720,000.00
<hr/>	
Total present interest-bearing debt.....	\$6,289,150.00

The old fundable bonds, still outstanding, if presented for four per cent. consolidated.....	\$ 218,420.00
Old construction bonds unredeemed.....	22,000.00
<hr/>	
Making total debt, interest and non-interest-bearing...	\$6,529,570.00

GENERAL FUND.

Par Value.

30,000 shares North Carolina Railroad stock.....	\$3,000,200.00
12,666 shares Atlantic and N. C. Railroad stock.....	1,266,600.00
Alexander county bonds.....	2,750.00
500 shares Wilkesboro and Jefferson Turnpike Co....	5,000.00
<hr/>	
Total.....	\$4,274,550.00

EDUCATIONAL FUND.

N. C. four per cent. bonds.....	\$ 143,250.00
N. C. six per cent. bonds.....	2,000.00
<hr/>	
Total investments.....	\$4,415,050.00

APPROPRIATIONS.

President Dwight said it was the "first duty of every college to need money." It strikes me that our State institutions are living up to this "duty," and while I am fully aware of their needs, and would be first in giving them the needed aid in order to meet the requirements of the hour, still for the protection of our Treasury and for the honor of our State, it is respectfully suggested that the General Assembly of 1903 stand by the plain business methods of living within our income, and not make appropriations in excess of the estimated receipts.

DOMESTIC CORPORATION TAX LAW.

During the past year there has been collected through this Department, and turned into the State Treasury, on corporation excess, \$11,913.37, and for pensions \$2,269.21, making a total of \$14,182.58.

The above does not represent all the taxes raised by the section of the Revenue Law on corporations, for the reason that many corporations have increased their real and personal property to the same figure as their capital stock, thereby paying all their taxes to the sheriff of the county in which their plant is located, instead of paying State and pension tax to the State Treasurer on the excess of capital stock, and the remainder to the sheriff.

In the administration of this law there should be a constant effort to see that all corporations of the same class should be subject to the same tax, that whatever burdens fall upon any member should fall proportionately upon every other member of the same class, for the reason that any other course will give the untaxed portion a decided advantage in business over the taxed remainder.

I would also call attention to the fact that there is an impression among business men that legitimate corporations can secure advantages in taxation by organizing under the laws of some other State. This may be true where the company to be incorporated employs a large amount of capital in some other State, or when the capital is "watered" to a large extent, but I do not believe this to be true of corporations organized to do a legitimate business within our own borders. For instance, a company organized to do business in this State incorporated under the laws of New Jersey, say for \$3,000,000, pays an annual tax of \$3,000 to the State of New Jersey, for which it receives absolutely no protection whatever, either from fire, by police or from any other source. Surely there should be some way by which corporations doing business wholly, or even for the most part, within our borders, should be compelled to incorporate under the laws of our State.

The operation of the Revenue Act of our State cannot be equitable or just in the absence of some sort of general supervision. The Tax Commission, created by the Legislature of 1901, should be also a Board of Equalization for the general assessment of properties in the State, for the reason that it is absolutely necessary to have a general basis of assessing property for taxation. For instance, in one county there is a basis of assessment which may produce an equitable value throughout that county. In another county, however, there is prop-

erty of similar value and the basis of assessment may be entirely different, the result of which is to list property in one county at fifty per cent. of its value, while in the other the property is listed for taxation at seventy-five per cent., or even at its full commercial value. So that one man pays double the amount of tax on his property as the first named citizen pays upon property of equal value. This is manifestly unjust and should be remedied.

In the new assessment of property which will be made in 1903 all property should be assessed at its actual value. I respectfully ask your Excellency to call the attention of the incoming Legislature to this matter, in order that such legislation may be enacted as will compel the assessors to comply with the law in this respect. If all property in the State were placed on the tax books at its true value, there would be no room for "tax-dodgers" to hide. North Carolina would then get credit abroad for the property which she actually owns, and as only so much money is necessary to run the government the rate of taxation could be lowered, so that we would get the credit of having the lowest rate of taxation of almost any State in the Union. This would be an inducement for capital to come into our State and help build up its waste places. Aside from all this, a State has no right, if it can possibly avoid it, to put unequal burdens upon its citizens, for some one has well said: If a State, even to promote its necessary and legitimate objects, takes the amount of property to which it is entitled in such a manner as requires a citizen to pay more than his just share of the requisite amount, whether it be great or small, it takes that to which it has no right; it does what, if done by a citizen in defiance of law, is called robbery; if under color of law, is called fraud, but which in a government that makes law, is confiscation.

The Chairman of the Tax Commission, the State Treasurer and myself have been devoting as much time as our respective duties would allow to arranging the Revenue Act for 1903 so that it would bear as equally as possible upon all of our citizens. This is a very difficult task, as well as a laborious one, and really may amount to nothing, for at last it is for the Legislature to say what the Revenue Law shall be. We have undertaken this work, however, for the

reason that investigation shows that the revenue laws of North Carolina have been enacted from time to time simply to meet the increasing expenditures of the State, without much regard to any just and equitable principle. Our tax laws have been make-shifts, and some of them have been blunders.

PENSIONS.

The pension roll for 1900 showed the total number of pensioners to be 6,072, classified as follows:

First class received each.....	\$58.00
Second class received each.....	43.00
Third class received each.....	29.00
Fourth class received each.....	14.50
Widows received each.....	14.50

Making the total amount for general pensions \$112,230.

The number of special pensioners was 57, each receiving \$120, making a total of \$119,070.

The pension roll for 1901 shows an addition of 2,439 pensioners, making a total of 8,511.

First class received each.....	\$62.00
Second class received each.....	50.00
Third class received each.....	40.00
Fourth class received each.....	20.00
Widows received each.....	20.00

Making the total amount for general pensions \$200,000.

The number of special pensions was increased to 101, each receiving \$120, making \$12,120. Total, \$212,120.

SOLDIERS' HOME.

The last Legislature made the State Auditor *ex officio* Secretary of the Soldiers' Home, and I report 110 inmates at this date. There were 70 on the roll November 30, 1901. The Home has provided for 148 during the year. The annual appropriation of \$13,000 for

maintenance of the Home has been paid, together with the \$5,000 for permanent improvements, making a total of \$18,000. This, added to the \$212,120 for general and special pensions, makes \$230,120. This shows the aggregate amount disbursed by the State to its ex-Confederate soldiers.

BANKS.

I would respectfully suggest that the incoming Legislature more clearly define the law relative to the appraisal of bank stock, as it is very difficult, under the existing law, for the State Treasurer and myself to estimate the value of bank stock.

LIQUOR LICENSES.

The Legislature should, by all means, change the Revenue Law relative to the manufacture and sale of intoxicating liquors of all kinds. The State pays the Judges for holding courts, and fully two-thirds of the lawlessness of North Carolina is caused by intoxicating liquors, while the State gets comparatively nothing from the manufacture and sale of the same. The wonder to me is that some law by which a large revenue to the State would be derived has not been enacted in this regard.

I take pleasure in acknowledging to you my obligations for many courtesies shown this Department, as well as for advice of intrinsic value, always cheerfully given when asked.

I would be untrue to my duty and my inclination if I failed to acknowledge the efficient work and painstaking care of the clerical force of this Department. They have labored in season and out of season with cheerfulness and ability unsurpassed by any clerical force in my knowledge.

Very respectfully,

B. F. DIXON,
Auditor.

GENERAL STATEMENT.

SHOWING AUDITOR'S BALANCE AND CASH BALANCE IN HANDS OF STATE TREASURER AT THE CLOSE OF BUSINESS ON THE 30TH DAY OF NOVEMBER, 1902, THE END OF THE FISCAL YEAR.

Balance December 1, 1901, Auditor's Ledger:		
General and Educational Fund -----		\$ 26, 783. 61
Receipts for Fiscal Year:		
Public Fund -----	\$1, 907, 958. 68	
Educational Fund -----	16, 175. 66	
		1, 924, 134. 35
Disbursements for Fiscal Year:		1, 950, 917. 95
Public Fund -----	1, 864, 004. 65	
Educational Fund -----	2, 790. 53	
		1, 866, 795. 18
Balance December 1, 1902, Auditor's Ledger -----		84, 122. 77
Outstanding warrants issued prior to November 30, 1896 -----		5. 76
Outstanding warrants in Pamlico and Carteret oyster cases -----		5, 611. 15
Outstanding warrants on account Spanish-American war (disallowed by U. S. Government) -----		825. 58
Warrants cancelled in favor of issue of new warrants under head of State Guard Special, on account Spanish-American war, the same being duplicates and outstanding -----		10, 474. 16
General warrants issued in 1902 and in transit -----		10, 241. 17
Total Cash Balance in hands of State Treasurer December 1, 1902 -----		111, 280. 59

STATEMENT A—EDUCATIONAL FUND.

SHOWING SOURCES FROM WHICH RECEIPTS WERE DERIVED, AND PURPOSES FOR WHICH DISBURSEMENTS WERE MADE, AND STATUS OF THE FUND FOR THE YEAR ENDING NOVEMBER 30, 1902.

RECEIPTS.		
Excess of receipts over disbursements for year ending November 30, 1901 -----	\$ 35,524.05	
Received for entries on vacant lands -----	3,866.25	
interest on school fund -----	5,890.00	
Text-book Commission -----	33.55	
sale of swamp lands -----	6,377.70	
wreckage -----	8.16	
DISBURSEMENTS.		
		\$ 51,699.71
Paid for Croatan Normal Schools -----	453.25	
State Board of School Examiners -----	7.30	
State Text-book Commission -----	17.55	
State Text-book Subcommission -----	2.00	
sale of swamp lands -----	475.00	
survey of swamp lands -----	1,835.43	
Balance in hands of Treasurer State Board of Education November 30, 1902 -----		2,790.53
		48,909.18

STATEMENT B.

SHOWING SOURCES FROM WHICH THE RECEIPTS OF THE EDUCATIONAL
FUND WERE DERIVED.

ENTRIES ON VACANT LANDS.

BIENNIAL REPORT
OF THE
ATTORNEY-GENERAL OF NORTH CAROLINA.
1901 and 1902.

LETTER OF TRANSMITTAL.

STATE OF NORTH CAROLINA,
OFFICE OF ATTORNEY-GENERAL,
RALEIGH, N. C., Dec. 31, 1902.

To His Excellency, CHARLES B. AYCOCK,
Governor of North Carolina.

DEAR SIR:--I have the honor to transmit herewith my Biennial Report for the years 1900-1901 and 1901-1902.

Exhibit 1, pages 9-23, contains a list of criminal cases argued by the Attorney-General in the Supreme Court of the State.

Exhibit 2 gives a list of actions in the nature of *quo warranto* proceedings, brought by private relators in the name of the State, together with the disposition of those cases brought to the Supreme Court.

By chapter three hundred and forty-one, Laws of 1889, the Attorney-General is directed to report in tabulated form the criminal statistics from the various counties in the State. In compliance with this provision of law, I have prepared a series of tables giving the information required by the statute. These tables are embodied in this report, pages 28-84.

I recommend that the statute providing for the collection of criminal statistics be amended so as to embrace in the

reports forwarded to this Department by the Clerks of the Superior Courts, information in regard to the literacy or illiteracy of all persons against whom criminal prosecutions are disposed of in the manner indicated in section one of chapter three hundred and forty-one, Laws of eighteen hundred and eighty-nine.

This Department receives a large number of requests from county, city and town officers, asking legal advice and opinions on questions which arise in the performance of their respective duties. In addition to this, my advice is not infrequently sought by private persons and corporations upon purely personal matters. To comply with the latter requests would retard the dispatch of public business, but courtesy at least demands that the receipt of such letters be acknowledged.

In compliance with a custom which appears to be time honored in this Department, I have endeavored to comply with requests of local officials for advice upon questions of general interest, and with their requests for opinions upon statutes of a public nature.

The opinions resulting from this task, added to those rendered to State officials, amount to several hundred. Some of those deemed to be of general public interest, are printed in this report. Pages 85-141.

Under the title "Litigation," pages 142-148, will be found a brief statement of cases of a civil nature in which the State of North Carolina is interested, together with a reference to criminal prosecutions in the District Courts of the United States against certain registrars, in which the Attorney-General was instructed by the General Assembly to enter an appearance for the State.

I desire to express my gratitude for the uniform courtesy shown me by your Excellency, and to make acknowledgment of my appreciation of the assistance rendered this Department by Messrs. Shepherd & Shepherd, attorneys at law, of this city, particularly to Mr. S. Brown Shepherd, the junior mem-

ber of the said firm, and to extend to Miss Sarah Burkhead, clerk and stenographer, my thanks for her faithful and efficient services.

Respectfully submitted,

ROBERT D. GILMER,
Attorney-General.

For the purpose of the present investigation, the following facts are presented:

1. The first fact is that the present investigation is a continuation of the work of the late Dr. J. H. ...

EXHIBIT 1.

LIST OF CASES ARGUED BY THE ATTORNEY-GENERAL BEFORE
THE SUPREME COURT, AT FEBRUARY TERM, 1901; AUGUST
TERM, 1901; FEBRUARY TERM, 1902, AND AUGUST TERM,
1902.

FEBRUARY TERM, 1901.

(128TH NORTH CAROLINA REPORT.)

1.

State v. George Lee Hewlin; from Beaufort; slander of an innocent woman; indictment quashed; State appealed; error; bill sustained.

2.

State v. C. M. Williams; from Beaufort; carnal knowledge of a married woman by fraud in personating her husband; verdict of guilty, and from judgment thereon the defendant appealed; affirmed.

3.

State v. George Rogers and others; from Vance; intimidation of voter under section 2715 of The Code; indictment quashed; State appealed; affirmed.

4.

State v. George Hartness; from Cherokee; murder; convicted of murder in second degree; new trial.

5.

State v. J. C. Crews; from Forsyth; administration of noxious drug to procure abortion, under section 976 of The Code; verdict of guilty, and from a judgment thereon defendant appealed; affirmed.

6.

State v. Raymond Hunt; from Catawba; murder; verdict of guilty, and from judgment thereon defendant appealed; affirmed.

7.

State v. Walter Shuford; from Buncombe; verdict of guilty and judgment thereon; defendant moved in arrest, assigning as ground therefor that the Court had no jurisdiction under the act of the General Assembly, entitled "An act to provide for the division of the State into Judicial Districts, and for holding the Courts therein," ratified 11th March, 1901; the Court refused to arrest the judgment; defendant appealed; error; judgment arrested.

8.

State v. Elijah McCourry; from Yancey; murder; defendant convicted of murder in second degree, and appealed; affirmed.

9.

State v. Arthur Baum; from Currituck; obstructing navigable stream, under section 1123 of The Code; verdict of guilty, and from judgment thereon, defendant appealed; affirmed.

10.

State v. W. S. Stancill; from Gaston; murder, in an attempt to arrest an escaped convict; from a verdict of guilty of manslaughter, the defendant appealed; affirmed.

*Memoranda of Cases Disposed of at February Term, 1901,
Per Curiam (128 N. C., 615, 616):*

11.

State v. Newsome; affirmed.

12.

State v. Whitaker; affirmed.

13.

State v. Wilder; affirmed.

14.

State v. Fort; affirmed.

15.

State v. Council; motion for new trial; judgment affirmed.

AUGUST TERM, 1901.

(129TH NORTH CAROLINA REPORT.)

16.

State v. Amos Moore and others; from Pitt; larceny; new trial.

17.

State v. Drew Vaughn; from Hertford; murder; from a verdict of guilty of murder in the first degree and judgment thereon, prisoner appealed; affirmed.

18.

State v. Primus Jones; from Wayne; indictment for tearing down house, under section 1062 of The Code; from a verdict of guilty and a judgment thereon, the defendant appealed; reversed.

19.

State v. Council; from Cumberland; petition to rehear; motion to dismiss, on the ground that petitions to rehear are not allowable in criminal actions; petition dismissed.

20.

State v. C. Anderson; from Randolph; carrying concealed weapons; from a verdict of not guilty on a special verdict, the State appealed; affirmed.

21.

State v. James McDowell; from Robeson; murder; from a verdict of guilty of murder in the second degree and judgment thereon, the prisoner appealed; new trial.

22.

State v. J. F. Austin; from Rowan; larceny; from a verdict of guilty and judgment thereon, the defendant appealed; new trial.

23.

State v. Walter Garner; from Gaston; assault with intent to commit rape; from a verdict of guilty and judgment thereon, the defendant appealed; affirmed.

24.

State v. Jacob Yoder; from Catawba; failure to work public road; upon special verdict, the Court pronounced the defendant guilty, and he appealed; error.

25.

State v. Joe Smith; from Burke; from refusal of the Court to discharge the defendant, upon the ground that the Solicitor had no right to order a capias to issue, the defendant appealed; affirmed.

26.

State v. Arthur Hefner; from Catawba; attempt to commit buggery; defendant moved in arrest of judgment, for that the indictment failed to charge any overt act; motion sustained; Solicitor appealed; affirmed.

27.

State v. Lawson Harwell; from Catawba; slander of an innocent woman; from a judgment of quashal, the Solicitor appealed; affirmed.

28.

State v. L. R. Peterson; from Catawba; forgery; from a verdict of guilty and judgment thereon, the defendant appealed; affirmed.

29.

State v. Andrew Jackson; from Lincoln; from a verdict of guilty of burglary in the first degree and judgment thereon, the prisoner appealed; affirmed.

30.

State v. C. W. Carter and J. E. Jones; from Hertford; buying and selling fresh meat without license, under Acts 1899, chapter 11, section 51; from a verdict of guilty and judgment thereon, the defendants appealed; affirmed.

31.

State v. Arthur Spaugh and J. D. Beckel; from Forsyth; buying and selling fresh meats without license, under Acts 1899, chapter 11, section 51; defendants contended that they were vending their own products; from a verdict of guilty and judgment thereon, the defendants appealed; new trial.

32.

State v. James Davis; from McDowell; failure to perform duties as road overseer; from order of quashal, the Solicitor appealed; error, and action dismissed.

33.

State v. John H. Rose; from Wilson; murder; from a verdict of guilty and judgment thereon, the prisoner appealed; affirmed.

34.

State v. J. L. Welch; from Macon; practicing medicine or surgery without license; from a verdict of guilty and judgment thereon, the defendant appealed; affirmed.

35.

State v. Dixie Williams and Bettie Caddell; from Montgomery; from a verdict of guilty of murder in the second degree as to Dixie Williams and judgment thereon, he appealed; affirmed.

36.

State v. J. L. Howard, *alias* Frank Thompson; A. L. Daley, *alias* Gonez Bono, and H. D. Hawley; from Guilford; *Gold Brick Case*; conspiracy, with intent to defraud; from a verdict of guilty and judgment thereon, the defendants appealed; affirmed.

37.

State v. Hezekiah Caldwell; from Madison; from a verdict of guilty of murder in the second degree and judgment thereon, the prisoner appealed; affirmed.

38.

State v. Charles Hunt; from Forsyth; engaging in the business of emigrant agent without license; from a judgment of guilty on a special verdict, the defendant appealed; affirmed.

39.

State v. Geo. M. Neal; from Nash; from a judgment granting a new trial in the Eastern Criminal Court, the Solicitor appealed; affirmed.

40.

State v. Joseph F. Jarvis; from Buncombe; "uttering and publishing" a certain promissory note, knowing the same to be forged, with intent to defraud, etc.; from verdict of guilty and judgment thereon, the defendant appealed; affirmed.

41.

State v. Ben Foster, R. S. Gates, Harry Mills and Frank Johnson; from Buncombe; burglary in the first degree; from

a verdict of guilty and judgment thereon, the prisoners appealed; affirmed.

*Memoranda of Cases Disposed of at August Term, 1901,
Per Curiam (129 N. C., 714-715):*

42.

State v. Malett and Mehegan; from Edgecombe; copy of mandate of the Supreme Court of the United States sent to Clerk below, on motion of the State.

43.

State v. Turner; from Randolph; affirmed.

44.

State v. Shepherd; from Macon; affirmed.

FEBRUARY TERM, 1902.

(130TH NORTH CAROLINA REPORT.)

45.

State v. Asbury Telfair; from Franklin; failure to work on public road; from a verdict of guilty on a special verdict, and judgment thereon, the defendant appealed; affirmed.

46.

State v. R. B. Hopkins; from Pamlico; abandonment, under section 970 of The Code; from a verdict of guilty and judgment thereon, the defendant appealed; new trial.

47.

State v. Lucinda Goode; from Wake; assault and battery; from a verdict of guilty and judgment thereon, the defendant appealed; new trial.

48.

State v. Ed. S. Battle and A. M. Powell; from Wake; assault and battery; from a verdict of guilty of both defendants and judgment thereon, the defendant **Battle** appealed; remanded for proper judgment.

49.

State v. Nathan Holleman; from Wake; obstructing public highway; from a verdict of guilty and judgment thereon, the defendant appealed; affirmed.

50.

State v. Nelson Buchanan; from Union; larceny; from a verdict of guilty and judgment thereon, the defendant appealed; new trial.

51.

State v. John W. Maulsby; from Cumberland; assault and battery; from a verdict of guilty and judgment thereon, the defendant appealed; affirmed.

52.

State v. Benjamin Foster; from Franklin; from a verdict of murder in the first degree and judgment thereon, the prisoner appealed; new trial.

53.

State v. Dock Howie; from Union; failure to work on public roads; motion in arrest of judgment; motion overruled, and from the judgment pronounced, the defendant appealed; error; judgment arrested.

54.

State v. Martin Thompson and others; from Montgomery; forcible trespass; from a verdict of guilty as to Martin and Will Thompson, and judgment thereon, the defendants appealed; error.

55.

State v. Archie Conly; from Rowan; from a verdict of guilty of murder in the first degree and judgment thereon, the prisoner appealed; affirmed.

56.

State v. Dick Flemming, Ed. Woods and Richard Blaton; from Rowan; from a verdict of guilty as to Dick Flemming and Richard Blaton, they appealed; affirmed.

57.

State v. George Ellsworth and J. H. Trayvor; from Anson; feloniously breaking and entering store house; from a verdict of guilty and judgment thereon, defendants appealed; affirmed.

58.

State v. J. E. Briggs and A. Savery; from Forsyth; conducting a mercantile business without taking out license; from a special verdict and judgment of not guilty thereon, the State appealed; error.

59.

State v. James Monds; from Chowan; indictment for carnally knowing a girl between the ages of ten and fourteen, under section 1101 of The Code, as amended by Act of 1895, chapter 295; from a verdict of guilty and judgment thereon, the defendant appealed; new trial.

60.

State v. Garrett Coates; from Madison; assault; for refusal to allow a motion in arrest of judgment, defendant appealed; affirmed.

61.

State v. Plummer Hicks; from Vance; from a verdict of guilty of murder in the first degree, the prisoner appealed; affirmed.

62.

State v. Henry Peak; from Polk; assault with intent to commit rape; after a verdict of guilty, the judgment was arrested, and the State appealed; error.

63.

State v. Zeb. Sumner; from Macon; murder; prisoner convicted of manslaughter, and from the judgment pronounced, appealed; new trial.

64.

State v. W. H. C. Franks; from Chowan; peddling without license, under Acts 1901, chapter 9, sections 54-103; from a special verdict and judgment thereon of not guilty, the State appealed; affirmed.

65.

State v. Elam Wiseman and Hester Blalock; from Mitchell; fornication and adultery; from a verdict of guilty as to Wiseman and judgment thereon, he appealed; affirmed.

66.

State v. Wesley New; from Sampson; obstructing a public officer in the discharge of his duty; from a verdict of guilty and judgment thereon, the defendant appealed; new trial.

*Memoranda of Cases Disposed of at February Term, 1902,
Per Curiam (130 N. C., pages 741-745):*

67.

State v. Dey; from Currituck; affirmed.

68.

State v. Hauser; from New Hanover; motion of State to docket and dismiss defendant's appeal under Rule 17 disallowed.

69.

State v. Whitaker; from Yadkin; affirmed.

70.

State v. Houston; from Iredell; affirmed.

71.

State v. Pilkerton; from Wilkes; reversed.

72.

State v. Smart; from Mecklenburg; affirmed.

73.

State v. Galloway; from Transylvania; error.

AUGUST TERM, 1902.

(131ST NORTH CAROLINA REPORT.)

74.

State v. Stephen Tuten; from Beaufort; selling spirituous liquors without license; from a verdict of guilty and judgment thereon, the defendant appealed; new trial.

75.

State v. T. G. Knotts; from Halifax; selling vinous liquors within one mile of Littleton Female College; from a verdict of guilty and judgment thereon, the defendant appealed; affirmed.

76.

State v. D. L. Taylor; from Craven; from an order sustaining a motion to quash, the defendant appealed; affirmed.

77.

State v. James Wilcox; from Pasquotank; from a verdict of guilty of murder in the first degree and judgment thereon, the prisoner appealed; new trial.

78.

79.

State v. F. M. Blackley; from Granville; escape; from a verdict of guilty and judgment thereon, the defendant appealed; new trial.

80.

State v. Jesse L. Freeman; from Guilford; burning barn, under section 985 of The Code; from a verdict of guilty and a judgment thereon, the defendant appealed; new trial.

81.

State v. Harry P. MacKnight; from Moore; practicing medicine without license; from a special verdict and judgment of not guilty, the State appealed; affirmed.

82.

State v. George Ellsworth and J. H. Trayvor; from Anson; larceny; from an order setting aside a verdict, sustaining a plea of former conviction, the defendants appealed; appeal dismissed.

83.

State v. Ivey Hinton; from Wake; failure to work public road; from a verdict of guilty and judgment thereon, the defendant appealed; new trial.

84.

State v. June Bishop, John Belfield and James Stephenson; from Bertie; from a verdict of guilty of murder in the first degree and judgment thereon, the prisoner appealed; new trial.

85.

State v. J. D. Ray; from Halifax; violating town ordinance; defendant appealed; error.

86.

State v. Clarence Finger; from Lincoln; assault with intent to commit rape; from a verdict of guilty and judgment thereon, the defendant appealed; affirmed.

87.

State v. Bud *alias* Will Peoples; from Mecklenburg; gambling; from the refusal of the Court to grant motion in arrest of judgment, the defendant appealed; error.

88.

State v. Sep Wiseman; from Mitchell; no error.

89.

State v. Samuel McCall and Alexander McCall; from Burke; on removal from McDowell; procuring one Jack Heaton to burn church; from a verdict of guilty and judgment thereon, the defendants appealed; new trial.

90.

State v. W. S. Neely; from Macon; carrying concealed weapons; from a verdict of guilty and judgment thereon, the defendant appealed; error.

91.

State v. Eugene Pugh; from New Hanover; larceny; from a verdict of guilty and judgment thereon, the defendant appealed; new trial.

92.

State v. Will Foy; from Forsyth; larceny; from a verdict of guilty and judgment thereon, the defendant appealed; new trial.

93.

State v. J. T. Lackey; from Burke; larceny; from a verdict of guilty and judgment thereon, the defendant appealed; affirmed.

94.

State v. W. E. Hagan; from Madison; from a verdict of guilty of manslaughter and judgment thereon, the prisoner appealed; affirmed; no error.

95.

State v. Cyrus Dixon; from Jones; from verdict of guilty of murder in first degree, and from judgment thereon, the prisoner appealed; no error.

Cases Disposed of at August Term, 1902, Per Curiam:

96.

State v. Southern Railway Company; from Burke; affirmed.

97.

State v. Solomon Stanton and Laura Gentry; from Madison; appeal dismissed.

Continued to February Term, 1903:

98.

*State v. Joshua Crook; from Union; *certiorari* ordered.

99.

State v. Frank May; from Guilford.

100.

State v. A. H. Ninestein; from Rowan.

101.

State v. J. R. Johnson; from Wilkes.

102.

State v. John G. Mitchell; from Rockingham.

103.

State v. J. F. Austin; from Randolph.

EXHIBIT 2.

LIST OF ACTIONS IN THE NATURE OF QUO WARRANTO PROCEEDINGS, BROUGHT BY PRIVATE RELATORS IN THE NAME OF THE STATE, UPON LEAVE GRANTED BY THE ATTORNEY-GENERAL, UNDER THE CODE, SECTION 608.

1.

Oliver C. Marsh, relator, v. James P. Burroughs; to try the title to the office of Register of Deeds of Randolph County; leave granted 27th November, 1900.

2.

David M. Holladay, relator, v. W. J. Miller; to try title to the office of Treasurer of Randolph County; leave granted January 14, 1901.

3.

William F. Redding, relator, v. Henry C. Lassiter; to try the title to the office of Sheriff of Randolph County; leave granted December 6, 1900.

The authority to sue in the name of the State in the foregoing cases was granted by Hon. Robt. D. Douglas, my predecessor in office. Motions were subsequently made, before the present Attorney-General, to withdraw the leave on account of the insufficiency of the surety named in the undertakings filed. This motion was denied, but the several relators were required to furnish adequate indemnifying bonds.

4.

John W. Muse, relator, v. John T. Cooper; to try title to the office of Treasurer of Pamlico County; granted by Hon. Robt. D. Douglas, January 8, 1901.

5.

John C. Muse et al., relators, v. Chas. C. Flowers et al., to try title to the office of the Board of County Commissioners of Pamlico County; granted by Hon. Robt. D. Douglas, January 8, 1901.

6.

W. E. Hooker, relator, v. W. J. Parker and A. B. Campen; to try title to the office of Sheriff of Pamlico County.

7.

Goldsboro Lumber Company, relator, v. J. C. Sutton, W. A. Wilson and Freeman Tyndal; to test their right as Registrar and Inspectors to hold an election in the town of Dover; leave granted May 2, 1901.

8.

R. T. Sistare et al., relators, v. Washington J. King et al.; to try title to the offices of Mayor and Commissioners of town of Waxhaw; leave granted 16th May, 1901.

9.

George Gilliam, relator, v. James M. Grizzard; to try title to the office of Mayor of the town of Halifax; leave granted June 1, 1901.

10.

W. M. Henson, relator, v. Riley M. Ferguson; to try title to the office of Tax Collector of Haywood County; leave granted September 5, 1901.

11.

T. O. Rodwell, relator, v. Thomas N. Harrison; to try title to the office of Mayor of town of Littleton; leave granted October 8, 1902.

12.

Reuben Elliot, relator, v. J. Dallas Stansbury; to try title

to the office of Register of Deeds of Ashe County; leave granted December 22, 1902.

There is no record in this office of the determination of any of the foregoing cases except in No. 10—W. M. Henson, relator, v. Riley M. Ferguson. In this case, the judgment of the Superior Court was for the defendant; affirmed in the Supreme Court; disposed of without written opinion, 130 N. C. Report, page 744. The remaining cases are either still pending in the Superior Courts, or have been settled by the parties.

CRIMINAL STATISTICS.

STATEMENT A—CRIMINAL ACTIONS DISPOSED OF FROM JULY 1, 1900, TO JULY 1, 1901.

APPENDIX.

OPINIONS OF THE ATTORNEY-GENERAL.

LAND COMPANY—PRIVILEGE TAX—CAPITAL STOCK.

ATTORNEY-GENERAL'S DEPARTMENT.

RALEIGH, N. C., January 29, 1901.

HON. B. R. LACY, *State Treasurer.*

SIR:—Your communication of the 28th instant with enclosure addressed to you was duly received.

The question you submit for my examination relates to the franchise tax on private business corporations under Section 36, Chapter 11, of the Public Laws of 1899. The purpose of the General Assembly under this Section to tax such corporations in proportion to their capital stock, is apparent.

"Provided, that when the capital stock of any land company or corporation shall not amount in actual value to more than ten thousand dollars, the tax imposed by this Section shall be twenty-five dollars, and no more."

It appears that the tax to be paid by the company or corporation embraced in this proviso, to-wit, "any land company or corporation," is not to be determined by the amount of its capital stock, but by the *actual value* thereof.

In order to ascertain the amount of tax to be paid by the East Goldsboro Land and Investment Company, as a franchise tax under said Section 36, Chapter 11, Laws of 1899, it is necessary to determine the amount of the capital stock and the actual value thereof.

The words "capital stock," as used in this Section mean, in my opinion, the money or property owned and held by the company in its corporate capacity; and if the actual value of such property, so owned and held, is not more than ten thousand dollars, the tax would be twenty-five dollars.

Respectfully,

ROBT. D. GILMER,

Attorney-General.

COUNTY SUPERINTENDENTS—EXAMINATION OF TEACHERS
—FEES.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., February 7, 1901.

HON. T. F. TOON, *Superintendent Public Instruction.*

SIR:—Replying to your communication of the 5th instant, containing the letter of, in regard to private examinations of public school teachers by the County Superintendent, the following is respectfully submitted:

The question he asks is: "Can a County Superintendent refuse a private examination of teachers upon the presentation of the fee of one dollar by the applicant, assuming the ability of the applicant to show a good moral character?"

Section 37 of the Public School Law provides that the County Superintendent *shall* conduct his examinations at the court-house in the county on certain days therein specifically mentioned; and in the said Section it is further provided, that "for the examination of teachers at any other time than above named, he shall require of such applicants a fee of one dollar in advance." It, therefore, appears that the legislative policy is that these examinations shall be publicly conducted, and I am of the opinion that the said Section lodges with the County Superintendent a discretion with reference to the examination of teachers at any other time than on the days mentioned in said Section 37. The law, however, would require him to exercise this discretion in a reasonable manner, and if he should do so in an arbitrary and oppressive way, he would render himself amenable to Section 10 of the Public School Law.

Respectfully,

ROBT. D. GILMER,

Attorney-General.

CLERICAL SERVICES AT STATE'S PRISON—COMPENSATION.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., February 7, 1901.

HON. B. R. LACY, *State Treasurer.*

SIR:—Replying to your communication of this date, relative to the payment of a certain warrant for services performed by a minister of the gospel at the State's Prison, under Section 3446 of The Code, and asking my opinion as to the proper fund to which said warrant should be charged, the following is respectfully submitted:

Section 3446 of The Code, is based upon Section 18, Chapter 158, of the Laws of North Carolina 1873-'74. The language of both is identical, with the exception that the maximum amount to be paid for

such services is fixed at two hundred dollars by the Act of 1873-'74. This has been amended by The Code in Section 3446, and the maximum amount is now five hundred dollars.

In my opinion a reference to two Sections of the said Act of 1873-'74 will disclose that it was the purpose of the Legislature that the compensation for clerical services rendered under Section 3446 of The Code should be paid out of the fund *specifically appropriated for Penitentiary purposes*.

Section 1, Chapter 158, Act of 1873-'74, provides: "That for the purpose of prosecuting the work and maintenance of the convicts of the Penitentiary, the Board of Directors are hereby authorized to issue their warrant upon the Treasurer, to be approved by the Governor, for an amount not to exceed eight thousand dollars per month, *the same to be paid out of the money appropriated for Penitentiary purposes*, but not to exceed in the aggregate that provided in the Revenue Act."

Section 18 of the said Act provides that the Board of Directors may make an appropriation of not more than two hundred dollars per annum for the same services as are mentioned in Section 3446.

The legislative intent, that "the same should be paid out of the money *appropriated for Penitentiary purposes*," as provided in Section 1 of the said Act, is apparent.

An examination of the several Acts of the General Assembly from 1883 to 1889 does not show that any provision has been made for the payment for such services as those provided for in Section 3446 out of the General Fund. I am, therefore, of the opinion that the same is chargeable against such amounts as have been set apart for the support and management of the State's Prison.

Respectfully,

ROBT. D. GILMER,
Attorney-General.

PRIVILEGE TAX—FOREIGN CORPORATIONS.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., February 8, 1901.

HON. B. R. LACY, *State Treasurer.*

SIR:—Replying to your favor of yesterday, in regard to the liability of the Southern Newspaper Union to pay a license tax, the following is respectfully submitted:

Section 36, Chapter 11, Public Laws of North Carolina, Session 1899, imposes a franchise tax upon every private business corporation, except railroads, banks and insurance companies, which are specifically excepted. By the express terms of the said Section, this provision applies equally to all companies, whether *home* or *foreign*.

The power of the Legislature to impose such tax incorporated by

the General Assembly of this State, and doing business in North Carolina, was upheld in the case of *Cobb v. Commissioners of Durham*, 122 N. C., 307. Foreign corporations can only do business in this State by the rules of comity, and the Supreme Court of our State has held in the case of *Range Company v. Carver*, 118 N. C., 328, that under this doctrine they can not be accorded greater privileges than our own citizens or corporations formed under the laws of this State. In the case of *State v. Caldwell*, decided at the last term of the Supreme Court of North Carolina (Southeastern Reporter, Vol. 37, No. 7, page 138), and which will appear in the next volume of the Reports, the following language appears in the opinion of the Court. The question is: "Could the Chicago Portrait Company, because it was a foreign corporation, engage in business

* * * in Greensboro without becoming liable for a city tax, for which its citizens would be liable? It seems to us that it should not." In this case the Court cites *Range Company v. Carver*, *supra*, and *Emert v. Missouri*, 156 U. S., 296. I am, therefore, of the opinion, as hereinbefore indicated, that the Southern Newspaper Union is liable to the franchise tax.

Respectfully,

ROBT. D. GILMER,
Attorney-General.

DEALER—DEFINITION OF.

* ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., February 9, 1901.

HON. B. R. LACY, *State Treasurer.*

SIR:—Replying to your letter of yesterday enclosing letter from, in regard to "what constitutes a lumber dealer," I beg to say:

A dealer, in the popular sense of the word, and also in the sense in which it is employed in the Revenue Act, has been defined by the Courts to mean: "Not one who buys to keep, or makes to sell, but one who buys to sell again." A person who engages in the business of buying timber trees and saws them into lumber, selling only the output of his own plant, would not be a dealer in the sense in which that word is used in the statute; he would be a manufacturer of lumber. If, however, he should keep a warehouse or lumber-yard where lumber manufactured by himself, as well as that manufactured by others, is offered for sale, he *would be* a dealer in contemplation of the statute. *State v. Chadbourn*, 80 N. C., 479.

Respectfully,

ROBT. D. GILMER,
Attorney-General.

SECRETARY OF STATE—GRANT FOR LAND—WHEN TO BE
CLEARED OUT OF OFFICE—SECTION 2766 OF
THE CODE CONSTRUED.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., February 14, 1901.

HON. J. BRYAN GRIMES, *Secretary of State*.

SIR:—Replying to your communication of the 12th instant, relative to Section 2766 of The Code, and asking for a construction of the same, the following is respectfully submitted:

That portion of the said Section pertinent to your inquiry is as follows: "All entries of land, made in the course of any one year, shall, in every event, be paid for on or before the thirty-first day of December, which shall happen in the second year thereafter."

This question has been settled by the Supreme Court of our State. In the case of Stanley v. Biddle, 57 N. C., 383, it appears that certain entries were made by the defendant on the *twenty-eighth* day of *October, 1854*, and the Court held that he had until the *thirty-first* day of December, 1856, to pay the purchase-money. The statute in question was enacted by the Legislature at its session of 1854-'55, and the above case was decided in 1859. The interpretation placed upon this statute by your Department is in accordance with the decisions of our Court.

Therefore, in this case the entry having been made on December 26, 1899, the enterer would have until December 31, 1901, in which to pay the purchase-money before his entry would lapse.

Respectfully,

ROBT. D. GILMER,

Attorney-General.

ENTERTAINMENTS—CHARITABLE INSTITUTIONS—EXEMP-
TION FROM TAXATION.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., February 21, 1901.

HON. B. R. LACY, *State Treasurer*.

SIR:—Replying to your favor of recent date, enclosing letter from, I beg to say:

The question asked is, "Should the Sheriff collect a license tax on concert charging admission fees when the proceeds go to the Masonic Order?" Section 11, Chapter 11, Laws 1899, exempts from this tax concerts given for the *sole* benefit of religious, charitable or educational purposes,* and I am of the opinion that a concert given for the *sole benefit* of the Masonic fraternity would come within this exception.

**Markham v. Conservatory of Music*, 130 N. C., 276.

I do not think it was the purpose of the Legislature to require the payment of the tax on a concert given for the *sole purpose* indicated, and I am supported in this opinion by the fact, that in Section 20, Chapter 15, of the Laws 1899, property set apart and exclusively used for certain organizations therein mentioned, including the Masonic fraternity, is specifically exempted from taxation.

Respectfully,

ROBT. D. GILMER,

Attorney-General.

SUB-COMMISSION ON TEXT-BOOKS—COMMISSIONERS FOR
SPECIAL PURPOSES—ELIGIBILITY OF WOMEN.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., February 22, 1901.

To His Excellency the Governor.

SIR:—Replying to your communication of yesterday's date, in which you ask my opinion whether the Sub-Commission on Text-Books are officers under the Constitution and laws of North Carolina; and, if a woman would be eligible to a place on the Commission, I have the honor to reply as follows:

In my opinion the members of the Sub-Commission are *not* officers within the meaning of the Constitution and laws of North Carolina.

MECHEM, in his work on *Public Officers*, Section 1, says:

"A public office is the right, authority and duty created and conferred by law, by which for a given period, either fixed by law or enduring at the pleasure of the creating power, an individual is vested with some portion of the sovereign functions of the government, to be exercised by him for the benefit of the public. The individual so invested is a public officer."

Section 1 of the act creating the State Text-Book Commission provides that the State Board of Education shall constitute a State Text-Book Commission, "whose duty it is to select and adopt a uniform series or system of text-books for use in the public schools in the State of North Carolina;" and under the provisions of the said act, it is made the duty of a Sub-Commission to be appointed by the Governor, to examine and report upon the merits of text-books proposed for adoption in the public schools of the State. This report is to be submitted to the State Text-Book Commission, whose duty it is to consider the same; but the act expressly provides that "said Commission shall select and adopt such books as will, in their best judgment, accomplish the ends desired." Therefore, it appears that that portion "of the sovereign functions of the government" relating to the selection of text-books to be used in the public schools has been vested with and upon the State Text-Book Com-

mission and not the Sub-Commission. The general functions of government relating to the public schools in North Carolina are lodged with the Superintendent of Public Instruction under the law, and with the State Board of Education under the Constitution. The authority of these is general in relation to the public schools, but that of the Sub-Commission is restricted to specific matters, and no powers are conferred upon them other than specified and named in their appointment. The duties which they perform are transient, and when performed the members are *functi officio*. They are not called upon to take the Constitutional oath of office, and are only entitled to compensation during the time that they are actually engaged in the discharge of their duties. The views herein submitted are sustained by Article 14, section 7 of the Constitution of North Carolina, which declares:

"No person who shall hold any office or place of trust or profit under the United States or any department thereof, under this State, or any other State or Government, shall hold or exercise any other office or place of trust or profit under the authority of this State, or be eligible to a seat in either House of the General Assembly: *Provided*, That nothing herein contained shall extend to * * * Commissioners of Public Charities or Commissioners for special purposes."

Therefore, under the Constitution, commissioners for special purposes are not officers. It is my opinion that the Sub-Commission are *commissioners for a special purpose*, and not *officers*, as hereinbefore stated.

Answering your second question: Is a woman eligible to a place on the Commission, I have the honor to submit: In the case of *Minor v. Happersett*, 21 Wall., 162, the Supreme Court of the United States decided that although a woman may be a citizen, she is not entitled by virtue of her citizenship to take any part in the government, independent of legislation conferring such rights upon her. It follows, therefore, that unless there is some constitutional or legislative authority enabling her to hold the position of Commissioner for a special purpose, as defined in our Constitution, she would be ineligible. There is no constitutional restriction, and the General Assembly might, in the exercise of its discretion, have provided that a woman should be eligible to serve on the Commission. That this discretion has been exercised by the Legislature should appear from some positive provision. I find none in the act creating the State Text-Book Commission. It is true that section 3 of the act provides that the Sub-Commission shall be selected from among the teachers, city or county superintendents actually engaged, in the school business of this State, yet in defining the duties of the Sub-Commission, words importing the masculine gender are used. To construe this act as broad enough to authorize

the Governor to appoint a woman on this Commission, would, in my opinion, be an innovation upon long established precedents in North Carolina, and unwarranted in the absence of express legislative authority. As was said by the Supreme Court of Massachusetts in *Robinson's case* (131 Mass., at page 381), "the whole course of legislation precludes the inference that any change in the legal rights or capacities of women is to be implied, which has not been clearly expressed."

I am therefore of the opinion that a woman is not eligible to a place on the Commission.

Respectfully,

ROBT. D. GILMER,
Attorney-General.

FROM OFFICE DURING IMPEACHMENT PROCEEDINGS—COMPENSATION.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., FEBRUARY 28, 1901.

HON. B. F. DIXON, *Auditor.*

SIR:—Replying to your letter of the 25th instant, in which you ask my opinion "of the law governing the payment or non-payment of the Chief Justice and the Associate Justice of the Supreme Court, upon whom articles of impeachment have been served, under the resolution of the General Assembly of North Carolina," I have the honor to submit the following:

In the distribution of judicial power in North Carolina under the Constitution, the jurisdiction, in cases of impeachment, is vested in a tribunal known as "a Court for the Trial of Impeachments." Section 2, Article 4 of the Constitution. In section 3 of the same article it is declared that this Court "shall be the Senate." Every proceeding, therefore, to impeach an officer under these sections is essentially a judicial proceeding, and has been confided to that branch of the State government.

Chapter 25, Volume 2 of The Code prescribes certain regulations to be observed in conducting impeachment trials; and section 2934—the same being a part of the said chapter—is in the following words:

"Every officer impeached shall be suspended from the exercise of his office until his acquittal."

The statutory suspension relates only to the *exercise* of the office, the constitutional right of removal in case of conviction—to the *office itself and the legal title thereto*. A mere suspension would not create a vacancy, but "the anomolous and unfortunate condition of an office, an officer, but no vacancy." *Mechem on Public Officers*, Section 453.

While the judges are not now, on account of the statutory inhibition, exercising the functions of office, they are, nevertheless, offi-

cers holding the legal right which carries with it, as an incident, the right to compensation, which right, in my opinion, exists until declared forfeited by a court of competent jurisdiction—the Court of Impeachment.

The Supreme Court of California, and that of other jurisdictions, has held that “the right to receive a salary is an incident which attaches itself to the legal title to the office.”

Ward v. Marshall, 31 American State Reports, page 198, and several cases there cited.

The right to *compensation* is forfeited only when the *right* to the office is forfeited. When does this occur? It can not be at the time of the commission of the impeachable offense, for, in some cases, this might consist of a series of acts running through a long period of time, and occurring on different dates; it can not be when the proceedings are instituted, for this is but the invoking of the jurisdiction to determine the question. In my opinion, the right to the office is forfeited only when the judgment of the Court of Impeachment so declares. The Constitution evidently contemplates that the person impeached shall be in possession of the office at the time of the rendition of the judgment, for, in Section 3, Article 4, it is provided that the “judgment shall not extend beyond *removal* from, and disqualification, to hold office in this State.”

Mechem, in his work on *Public Officers*, Section 870, says:

“The right to receive or recover the salary or other compensation attached to an office being vested in him only who is by law the duly chosen and qualified incumbent of it, it follows necessarily that when the right of the officer to the office ceases * * * his right to longer receive compensation thereupon ceases also.”

The converse of this proposition is equally true. The right to compensation does not cease until the right of the officer to the office ceases. And this, we have seen, can not occur until the judgment of the Court of Impeachment is pronounced.

From what I have said it follows that I am of the opinion that the Judges are entitled to their salaries during their suspension from office.

Respectfully,

ROBT. D. GILMER,
Attorney-General.

LIQUOR LICENSE—EXECUTORS.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., March 11, 1901.

HON. B. R. LACY, *State Treasurer*.

SIR:—Replying to your letter of the 9th instant with enclosure
* * * I beg to say:

That in my opinion it will not be necessary for the executor in this case to obtain a license in order to dispose of the stock of liquors on hand belonging to the estate of his testator. The executor would not be authorized to continue the business, buying and selling, for the benefit of the estate, nor to dispose, *by retail*, of the stock of liquors remaining on hand. "But," in the language of *Black*, in his work on *Intoxicating Liquors*, "if he undertakes to transfer the whole stock, in bulk or in large quantities, to one or more purchasers, that it is not the kind of sale contemplated by the license laws, and in that case, it would appear, he should not be required to take out a license in his own name." A similar question was raised in the case of *Williams v. Troop, Administrator*, and reported in the 17 Wis., 478. In this case the Supreme Court of that State held, and we quote from the opinion, at page 489: "We do not think it would be a fair or proper construction of the excise law to say that it required an administrator to obtain a license before he could sell or dispose of liquors belonging to his intestate. He is a person whose plain legal duty it is to sell property, collect and pay the debts and settle up the estate committed to his charge. In performing this duty and disposing of the spirituous liquors belonging to the estate, it is no more necessary for him to obtain a license than it would be for a sheriff to obtain one before he could sell liquors taken upon an execution."

Respectfully,

ROBT. D. GILMER,
Attorney-General.

LICENSE TAX—ITINERANT OCULISTS AND OPTICIANS.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., March 27, 1901.

HON. B. R. LACY, *State Treasurer*.

SIR:—Replying to your communication of the 25th instant, containing enclosure * * * asking for a construction of the revenue law with reference to the license tax on oculists and opticians, the following is respectfully submitted:

After imposing a tax of five dollars on each oculist and optician, Section 85 provides: "Upon every itinerant oculist or optician

an annual license tax of twenty-five dollars for each county in which he may practice." In the communication enclosed it is said:

"We submit this case for * * * a client of ours. He lives in Durham and goes to Oxford, Burlington and Sanford to practice his profession about two or three times each year, remaining about one week each visit. Is he an itinerant and required to pay the \$25 tax for each county in addition to the \$5 tax?"

In the case of *Snyder v. Closson*, 84 Iowa, 184, the Supreme Court of that State, in discussing the meaning of the words "itinerant vendor," says: "It is not necessary that the person should travel all the time and have no fixed place of sale. He may have a place of business where he sells his goods during a part of the time, and he may travel for the sale of his medicines at other times." In this case the defendant had a fixed and permanent place of business in the town of his residence in the State of Iowa, but at certain times went to different parts of the same State for the purpose of advertising and introducing his medicines, and he was held to be an "itinerant vendor." And, again, the Supreme Court of Massachusetts (156 Mass., 215), says: "A person is an itinerant vendor * * * whether his whole business is selling temporarily or transiently, or whether he sells more or less frequently in connection with a permanent business at a fixed place or places."

The person in question has his residence and place of business in Durham, but practices his profession in other places, going there two or three times each year and remaining about one week at each visit. This makes him, according to the authorities, an itinerant, and subjects him to the tax of twenty-five dollars for each county in which he may practice.

Respectfully,

ROBT. D. GILMER,
Attorney-General.

APPOINTMENT TO OFFICE—COMMISSION.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., April 1, 1901.

COL. P. M. PEARSALL, *Executive Office.*

SIR:—Replying to your letter of recent date, in which you ask my opinion relative to the issuing of commissions and the fees thereon, under section 3721 of The Code, I have the honor to submit the following:

The pertinent provisions of the statute in question are as follows:
"The private secretary of the Governor * * * shall charge and

collect the following fees to be paid by the person for whom the services are rendered, namely, for the commission of Judge, Solicitor, Senator in Congress, Representative in Congress, Notary Public * * * for any commission for a place of profit."

Whether an appointment to a public office can be made by parol without any writing evidencing the fact, is a question not well settled by the authorities. In *People v. Murray*, 70 N. Y., 521, which *Mechem*, in his work on *Public Officers*, denominates a leading case, the Supreme Court says: "It seems that no appointment to any civil office can be made verbally, save where permitted by the terms of the statute conferring the appointing power; in the absence of such permission, there must be a commission, *i. e.*, a formal writing signed by the official with whom the power of appointment rests, clearly showing his intention to appoint the person named.* * *".

A careful investigation reveals no authority in this State for the making of verbal appointments to office; on the contrary, the statute under consideration, by implication, if not expressly, negatives the existence of such authority.

"An appointment by the executive, by and with the advice and consent of the Senate, is only evidenced by the commission; as the Executive may decline to make the appointment and to issue the commission, notwithstanding the advice and consent of the Senate."

People v. Murray, *supra*, citing Second Story on Constitution, section 1546.

Executive appointments affect the public, and are made in the exercise of the sovereign power and not under individual authority; and in my opinion, in all cases in which his Excellency, under the Constitution and laws of this State, is called upon to exercise this sovereign power, his act, being official in its character, should be authenticated by a commission duly and regularly issued, and upon which the fees as prescribed by law should be charged.

Respectfully,

ROBT. D. GILMER,
Attorney-General.

PUBLIC HEALTH—COUNTY SANITARY COMMITTEE.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., April 15, 1901.

DR. JOHN A. POLLOCK, *Kinston, N. C.*

DEAR SIR:—Replying to your favor of recent date, in regard to the number of persons composing the County Sanitary Committee under the Act of the Legislature at its recent session, amending Chapter 214, Laws of 1893, relating to the Board of Health, I beg to say:

Section 3 of the said Act is as follows: "That Section 5, as amended by Chapter 201, Laws of 1897, be stricken out and the following substituted therefor: There shall be an auxiliary Board of

Health in each county in this State, whose functions shall be, upon the call of the Chairman of the Board of County Commissioners, to advise the county authorities in all matters pertaining to the public health. These Boards shall be composed of all registered physicians resident in the county. From this Board two physicians shall be selected, one by the Chairman of the Board of County Commissioners, and one by the Mayor of the county town, who, together with the Board of County Commissioners, shall constitute the County Sanitary Committee, of which committee the Chairman of the Board of County Commissioners shall be *ex officio* Chairman." * * *

I am of the opinion that the expression in the above Section, "who, together," refers to the two physicians, and does not include the Mayor of the county town, who is only designated in the Section as one of the parties to select one of the physicians above named. It seems clear that the County Sanitary Committee is composed of the two physicians selected as indicated in the Section, and the Board of County Commissioners, and that the Chairman of the Board of County Commissioners shall be the Chairman of the said Sanitary Committee.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

PEDDLERS—DEFINITION OF—LICENSE TAX.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., April 17, 1901.

HON. B. R. LACY, *State Treasurer.*

SIR:—Replying to your communication of the 15th instant, asking for a construction of the Revenue Law with respect to peddlers, I have the honor to submit the following:

Your inquiry is in reference to book agents, but as the Legislature of 1901 made some changes in the law governing the definition of a peddler, I shall give you in this communication an opinion which will cover cases likely to arise in your Department, where the question of a peddler's license is involved. In the Revenue Acts for many years the Section relating to peddlers begins with this language: "Every person authorized to do business in this State, who, as principal or agent, peddles drugs, nostrums, medicines or goods, wares or merchandise, of whatever name or description, shall pay a license tax. * * *" The Revenue Law of 1893 contains these identical words, and under it, in *State v. Lee*, 113 N. C., 681, the Supreme Court defined a peddler to be "one who sells and delivers the identical goods he carries about with him." The following definition of a peddler was first introduced into the Revenue Act of

1895: "Any person carrying a wagon, cart or buggy for the purpose of *exhibiting or delivering* any wares or merchandise, shall be considered a peddler. This language appears in all the subsequent Revenue Acts, including that of 1901. In *Range Co. v. Carver*, 118 N. C., 328, the Supreme Court, at page 334, says:

"It is not necessary for us to decide in this case whether the definition given to the word peddler in *State v. Lee* was correct or not, as the Act of 1895, Chapter 116, Section 23, has made the definition 'that any person carrying a wagon, cart or buggy for the purpose of exhibiting or delivering any wares or merchandise,' shall be considered a peddler. This paragraph was not in the Acts under which *State v. Lee* and *State v. Gibbs* were decided. The Legislature had the right to make this definition."

In the Revenue Law of 1901 the language which had been usually employed at the beginning of the paragraph with respect to peddlers was abandoned, and the following inserted: "*Any person who shall carry from place to place any goods, wares or merchandise, and offers to sell or barter the same, or actually sells or barter the same, shall be deemed a peddler, and shall pay a license tax.*" * * * This Section leaves out certain articles, which, under the previous law, could have been sold by a peddler without license, including "books." Under the various statutes, and decisions of our Supreme Court, I am of the opinion:

1. That any person who carries from place to place any goods, wares or merchandise, and offers to sell or barter the same, or actually sells or barter the same, and delivers at the time the identical goods which he carries, is a peddler, whether he travels on foot or on horse, or mule, or in wagon, cart or buggy.

2. Any person traveling on foot, horse or mule offering for sale goods, wares or merchandise by sample, and not delivering the goods at the time, but delivering them afterwards on foot, horse or mule is not a peddler.

3. Any person offering to sell goods, wares or merchandise by sample, traveling on foot, horse or mule, and delivering the goods thus sold afterwards in wagon, cart or buggy, is a peddler.

4. Any person traveling in wagon, cart or buggy, for the purpose of exhibiting or delivering any goods, wares or merchandise is a peddler, whether he sells by sample and delivers the goods afterwards, or whether he delivers the identical goods at the time.

Respectfully,

ROBT. D. GILMER,
Attorney-General.

STATE HOSPITALS—INDIGENT AND NON-INDIGENT PERSONS.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., May 1, 1901.

DR. P. L. MURPHY, *Morganton, N. C.*

DEAR SIR:—Replying to your communication of recent date, in which you ask my opinion relative to the Act passed by the General Assembly at its recent session, in regard to the terms upon which patients are to be retained or admitted in the State Hospitals for treatment, and in answer to specific questions which you ask, I have the honor to reply as follows:

The Constitution of 1868, Article 11, Section 10, is in the following words: "The General Assembly shall provide that all the deaf mutes, the blind and insane of the State shall be cared for at the charge of the State.

In the Legislature of 1879 an amendment to the Constitution of the State was proposed as follows: "The General Assembly may provide that the indigent deaf mutes, blind and insane of the State shall be cared for at the charge of the State." Chapters 314, 254 and 268, Laws of 1879. This amendment was ratified by the people of the State at the election held in the year 1880. Section 42, Chapter 297, relating to the Western Insane Asylum, and Section 39, Chapter 133, relating to the North Carolina Insane Asylum, Laws 1881, contain this provision: "In the admission of patients, priority of admission shall be given to the indigent insane." Section 39, Chapter 156, Laws of 1883, uses the language above quoted, with reference to the admission of patients, and in addition thereto, the following proviso: "That the said Board may, if there be sufficient room, admit others than indigent insane upon payment of proper compensation." Section 44, Chapter 1, of the Laws of 1899, contains the same provision that the Boards may, if there be sufficient room, admit other than indigent persons, but omits the words, "upon proper compensation." The various Acts of the General Assembly subsequent to the adoption of the amendment above referred to in 1880 and prior to the Act of 1899, as above recited, clearly indicate that the legislative policy with reference to the admission of patients into the State Hospitals was:

1. To give priority to indigent insane.
2. To admit non-indigent persons upon payment of proper compensation.

Section 11 of the Act passed by the General Assembly at its recent session, emphasizes this policy. (Chapter 737, Public Laws 1901.) Its meaning is not hidden in the confusion of words appearing in its phraseology. It is as follows: "None except indigent insane persons shall be received into or retained in any of the State Hospitals

for the insane for care or treatment, unless, upon payment of such sum as the Board of Directors of the Hospital may determine, is sufficient to pay the expense of the maintenance of such person or persons, or so much thereof as the said Board of Directors may determine, such person or persons to be able to be paid in such manner as the said Board may direct. Any officer, servant or employe of the said Hospitals for the Insane, or any of them violating the provisions of this Act, shall be guilty of a misdemeanor." This Section means:

1. That indigent insane persons shall be received or retained in the State Hospitals and cared for at the expense of the State.

2. That non-indigent patients able to do so shall pay in full for maintenance and treatment such sum or sums as the Board of Directors may determine.

3. That non-indigent patients, unable to pay in full as above, shall pay "so much thereof" as the said Board of Directors may determine.

It, therefore, becomes important to ascertain the meaning of the term "indigent insane," as employed in the Constitution and Laws of North Carolina.

The Supreme Court of our State has already defined its meaning. *In re Hybart*, 119 N. C., 359, the following language is used: "The term 'indigent insane,' as used in Section 10, Article 11, of the Constitution, and Section 2278 of The Code, includes all those who have no income over and above what is sufficient to support those who may be legally dependent on the estate." This case settles the law, and is, in my opinion, the correct construction of the Constitution and Statutes. It has been affirmed in *State Hospital at Raleigh v. Fountain*, decided by the Supreme Court of our State, March 12, 1901.

I will now reply specifically to the questions which you propound:

1. "Where the wife is insane, and the husband is not indigent, in such case is the Hospital required to charge for the maintenance of the wife?" Undoubtedly so. By virtue of the relation of marriage the husband becomes liable in law for all the proper necessities of his wife, and it has been held by the Courts that the word "necessaries" embraces not only the services of a physician in the case of sickness, but anything which is required to keep her in health of body or mind, and the fact that treatment may in some cases require the skill of a specialist, does not make such services unnecessary or improper. So in all cases where the wife is insane, and the husband is not indigent (applying the definition given by the Supreme Court) the Hospitals should charge for the maintenance of the wife.

2. "Where a child is insane, and the father is not indigent?" The same answer as above will apply. The parent is in duty bound

to properly care for his children. That the moral duty exists goes without saying, and to this moral duty the law, as well as the dictates of humanity, in looking about for a suitable person upon whom to fasten the duty, care and support, finds none more suitable than the natural parent, and upon the principle of natural justice and natural law, fixes upon the parent the duty of supporting his infant child.

3. "Where insane child is over twenty-one years of age and the father is not indigent?" In a recent work on *Domestic Relations*, the following language is used: "It is the rule, therefore, that when a child arrives at the age of twenty-one years, or other age fixed by law when the majority is attained, the duty of the parent to support, whether the child is male or female, is at an end. The poverty or wealth of the child does not in any case alter the rule. The duty of support by the parent ceases absolutely upon the arrival of the child at majority."

The law imposes upon the Board of Directors the responsibility of determining what patients are to pay for treatment in the Hospitals, either in whole or in part, and those who are to be beneficiaries. It would be within the scope of the duty and power of the Boards to prescribe such rules and regulations as they might deem proper for the purpose of procuring the information necessary to enable them to carry into effect the provisions of the law. I have examined the series of questions submitted, and am of the opinion that the same, upon proper answers given, will enable you to carry the law into effect. It would be totally impracticable for me to undertake to gather the information that the resolution of your Board seemed to contemplate, but I beg to assure you that I shall at all times hold myself in readiness to advise with you as to the propriety of instituting suits for the purpose of collecting amounts due and conducting the same whenever the occasion arises.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

LICENSE UNDER SCHEDULE B—DURATION OF.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., May 23, 1901.

HON. B. R. LACY, *State Treasurer.*

DEAR SIR:—Replying to your communication of recent date, in regard to the license tax imposed under Schedule B of the Revenue Act, with reference to the duration of license, I beg to say that I have given the matter careful consideration and respectfully submit the following:

With reference to licenses of a similar character to those issued under Schedule B, a law writer says: "Usually such licenses are granted for the period of one year. Experience has demonstrated the wisdom of requiring the payment of a full year's rate, * * * and where there is no provision for the issuing of a license for a shorter period, an officer will not be protected in accepting any fee less than the annual rate." Under Section 32 of the Revenue Act the *State Treasurer* is authorized to issue a license for a period less than one year, but the provisions of the Section do not seem to be sufficiently broad to embrace any other officer.

I am, therefore, of the opinion that in all cases where a license is issued by an officer other than the *State Treasurer*, the license should be for the whole period of one year, ending May 31st, though the licensee operates under it for a shorter time.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

CORPORATIONS—ORIGINAL CERTIFICATE—TO BE FILED
WITH SECRETARY OF STATE.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., May 25, 1901.

HON. J. BRYAN GRIMES, *Secretary of State.*

DEAR SIR:—Replying to your question whether or not the original certificate of incorporation provided for in Section 9 of the Corporation Act, passed by the General Assembly at its session of 1901, should remain in your office, I have the honor to submit the following:

While the language on this point is not as clear as it might have been, I have reached the conclusion that the question should receive an affirmative answer. Section 9 provides that the Secretary of State shall cause the certificate of incorporation to be recorded "*if the same shall be in accordance with law.*" This invests him with quasi judicial power, and, in a manner, constitutes each application for incorporation a separate proceeding, in which a record should be kept. It is likewise provided that the said certificate of incorporation "*shall be filed in the office of the Secretary of State.*" The word *filed* has a well-defined legal meaning, and carries with it the idea of permanent preservation, becoming a part of the permanent records of the public office where it is filed. In the *American and English Encyclopedia of Law, Second Edition*, Book 13, page 13, it is said: "A paper is said to be filed when it is delivered to the proper officer and by him received, to be kept on *file*." It must have been the purpose of the Legislature, for obvious reasons, to provide

that there should be some official custodian of the original paper bearing the signatures of the parties desiring to be incorporated. There is no provision authorizing the Clerk of the Superior Court of the county in which the corporation is established to file in his office the original certificate of incorporation, and I am, therefore, of the opinion, that it was the intention of the General Assembly to provide that the said paper should be lodged as a permanent record in the office of the Secretary of State.

It is impossible for me to see how the corporation can in the slightest degree be prejudiced by this construction, as ample provisions have been made by which, under the statute, its corporate existence can be established without introducing the original document in evidence. When the State confers special powers and privileges upon individuals, she owes to herself and to her citizens the duty of preserving as the basis of her action the document bearing the original signatures of those who exercise a franchise by virtue of her authority, for the reason that cases might arise in which the production of the original instrument would be of importance.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

BILLIARD TABLE—CLUB—PUBLIC PLACE.

ATTORNEY-GENERAL'S DEPARTMENT.

RALEIGH, N. C., May 27, 1901.

HON. B. R. LACY, *State Treasurer.*

DEAR SIR:—Replying to your favor of recent date, in which you ask, "What the tax will be on a table used by a chartered club?" I have the honor to submit the following: This question relates to Section 60 of the Revenue Act of 1901. I take the words, "chartered club," mentioned in your letter, to refer to those associations or organizations established usually for social purposes, with a limited number of members, which own their building, or have acquired possession of the same by lease, and to which only the members of the club and invited guests, and not the public generally have the right of access. An institution of this character would not, in my opinion, be deemed a public place, and a billiard table kept therein for the entertainment of those entitled to the privileges of the club would not be subject to the tax provided for in Section 60 of the Revenue Act, the same not being kept "for public use."

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

GIFT ENTERPRISE—PRESENTATION OF ARTICLES TO INDUCE PURCHASES.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., May 28, 1901.

HON. B. R. LACY, *State Treasurer.*

DEAR SIR:—Replying to your favor of recent date, containing enclosures in the matter of the liability of to pay a license tax, under Section 61 of the Revenue Act, I have the honor to say:

From the papers submitted it appears that, representing a mercantile and manufacturing establishment, known as "The Hub," located in the city of Norfolk, Va., came to Edenton, in this State, bringing with him a line of samples of clothing. On his arrival at Edenton, he posted notices in the said town soliciting orders for clothing to be shipped direct to the purchasers in the original package, the said not at the time delivering the goods which he carried with him. It also appears that he posted a notice at the hotel in Edenton, where he had his samples on exhibition, which said notice was in the following language:

"Given away—absolutely free—guaranteed watch with a purchase of five dollars or more. The Hub."

It is unnecessary for me to consider the question of interstate commerce, which seems to be involved in the transaction, as, in my opinion, this party is exempt from the payment of any license tax under Section 61 of the Revenue Act, by the express terms of the proviso therein contained. The said Section provides: "On any gift enterprise, or any person or establishment offering any article for sale, and proposing to present purchasers with any gift or prize as an inducement to purchase, twenty dollars: * * * *Provided*, that this Section shall not apply to a merchant or manufacturer who offers to present to purchasers or customers a gift of certain value * * * as an inducement to purchase." The purpose of the Legislature, as I construe it, was to restrain the introduction of lottery schemes, or schemes that partake of the nature of a lottery into mercantile transactions. It does not prevent a merchant or manufacturer from presenting to his purchasers or customers a gift of a certain value. In this case every purchaser of goods to the amount of five dollars or more, receives a watch, and the element of chance does not enter into the transaction. It is true that the purchaser has no means of ascertaining the actual value of the watch until it is delivered, but nevertheless, it is a gift of a certain value, as distinguished from an article having no value at all.

The Revenue Act of 1899 contains language identical with that above quoted with reference to the imposition of a license tax of

twenty dollars on gift enterprises, etc., as an inducement to purchase, but does not contain the proviso above recited.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

GIFT ENTERPRISE—LICENSE TAX—POLICE POWER.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., May 29, 1901.

HON. B. R. LACY, *State Treasurer.*

DEAR SIR:—Replying to your favor of recent date, containing enclosures of, in the matter of the liability of to pay a license tax, under Section 61 of the Revenue Act, I have the honor to submit the following:

From the papers before me it appears that, representing a mercantile and manufacturing establishment, known as "The Liberty," came to Edenton, in this State, bringing with him a line of samples of clothing manufactured by the said house. On his arrival at Edenton he posted notices in said town soliciting orders for clothing to be shipped direct from Norfolk to the purchaser in the original package. It appears that the said issued a circular proposing to give away a pony, cart and harness, in accordance with a scheme described in the said circular. According to its terms each purchaser of goods received a numbered ticket with "every fifty cents worth, two tickets with every dollars worth, and ten tickets with every five dollars worth, and so on." The circular further announces that a duplicate ticket of each one, as issued above, will be put in a sealed barrel, and every holder of a ticket will stand the same "chance" in the drawing to take place at the time and in the manner provided in the circular.

This scheme, in my opinion, properly falls under the definition of a gift enterprise and subjects the party to the tax mentioned in Section 61, unless the principal of interstate commerce should prevent its application. Eliminating this scheme from the method of dealing employed by, his business would fall within the domain of interstate commerce, and would be beyond legislative control. I am of the opinion, however, that the inducements offered by to purchase, involving as they do an element of chance, are of such a character as to authorize their restraint and regulation by the imposition of a license tax, or their absolute prohibition by legislative enactment in the exercise of the police power of the State. The State of North Carolina, under the decisions of the Supreme Court of the United States, would have no power to prevent from selling in this State by sample goods in another

State at the time of the sale, to be thereafter delivered in the original package by a common carrier to the purchaser. It was not the purpose of the Legislature to interfere "in the slightest with the fair, straight-forward interstate business of an honest man," but to prevent, as I construe it, the introduction of lottery schemes, or schemes that partake of the nature of a lottery in mercantile transactions. The State certainly possesses this right in the exercise of the police power.

The case of *Humes v. City of Fort Smith, Ark.*, 93 Fed. Rep., 857, is very much in point. The decision was with reference to "an ordinance defining gift enterprises and fixing a license and tax thereon," and in it the following language occurs: "Whenever a calling or business is of such a nature that it may fairly be deemed against public policy or detrimental to public welfare, and might be prohibited entirely, a State legislature may provide that it shall be licensed, and its action in that regard is not an exercise of the power of taxation, but of its police powers, and is not subject to judicial control."

I am, therefore, of the opinion that is liable for the tax as provided in Section 61 of the Revenue Act.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

CORPORATIONS FORMED FOR UNLAWFUL PURPOSE—SECRETARY OF STATE—DISCRETION OF.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., May 30, 1901.

HON. J. BRYAN GRIMES, *Secretary of State.*

DEAR SIR:—Replying to your communication of recent date, enclosing certificate of incorporation presented to your department by certain parties of High Point, N. C., desiring to become incorporated as "The Hamner College of Science and Healing Company," under the Corporation Act passed by the General Assembly at its session of 1901, and asking my opinion as to your duty in the premises, I have the honor to submit the following:

Section 8 of the said Corporation Act provides that: "Any number of persons, not less than three, who may be desirous of engaging in any business, or of forming any company, society or association whatever, *not unlawful*, * * * shall be incorporated in the manner following," and Section 9 provides that the certificate of incorporation shall be filed in the office of the Secretary of State, "if the same shall be in accordance with law." From these two sections it appears that the Legislature has reposed in the Secretary of State a

discretion in the matter of determining the legality of the objects proposed in the articles of agreement submitted.

As stated in the certificate of incorporation in question, the principal object of the corporation is "to educate and graduate its students in the science of treating disease without the use of medicine or surgery." I am of the opinion that such a purpose is not in keeping with the legislative policy of this State bearing upon the question of the treatment of disease. Section 3122 of The Code says: "No person shall practice medicine or surgery, or any of the branches thereof, nor in any case *prescribe for the cure of diseases*" * * * without having first obtained a license so to do from a State Board of Medical Examiners. As a condition precedent to the privilege of treating diseases in this State, the law provides for an examination in certain branches of medical science, which examination is not only not contemplated by the organization seeking incorporation, but which is expressly repudiated by it. In the case of the *State of Nebraska v. Buswell*, 40 Neb., 158, under the title, "*Physicians and Surgeons; Practice in Violation of Statute; Christian Science*," the Supreme Court of that State says:

"The object of the Statute establishing a State Board of Health, etc., is to prevent imposition upon the afflicted by ignorant and unqualified pretenders to healing power, and any person not * * * having complied with the requirements as to a certificate, who shall under any pretence operate upon, profess to heal, or *prescribe for*, or otherwise treat any physical or mental ailment of another, thereby renders himself liable to its penalty."

Holding as I do, that the objects of this proposed corporation are not in consonance with the declared policy of the Legislature on this subject, I beg to advise that, in the exercise of the sound discretion reposed in you by the law, this application for a charter be denied.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

INCOME—REAL ESTATE—TAXATION.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., June 5, 1901.

HON. B. R. LACY, *State Treasurer.*

DEAR SIR:—I have your favor of recent date, containing enclosure of In his communication he says: "I am by profession an attorney at law. Within the past year a man employed and paid me two hundred dollars to represent him in a law suit. With the money I bought a town lot, which I to-day listed for State, county

and municipal taxation." He asks whether or not the two hundred dollars thus received and invested should be taken into consideration in estimating his income for taxation. I am of the opinion that it should be so considered. *Desty on Taxation*, page 202, says: "In come may be taxed, though invested in real estate, which is also taxed."

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

REAL ESTATE DEALER—LICENSE TAX.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., June 16, 1901.

HON. B. R. LACY, *State Treasurer.*

DEAR SIR:—Your letter of the 14th instant, containing enclosure of, in the matter of a license tax upon real estate agents, and making inquiry in regard to the extent to which a lawyer or a merchant can engage in business under Section 39 of the Revenue Act without paying the tax therein provided, I beg to submit the following:

The Supreme Court, in *State v. Barnes*, 126 N. C., 1063, says: "The word 'dealer' implies a habitual course of dealing, and a lumber dealer means one who habitually deals in lumber." So a real estate agent or dealer would be one who habitually engages in the business of buying and selling real estate. A lawyer or merchant, therefore, in order to become liable to the payment of the privilege tax imposed under said Section 39 of the Revenue Act, would have to engage habitually in the business mentioned in the said Section, or hold himself out to the public as ready to engage habitually in it. An occasional transaction will not suffice. The liability will depend upon the facts of each case. I have laid down a general principle, and the Sheriff will have to use his own judgment in applying it.

I beg to add that I am of the opinion that the payment of the tax for the privilege of practicing law would not entitle a person to engage in the business of buying and selling real estate, provided he falls within the definition of a real estate agent or dealer as herein given. In *Barnes' case*, *supra*, the Supreme Court says: "We do not mean to say that a man can not be a dealer unless he deals exclusively in one article or class of articles. He may deal in two or more different lines of trade, and it would make no difference if his course of dealing was principally in one line, provided he *habitually* dealt in the other."

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

DEALER IN SEWING MACHINES—LICENSE TAX.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., June 20, 1901.

HON. B. R. LACY, *State Treasurer*.

DEAR SIR:—I beg to acknowledge the receipt of your communication of the 17th instant, in which you say: "....., of Chicago, Ill., are shipping machines into North Carolina and selling them through express and freight agents," and asking me for an opinion in regard to their liability to pay a tax under the Revenue Act. I take it that the machines referred to by you are sewing machines. Replying to your inquiry, I have the honor to submit the following:

Section 52 of the Revenue Act contains the following provision: "Every manufacturer of sewing machines, and every person or persons, or corporation, engaged in the business of selling the same in this State, shall, before selling, or offering for sale any such machine, pay to the State Treasurer a tax of \$350 and obtain a license which shall operate for one year from the date of issue, and all licenses provided for in this Section shall be countersigned by the State Auditor and shall not be valid unless so countersigned." The Legislature has, therefore, clearly placed a tax upon the *business* of selling sewing machines in this State, and that it possesses such power can not be questioned. The language of the Statute is: "*Every* person or persons, or corporation, engaged in the business," etc. So there is no discrimination in favor of the citizen of this State and against a citizen of another State, and this being so, there is no violation of the Constitution. *Machine Company v. Gage*, 100 U. S., 678. These parties may insist that they are exempt from the payment of the tax under the doctrine of interstate commerce, but, in my opinion, this doctrine has no application. In *Range Company v. Carver*, 118 N. C., 328, the Supreme Court says: "The plaintiff is a foreign corporation and can only do business in this State by the rules of comity, and it would seem that under this doctrine it ought not to claim, and if it does claim it, should not be allowed greater privileges than our own citizens." Upon the authority of this case I am of the opinion that these parties are liable for the privilege tax prescribed in Section 52. An examination of this Section will show that its provisions are stringent, and the penalties mentioned therein will reveal that it was the legislative intent that any infractions of the law should be vigorously prosecuted. You are entirely right in your conclusion that to allow these parties to sell machines in this way is a great injustice to those parties who have paid the tax as prescribed by law, and I beg to recommend that you will call the attention of the officials to this provision appearing in the second paragraph of Section 52: "It shall be the

duty of all county, town and township bond officers to prosecute for penalties under this Section."

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

CORPORATION TAX—PACKING HOUSE—DEALERS IN FRESH MEATS.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., June 9, 1901.

HON. B. R. LACY, *State Treasurer.*

DEAR SIR:—Replying to your favor of recent date, containing enclosure of, relative to the liability of the Packing Company to pay certain taxes under the Revenue Law, I have the honor to submit the following:

The Supreme Court, in *Cobb v. Commissioners of Durham County*, 122 N. C., 307, held that the payment of a tax imposed upon a corporation for the privilege of being a corporation, does not relieve it from the payment of a tax imposed upon the privilege of carrying on the particular kind of business for which the corporation was chartered. I understand the facts in this case to be that the Packing Company is a corporation doing business in New Hanover County; that it has a packing house at which its meats are delivered in car-load lots and sold through an agent or agents to retail dealers; and I understand from the facts in this particular case that the Packing Company, in addition to the packing house mentioned in Section 66 of the Revenue Act, has established and is maintaining a local market, at which meats are delivered from the packing house, and sold by retail in competition with the local market to the individual consumer.

If the facts are as above given, the Packing Company should pay:

1. A corporation tax.
2. A packing-house tax, under Section 66.
3. A fresh-meat tax on dealers, imposed by Section 40.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

FOREIGN CORPORATIONS—CAPITAL STOCK—TAXATION.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., July 15, 1901.

HON. B. F. DIXON, *State Auditor*.

MY DEAR SIR:—In answer to the question submitted in your communication of recent date, I beg to give the following as my opinion:

I understand the facts to be that certain incorporated parties residing in North Carolina have erected a cotton mill in South Carolina, and on which they pay taxes in that State. The question you ask is: "Does this payment relieve the stockholders residing in North Carolina from liability to list and pay taxes in this State on the shares of stock held by them in the said corporation?"

With reference to the general power of corporate taxation possessed by the General Assembly, attention is called to the case of *Belo v. Commissioners of Forsyth County*, 82 N. C., 415. In that case it was held by the Supreme Court that the Legislature may lay a tax upon the capital stock of a corporation, and also upon the shares of stock held by the stockholders. Chief Justice Smith, in rendering the opinion of the Court in that case, cites with approval the following paragraph from *Burroughs on Taxation*, Section 90: "A share of stock in a corporation is a personal estate, at the place of his residence."

That it was the purpose of the General Assembly to include among the objects of an *ad valorem* taxation, shares of stock in incorporated companies, will appear by reference to the Machinery and Revenue Acts; and it will also appear by reference to the last sentence in Section 9 of the Revenue Act of 1901, that the General Assembly did not invoke its full powers as declared by the Supreme Court in the matter of corporate taxation. The said Section provides that, "Individual stockholders in any corporation, joint stock association, limited partnership or company paying a tax on its capital stock under this Section shall not be required to pay any tax on said stock or list the same." You will observe that the exemption from liability to pay tax on the individual shares of stock only obtains in those cases where the corporation pays a tax on its capital stock "*under this Section*," which means that the individual stockholder is not required to pay any tax on his stock whenever the corporation shall have complied with the provisions of Section 9 of the Revenue Act by paying "to the State Treasurer annually a tax, as prescribed in Section 3, upon each one hundred dollars of the actual value of its whole capital stock." The payment of taxes in South Carolina on the property owned by the corporation would not be payment "*under this Section*" so as to relieve the shareholder in this State from liability to pay tax on his share of stock.

The case of *Worth v. Commissioners of Ashe County*, 82 N. C., 420, and the same case again reported in 90 N. C., 409, is direct authority to the effect that the payment of tax by this corporation on its capital stock in South Carolina would not relieve a stockholder in this State from liability to pay tax on his share of stock in the corporation. In the case above cited, 90 N. C., 409, Chief Justice Smith, in reaffirming the ruling in the former case, cites with approval *Dyer v. Osborne*, 11 R. I., 321. The defendant in this case "contested his liability to taxation in Rhode Island, where he resided, on stock which he held in certain corporations formed and operating under the laws of Massachusetts, and in that State where all the stock was already taxed." But the Supreme Court of Rhode Island held that the State had jurisdiction to tax the defendant's stock "by having jurisdiction over the owner, the tax being, in fact, a tax upon the owner on account of ownership, rather than upon the shares themselves," and the Chief Justice of the Supreme Court of Rhode Island further added, in *Dyer v. Osborne*, *supra*: "It would certainly be going too far to hold that a man of wealth living in Rhode Island can not be taxed at all if his property is invested in the stocks of a manufacturing corporation of another State and there subject to taxation."

In the case of *Foster v. Stephens*, *Lawyer's Reports Annotated*, Book 13, page 166, the Supreme Court of Vermont held that the payment of an annual tax assessed on a corporation to the amount of its paid-up capital in a foreign State, would relieve the stockholders in Vermont from a tax on their shares, but this opinion was based upon the provisions of a certain Section of the Revenue Law of that State, specifically exempting from taxation "shares of stock in a corporation situated in another State * * * when the corporation is taxed in such State upon all its stock." I cite this case for the purpose of showing that taxation in another State will not exempt from taxation in North Carolina unless the letter of the law makes clear the legislative intent to exempt. The Legislature having exempted individual stockholders from the payment of tax on their shares only when tax is paid on the capital stock, in accordance with Section 9 of the Revenue Act, I am of the opinion that the parties in the case submitted by you are liable to a tax in this State on the shares of stock held by them.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

DRUGGISTS—MEDICATED BITTERS—LICENSE TAX.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., July 24, 1901.

HON. B. R. LACY, *State Treasurer*.

DEAR SIR:—Section 72 of the Revenue Act, upon which my opinion is desired, provides that a "druggist dealing in spirituous, vinous or malt liquors or medicated bitters, shall, on or before the 1st day of June of each year, obtain a license, upon the payment of fifty dollars to the Sheriff or Tax Collector." The question is, "What preparations can be sold by a druggist under this Section without a license?"

In construing a statute we should endeavor to arrive at the intent of the Legislature in passing it. I do not think it was the purpose of the General Assembly to embrace under the words, "medicated bitters" all those standard preparations usually found in drug stores, and which contain only a sufficient quantity of alcohol to preserve and render efficacious the ingredients therein employed. It is equally clear that it was the purpose of the Legislature to prevent the sale of intoxicating liquors, disguised under the name of medicated bitters, prepared by mixing with the liquor certain drugs, barks, etc., and designed for use as a beverage rather than a medicine. Some light may be thrown upon the question by reference to Section 71, which provides that "any person who shall sell any beverage which partakes of the intoxicating nature of spirituous, vinous or malt liquors, but which shall be designated under such names as * * * medicated bitters, * * * shall be guilty of a misdemeanor." * * *

In this paragraph medicated bitters fall within the designation of beverages, which partake "of the intoxicating nature of spirituous, vinous or malt liquors." It will be impossible for me to lay down a rule that will apply to all cases that may arise under this Section, as the question of fact will enter largely into the question.

The following rule has been given: "If a compound or preparation be such that the distinctive character and effect of intoxicating liquors are gone, and its use as a beverage is rendered undesirable or practically impossible by reason of the other ingredients, and the liquor is used merely as a vehicle for or preservation of the other ingredients, or to extract their virtues and held them in solution, the article will not be within the prohibition of the Statute, although its use may produce intoxication." The provision of our Statute is somewhat broader than that under which the foregoing rule was declared. The Arkansas Statute seemed to be somewhat similar to ours. It prohibits a sale without license of any ardent liquors, or "any compound or preparation thereof, commonly called tonics, bit-

ters, or medicated liquors," in any quantity or for any purpose whatever, and the Supreme Court in that State at one time held that it was a violation of the law to sell "home bitters" and "home sanative cordial" containing twenty per cent of alcohol, but in a later case the same Court made the following ruling, which seems to be in keeping with the weight of authority on the question: "If the jury believe from the evidence that the article sold by the defendant was not used and could not be used as a beverage, you would be authorized to acquit the defendant," and that "it was not the intention of the law to prohibit the sale of medicines because they contained a proportion of alcohol," and that, therefore, the fact that "the article sold to the defendant contained alcohol is not of itself evidence that the sale of such article without license was unlawful."

I beg to add the following quotation, which may be of service to the druggist in keeping within the provisions of the law:

"The composition and character of the article and the amount of alcohol in it, whether it does readily or with difficulty produce intoxication, whether it is agreeable or nauseous to the taste, whether it is used or not as a medicine to cure disease, whether it is generally kept and sold by druggists as a medicine, whether it is frequently resorted to and used as a beverage, are competent matters to be given in evidence to determine whether the article sold is or is not within the prohibition of the Statutes."

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

TEXT-BOOK COMMISSION—EXCHANGE OF TEXT-BOOKS.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., August 28, 1901.

HON. T. F. TOON, *Superintendent of Public Instruction.*

DEAR SIR:—Replying to your communication of this date, with enclosure, relative to the exchange of school books, under the provisions of the Act to establish a Text-Book Commission, passed by the General Assembly, at its last session, I have the honor to submit the following:

Section 10 of the said Act provides: "That the contractor or contractors shall take up *school books now in use in this State* and receive the same in exchange of new books, allowing a price for such old books not less than fifty per cent of the contract price of the new books.

Paragraph 5 of the contract entered into between the State of North Carolina and the book contractors is as follows:

"That the said party of the second part further covenants and agrees to supply each and all of the books or publications embraced

in this contract at the exchange price or prices therein named, in those cases where there is offered in part payment an old book which was in use in the State of North Carolina on the 8th day of February, 1901, or which was in use on July 1, 1901, or which was in use between said dates, and which is of like grade and upon the same subjects as the one for which it is taken in part payment, provided that the time in which *old books heretofore in use in the State of North Carolina* can be exchanged for new books, be limited to July 1, A. D. 1902." The text-book law, which is made a part of the contract, declares that the exchangeable books shall be "*books now in use in this State*," the date, February 8, 1901, mentioned in this contract, being the date of the ratification of the Act. In your letter you say: "If only the pupils of school *taught* since February 1, 1901, are allowed to exchange, then the exchange of books would benefit but a small part of the public school patrons," alluding to the date mentioned in the letter of According to my construction of the law and the contract made with the contractors, the clause "*school books now in use in this State*" determines what books can be exchanged, and these words, as used in the Act, mean those books taught in previous sessions of the school, and such books as would be used by patrons in the schools of this State if the General Assembly had not enacted the present law providing for the adoption of new books.

I do not think the certificate, a copy of which you enclose, and prepared by the contractor, to be signed by the teacher of the public school, and undertaking to define the conditions upon which an exchange of books can be effected by a public school patron, is authorized under the text-book law. The Statute does not confer upon the contractors authority to issue instructions to the managers of school book depositories, designed as their own interpretation of the conditions under which an exchange of school books can be effected; these questions being, in my opinion, within the jurisdiction of the State Text-Book Commission, to be determined in accordance with the law and the contract entered into with the publishers. Section 14 of the Text-Book Law declares: "That the said commission may, from time to time, make necessary regulations not contrary to the provisions of this Act to secure the prompt distribution of a book herein provided for and the prompt and faithful performance of all contracts," and for this purpose it is expressly provided in the said Act that the Text-Book Commission shall maintain its organization during the five years, which is the period fixed for the expiration of all contracts entered into between the State and the book publishers.

In my opinion the execution of the law with reference to the exchange of school books should not be attended by any difficulty. The law clearly contemplates that any book of a certain grade and on a

certain subject, which has been used in the public schools, and which is in condition to be used, and would have been used, but for the passage of the Text-Book Law, can be exchanged for a book of a similar grade and on a similar subject at the exchange price provided for in the contract, absolutely without any conditions imposed by the contractors.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

SALARIES AND FEES—TAXATION.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., September 7, 1901.

HON. B. R. LACY, *State Treasurer.*

DEAR SIR:—I have the honor to acknowledge the receipt of your favor of the 6th instant, with enclosure

The party says in his communication: "Section 6 of the Revenue Act, of 1899, in taxing incomes, says: 'On the gross income derived from salaries and fees, public or private, one-half of one per cent, etc., on the gross income derived from all other sources, except * * * one-fourth of one per cent.' Under which head would the income of a lawyer be taxed?"

Replying to this question, I beg to say that I am of the opinion that the income of a lawyer should be taxed under the provisions first above quoted; that is, on the gross income derived from salaries and fees. The word "salary" denotes the compensation to be paid to a person for continuous service as contra-distinguished from particular services. The definition of the word "fee" in the *Am. and Eng. Ency. of Law, 2d Edition, Vol. 12*, page 889, is "a reward or wages given to one as a compensation for his labor and trouble for the execution of an office or profession, as those of an attorney or physician."

Had it been the intention of the Legislature to limit the meaning of the word "fee" to compensation allowed by law to an officer for services rendered by him, which is doubtless the meaning attached to it by those entertaining the view that the income of a lawyer should be taxed under the provisions of a "gross income derived from all sources," the word "private" would not have been used in the Statute in this connection.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

STATE HOSPITAL AT MORGANTON—EQUIPMENT—APPROPRIATION.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., September 21, 1901.

DR. P. L. MURPHY, *Morganton, N. C.*

MY DEAR SIR:—I have the honor to acknowledge the receipt of your letter of the 18th instant. Replying thereto I beg to say:

By Sub-section 3, Section 9, Chapter 737, of the Public Laws of 1901, among the appropriations made for the State Hospital at Morganton, is the following:

"Fifty-five thousand dollars for each of the years 1901 and 1902 to complete and equip the buildings already commenced, and equip a new building or buildings for male patients."

The question you ask is: "Does the word *equip* allow the Board to obtain an increased water supply and pay for it out of the appropriation for building?"

The word equipment means the "visible, tangible furniture, fixtures and apparatus on the premises, which are usual and necessary for the operations there conducted," and if the expenditure is for the purpose of furnishing water for the "buildings already commenced," or "new building or buildings for male patients," it is properly chargeable to the fifty-five-thousand-dollar annual appropriation mentioned in said Section 9. If it is your purpose to increase the water supply for buildings on the Hospital premises other than those contemplated in Sub-section 3, Section 9, I am inclined to the opinion that the appropriation would not be available. However, if it is a part of the general plan of increasing the water supply to furnish the buildings mentioned in the said Section without building an independent line, but to strengthen the plant as it now exists, the expenditure, in my opinion, would be properly chargeable to the fifty-five-thousand-dollar appropriation, even if a part of the water thus supplied was used in buildings other than those mentioned in the said Section.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

COUNTY BOARD OF EDUCATION—DEED—LEGAL TITLE.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., October 12, 1901.

HON. T. F. TOON, *Superintendent of Public Instruction.*

DEAR SIR:—I have the honor to acknowledge the receipt of your communication of the 8th instant, in which you ask for con-

struction of the following paragraph from Section 48 of the School Law: "The said Treasurer shall not pay any school money for buildings or repairing any school-house unless the site on which it is located has been donated to, or purchased by, the County Board of Education and the deed for the same regularly executed and delivered to the said Board, and their successors in office, probated, registered in the office of the Register of Deeds for the county, and delivered to the Clerk of the Court, to be by him safely deposited with his valuable official papers and surrendered to his successor in office, and for default he shall be liable on his official bond for any sum thus illegally paid."

It seems from the provisions of the foregoing Section, as well as those of Section 31 of the School Law, that it was the purpose of the Legislature to secure to the County Board of Education an absolute and unconditional title in fee simple to the premises upon which any public school building is located. A deed, in which there are any reservations or stipulations of any kind in behalf of the grantor or bargainor, would not, in my opinion, be such a deed as Section 48 contemplates. The public school money should be invested only in those cases where the absolute and unincumbered title, both legal and equitable, passes to the County Board of Education and their successors in office.

You will observe that Section 30 of the School Law contains the following provision: "When, in the opinion of the Board, any school-house, school-house site, or other public school property has become unnecessary for public purposes, they may sell the same at public auction, after advertisement of twenty days at three public places in the county, or at private sale. The deed for the property thus sold shall be executed by the Chairman and the Clerk of the Board, and the proceeds of the sale shall be paid to the Treasurer of the County School Fund." County Boards of Education would be greatly hindered, if not altogether prevented, from carrying into effect these provisions if the conveyances under which they claim contain restrictions, which would prevent them from passing to the purchaser an absolute and unconditional title in fee simple to the premises.

Condemnation proceedings are provided in Section 31, "whenever the Board is unable to obtain a suitable site for a school by a gift or purchase."

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

STATE GRANT—LAPSED ENTRY—TIME FOR PAYMENT OF
PURCHASE-MONEY—JUNIOR AND SENIOR ENTERERS.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., October 15, 1901.

HON. J. BRYAN GRIMES, *Secretary of State*.

DEAR SIR:—I have examined the papers which you submit in the matter of entry No. 2342, of sixty acres of land in the county of Swain, and for which application is made to your Department for a grant.

A copy of the entry is not enclosed, but from the order of survey given by the entry-taker of Swain County on the 1st day of September, 1899, it appears that the land was entered on the 10th day of February, 1898.

Section 2766 of The Code is as follows: "All entries of land made in the course of any one year, shall, in every event, be paid for on or before the 31st of December, which shall happen, in the second year thereafter; and all entries of land not thus paid for shall become null and void, and may be entered by any other person."

The purchase-money for the land for which the claimant applies for a grant should have been paid to the State by virtue of the Section above quoted, on or before the 31st day of December, 1900. *Harris v. Ewing*, 21 N. C., 369; *Stanley v. Biddle*, 57 N. C., 383.

The law allowed the claimant until this time to pay the purchase-money, and upon his doing so, it assured him that he should have a grant for the same upon application.

If the enterer complies with the statutory provisions, no authority can justly take away or deny his right to demand of the Executive officers the issuance of the grant in accordance with his entry. This right terminates upon his failure to pay the purchase-money in the time provided, and by Section 2766 becomes null and void.

Section 2767 provides: "Whenever an entry of land shall be made in any entry-taker's office, and the enterer shall fail to pay the price for the same within the time limited by law, any person who may have made a subsequent entry for the same land may pay the price and have a grant."

In the case of *Stanley v. Biddle*, *supra*, Judge Ruffin, delivering the opinion of the Court, says: "The law does not forbid a person from entering land previously entered by another. For it is the object of the law to effect sales of the public domain and, therefore, entries may be made *ad libitum*, subject, of course, to the engagement of the State to make a grant to the first enterer, provided he pays the price before, or at the day limited by law. But no policy of the State requires that an entry shall have elapsed before another person can enter the same land, but quite the contrary,

* * * *and the subsequent enterer is entitled to a grant if the first enterer fail to pay his money within the time limited."*

In *Bryson v. Dobson*, 38 N. C., 139, Ruffin, C. J., says: "From considerations of indulgence to the citizens and from motives of policy in having all the land appropriated as soon as possible, the Legislature has often relaxed the strictness of the terms as to the time of payment, and in other respects, so as both to prevent subsisting entries from becoming lapsed, and to revise some already lapsed."

The Legislature, by various Acts passed from time to time, extended the period within which to pay the purchase-money. The last that I have been able to find is Section 1, Chapter 47, Laws 1883, which is as follows: "The time for getting grants from the State for entries of land made since the 31st day of December, one thousand eight hundred and seventy-nine, is extended to the first day of January, one thousand eight hundred and eighty-four."

The necessity of legislative enactment to authorize the issuance of a grant after the enterer has allowed his entry to lapse by efflux of time, would seem to negative the existence of such authority in the absence of a statute in force conferring such authority. There has been no such statute in North Carolina since the expiration of the one hereinbefore referred to.

Should the grant issue in this case it would put the enterer in better condition than the law has placed him, and would render of no effect the provisions of Section 2768, which forbids an enterer who has suffered his entry to lapse by non-payment of the price, to re-enter the land within one year. To issue the grant under such circumstances would not be in keeping with the letter and the spirit of the law governing the entries of lands, and would be, in my opinion, an unauthorized remission of the penalty imposed by the statute upon the enterer for his non-compliance with the express provisions of the law.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

BUILDING AND LOAN ASSOCIATIONS—HOW FORMED.

ATTORNEY-GENERAL'S DEPARTMENT.

RALEIGH, N. C., October 23, 1901.

HON. J. BRYAN GRIMES, *Secretary of State.*

DEAR SIR:—Replying to your communication, with reference to the law governing the incorporation of Building and Loan Associations, I beg to say that I have reached the following conclusion:

Chapter 7, Vol. 2, of The Code, prescribes how Building and Loan

Associations may be formed. This Chapter has been amended, see Public Laws of North Carolina, Session 1893, Chapter 434, and Chapter 444, Public Laws of 1895. The Code, as amended by the Acts of 1893 and 1895, hereinbefore recited, constitutes a complete system providing for the incorporation of Building and Loan Associations, and prescribing rules and regulations for their management.

I do not find any statute repealing the foregoing provisions. Chapter 164, Public Laws of 1899, Section 2, Subsection 20, in defining the duties of the Corporation Commission, declares that it shall be the duty of the said commission:

"To perform all the duties and exercise all the powers as to Building and Loan Associations imposed or conferred upon the Auditor of the State by Chapter 7, Vol. 2, of The Code, and by Chapter 434, Public Laws of 1893, and Chapter 444, Public Laws of 1895, and to make all examinations, issue all certificates, and perform all other duties imposed by law upon the Auditor of the State relating to Building and Loan Associations."

Section 112, Chapter 2, Public Laws 1901, revising the Corporation Law of North Carolina, repeals Chapter 16, Vol. 1, of The Code, relating to corporations, but there is no reference to any repeal of Chapter 7, Vol. 2, of The Code, which relates to Building and Loan Associations.

My opinion, therefore, is that associations of this kind are not to be incorporated under the provisions of the Corporation Law, but under Chapter 7, Vol. 2, of The Code, and the Acts amendatory thereof.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

MANUFACTURER VENDING HIS OWN PRODUCTS—LICENSE PERSONAL.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., March 13, 1902.

HON. B. R. LACY, *State Treasurer.*

DEAR SIR:—Replying to your favor, containing enclosure, I have the honor to submit the following:

The writer says: "Parties inventing and manufacturing their own musical instruments in another State, could they sell and canvas the same in this State without taxation?"

The permission given by Section 54 of the Revenue Act to sell articles of one's own manufacture without taking out a peddler's license is personal to the manufacturer and it is not extended to agents employed by the manufacturer to sell his goods. If the party,

by the labor of his own hands, manufactures these goods, even out of the State, and in person engages in peddling, he is not liable to taxation, but he can neither sell through an agent, nor canvas through a musical house. If he does, he is no longer protected by the provisions of Section 54, and becomes liable to the tax.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

SECRETARY OF STATE—GRANTS BY THE STATE—WHEN
ISSUED.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., March 15, 1902.

HON. J. BRYAN GRIMES, *Secretary of State.*

MY DEAR SIR:—I have the honor to acknowledge the receipt of your communication of the 13th instant, enclosing papers presented by, asking for a State grant for certain lands entered by him in Carteret County, Entry No. 4258. You ask my opinion whether or not the grant should issue. In reply, I beg to submit the following:

Upon an application for a grant the Secretary of State is not authorized to consider any testimony outside of the papers presented by the claimant; and if it does not appear upon the face of the same that the land is not subject to entry, or the entry is otherwise void, it is the duty of the Secretary of State to issue the grant. *Wool v. Saunders*, 108 N. C., 729.

I observe nothing upon the face of the papers to indicate that the land is not subject to entry.

It appears from the warrant directed to the County Surveyor that the entry refers to eight thousand acres of land, and that the survey contains only eight hundred acres. It is unnecessary for me to pass upon the sufficiency or insufficiency of the description of the land, as set forth in the entry, for, in my opinion, this question only becomes pertinent where there are conflicting claims between senior and junior enterers.

"As between the State and the enterer the inchoate equity created by making an entry, not containing a specific description that confines it to a particular place, is 'in some degree a floating right to have a certain quantity of unappropriated land anywhere the enterer may select within two years on a certain stream or mountain in the county.'" *Grayson v. English*, 115 N. C., 358, at page 362, citing *Johnson v. Shelton*, 39 N. C., 85.

It is said by Judge Pearson, in the case of *Currie v. Gibson*, 57 N. C., page 25, that:

"Where the terms of description in which an entry is made are so vague as not to identify any land, the entry is not void, and the defect may be cured by the survey, so as to make the grant which issues in pursuance thereof, valid as against the State. This liberal construction of the law is put on the ground that it is not material to the State what vacant land is granted." So that if the description of the land in the entry was too general it has been cured by the survey made in pursuance of the warrant.

Section 2779 of The Code provides that: "The Secretary on application of claimants shall make out grants for all surveys returned to his office, which grants shall be authenticated by the Governor, countersigned by the Secretary and recorded in his office." It seems that this provision of the law is mandatory, and that upon the presentation of the survey, duly signed by the County Surveyor, it becomes the duty of the Secretary of State to issue the grant; and if any person should consider himself aggrieved in consequence of the issuance of the same, he can seek redress in the Courts. *McNamee v. Alexander*, 109 N. C., 242.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

EXEMPTION FROM TAXATION—PROPERTY USED FOR EDUCATIONAL PURPOSES.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., April 15, 1902.

HON. B. R. LACY, *State Treasurer.*

DEAR SIR:—I have the honor to acknowledge the receipt of your favor of recent date, containing enclosure of, with reference to the liability to taxation of certain property, used for school purposes.

Section 60 of the Machinery Act of 1901 exempts from taxation "property set apart and belonging to and exclusively used for the university, college and institutions of learning."

The policy of the law is to encourage educational institutions by exempting from taxation property used solely and exclusively for school purposes. Unless it is thus used no exemption can be claimed. The question is largely one of fact, and if it should appear that the property is held for any other purpose than that indicated, it would be subject to taxation.

Section 11 of the Revenue Act seems to favor this construction. It is there provided that all laws granting exemption from taxation are repealed, except as relates "to property * * * held for the benefit of churches, religious societies, charitable, educational, liter-

ary or benevolent institutions." The evident purpose of the proviso to this Section is to subject to taxation property belonging to educational institutions not used solely and exclusively for educational purposes.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

QUARANTINE—EXPENSE OF MAINTAINING—HOUSEHOLDER.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., April 19, 1902.

RICHARD H. LEWIS, M.D., *Sec. and Treas. N. C. Board of Health.*

MY DEAR SIR:—I have the honor to acknowledge the receipt of your favor of recent date, with enclosure of, relating to the payment of the expenses incurred in maintaining quarantine on account of smallpox infection. This matter, as you are aware, is regulated by Section 9, Chapter 214, of the Laws of North Carolina, Session 1893. In this Section the following language is used: "The expense of the quarantine and of the disinfection shall be borne by the householder in whose family the case occurs, if able, otherwise, by the city, town or county of which he is a resident."

The term "householder" signifies the occupier of a house, or one who provides for the household. Whether this definition of the word is sufficient to embrace the Atlantic Construction Company, or the railroad company, is not entirely free from doubt.

I note it is said that the railroad company has not refused to pay the expenses of maintaining the quarantine, and I am inclined to the opinion that under the circumstances detailed in his letter that the company is liable.

The writer says: "The general manager of the railroad ordered them moved from the adjoining county after he knew that smallpox had broken out among them," and it also appears from his letter that the railroad furnished provisions to the men, the cost of which was deducted from their wages.

This assumption of control on the part of the railroad company might constitute it a householder within the meaning of the statute.

It is clear that the county of Caldwell is not liable, for the persons in quarantine had neither acquired a residence nor settlement in that county.

If the railroad company can not be held responsible under the term "householder," the *resident* county is responsible for the cost of maintaining the quarantine.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

POST MORTEM EXAMINATION—COUNTY PHYSICIAN.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., May 15, 1902.

HON. M. N. HARSHAW, *Solicitor*.

DEAR SIR:—I have the honor to acknowledge the receipt of your favor of the 13th instant, asking my opinion "as to whether a Solicitor in directing a physician to make a post mortem examination, is required to select the county physician, or is he at liberty to select any good one in the county?" Replying thereto, I beg to submit the following:

Section 5, Chapter 214, Public Laws of 1893, in defining the duties of the Superintendent of Health (who is the county physician), declares that "he shall make the medico legal post mortem examination for Coroner's inquests." This provision of the law seems to require that when a Coroner shall "summon a physician or surgeon" under Section 657 of The Code, he shall designate the county physician. Section 1214 of The Code contemplates a different class of post mortem examinations. This Section directs that in a case of homicide any officer prosecuting for the State may direct an examination "to be made by one or more physicians to be summoned for the purpose." I find no provision of law requiring the Solicitor to designate the county physician to perform these services. Of course, there is no objection to his being named, and I take it that in the ordinary cases he would be requested to perform this work, but I do not think that a Solicitor is required to name him, but is at liberty to select any other physician.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.TREASURER OF THE COUNTY BOARD OF EDUCATION—COM-
PENSATION.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., August 5, 1902.

HON. J. Y. JOYNER, *Superintendent of Public Instruction*.

DEAR SIR:—I have the honor to acknowledge the receipt of your favor containing a copy of the report of, Treasurer of the County Board of Education of the county of, for the year ending June 30, 1901. My attention is directed to certain commissions of one-half per cent on receipts appearing in the said report, and my opinion is asked as to the legality of these items. Accompanying your enclosure is a letter from, in which he contends that the Treasurer is entitled to these commis-

sions, and rests his opinion upon Section 770 of The Code. I have read the expressions of his views as contained in his letter, with great care, but I am compelled to differ from him in the conclusion to which he has arrived. The purpose of second paragraph of the said Section 770 of The Code, as declared therein, was to provide compensation for the Treasurer in his capacity as Treasurer of the County Board of Education. The language is: "The said Treasurer shall receive as compensation, etc." Section 18, Chapter 199, Laws of 1889, deals with the same subject, to-wit, the compensation of the Treasurer of the County Board of Education, and in said Section the following language appears: "He shall be allowed for compensation as Treasurer of School Fund such sum as the Board of Education may allow him, not to exceed two per centum of his vouchers paid on orders of school committees."

It would seem that inasmuch as this Section deals with the question of the compensation of the Treasurer in its entirety, and provides that such sum may be allowed him, not to exceed two per cent of his vouchers paid on orders of school committees, that any preceding statute allowing a greater sum would be repealed.

You will observe that that portion of Section 58 of the School Law (Chapter 4, Laws of 1901), relating to the compensation of the Treasurer, is identical with Section 18, Chapter 199, Laws of 1889. I am clearly of the opinion that under the law as it now stands the Treasurer of the School Fund can not receive more than two per cent of his vouchers paid on orders of School Committees, and that the commissions of one-half per cent on receipts appearing in the report are erroneous.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

STATE BOARD OF EXAMINERS—LIFE CERTIFICATES.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., August 5, 1902.

HON. J. Y. JOYNER, *Superintendent of Public Instruction.*

DEAR SIR:—I have the honor to acknowledge the receipt of your favor of the 2nd instant, in which you ask my opinion with reference to Section 3, Chapter 108, Public Laws of 1897. The question involved is whether the State Board of Examiners still possesses the power to grant life certificates, and also renewals for five years. I have given the matter careful investigation, and have reached the following conclusion: The School Law, as the same appears in Chapter 15, second volume of The Code, beginning on page 132, is taken from the Act of the General Assembly of 1881, Chapter 200. The

law, as embodied in said Chapter 15 of the second volume of The Code, contained all the school laws then operative in North Carolina. This Chapter was amended from time to time by the Legislature, and occasionally that body would pass an Act revising and consolidating the Public School Law. This was done by the General Assembly at its session of 1901 (see Chapter 4). You will observe that in the arrangement of the Sections this Chapter is somewhat similar to Chapter 15 of The Code. It was evidently the purpose of the General Assembly to bring forward all the provisions of law relating to Public Schools then in force in North Carolina.

Section 70, Chapter 4, Laws of 1901, does not confer upon the State Board of Examiners power to grant life certificates. Had it been the purpose of the Legislature to continue this power, I am inclined to the opinion that it would have been specifically mentioned. In the revision and consolidation of the School Law in 1899 (see Chapter 732, Section 75), the provisions of law relating to the granting of life certificates was specifically reenacted, but in 1901, as hereinbefore stated, this power was omitted. I am of the opinion that the only powers now possessed by the State Board of Examiners are those declared in Section 70, Chapter 4, Laws of 1901.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

DIAMOND-BACK TERRAPIN—PROPAGATION OF.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., August 13, 1902.

ROBERT E. COKER, *Scientific Assistant U. S. Commissioner of Fish and Fisheries, Beaufort, N. C.*

MY DEAR SIR:—I have the honor to acknowledge the receipt of a letter from his Excellency, Governor Aycock, enclosing a communication from you asking for a construction of Section 3377 of The Code, as re-enacted in Chapter 582, Public Laws of North Carolina, session 1899, with reference to the taking or catching of the diamond back terrapin. Replying thereto, I beg to say that in the enactment of these laws it is evident that it was the purpose of the General Assembly to arrest the extermination of the terrapin. I do not think that official experiments conducted by the United States Commission of Fish and Fisheries for the purpose of checking the extermination of the diamond back terrapin, or to ascertain if its propagation would be practicable, would be considered a violation of the statute. It would certainly not be in violation of the spirit of the law which I think I am authorized to take into consideration in rendering an opinion.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

ELECTIONS—REGISTRATION BOOKS—WHEN OPENED AND CLOSED.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., September 15, 1902.

HON. F. M. SIMMONS, *State Chairman Democratic Executive Committee.*

Replying to your request for a construction of Section 18 of the Election Law relating to the date fixed for the opening of the registration books, and the time prescribed for closing the same, I have the honor to submit the following:

In said Section 18 it is provided "that the said books shall be closed for registration at sunset on the second Saturday before each election."

The statutory time for holding elections is "on the Tuesday next after the first Monday in November, in the year of our Lord one thousand nine hundred and two, and every two years thereafter." The election this year will, therefore, occur on Tuesday, November 4th. The registration books, according to these provisions of law, are to be closed on Saturday, the 25th day of October at sunset. Section 18 also provides: "That the registrar of each township, ward or precinct shall be furnished with a registration book prepared as hereinbefore provided, and it shall be his duty, between the hours of nine o'clock a. m. and sunset, on each day (Sunday excepted) for twenty days *preceding* the day for closing the registration books, as hereinafter provided, to keep open said books for registration of any electors residing within such township, ward or precinct, and entitled to registration."

I am inclined to the opinion that the above Section contemplates that there shall be allotted to each registrar twenty working days in which to perform the duties imposed upon him, and when this is the case, the general rule, that when an Act is required to be performed in a certain number of days, Sundays are to be included in the computation of time, does not obtain.

If the registration books were opened on Friday, October 3, at nine o'clock, and closed on Saturday the 25, at sunset, this would give twenty working days, but while the statute declares that the registration books shall not be closed until sunset on the second Saturday before election, it also says that the books shall be kept open for twenty days preceding the day for closing. Giving the statute, therefore, a liberal construction, I have reached the conclusion that the registration books should be opened on Thursday, the second day of October, at nine o'clock, and kept open each day until sunset (Sundays excepted), until sunset on Saturday, the 25th day of October.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

CESSION BY LEGISLATION TO UNITED STATES GOVERNMENT—PUBLIC BUILDINGS.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., October 21, 1902.

To the Honorable, the Secretary of Agriculture, Washington, D. C.

SIR:—I have the honor to acknowledge the receipt of your favor addressed to his Excellency, the Governor of North Carolina, in which you make inquiry as to whether any legislative action on the part of the State of North Carolina is necessary to enable the Government of the United States to acquire title to the site of land purchased for the use of the Weather Bureau as a meteorological station at Hatteras in this State. Your communication has been forwarded to this Department for answer. Replying, I have the honor to advise you as follows:

Section 3080 of The Code of North Carolina authorizes the Government of the United States to purchase any tract of land not containing more than twenty acres for the purpose of erecting thereon a certain class of buildings specifically mentioned in the said Section. Additional concessions were granted by the Legislature of North Carolina to the General Government by an Act ratified March 2, 1887, being Chapter 136, Laws of North Carolina, Session 1887. By virtue of this amendatory act the Government of the United States is authorized to acquire title to sites on which to erect and maintain a custom house, court house, post office or *other building*.

I am of the opinion that the authority thus granted under the words "other building" is broad enough to include the building referred to in your communication now erecting at Hatteras in this State, and that no further action on the part of the General Assembly is necessary in the premises in order to enable the Government of the United States to acquire title to the said site.

Very respectfully,

ROBT. D. GILMER,

Attorney-General.

CORPORATIONS — MANNER OF DISSOLUTION—SECRETARY OF STATE.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., November 13, 1902.

HON. J. BRYAN GRIMES, Secretary of State.

DEAR SIR:—I have the honor to acknowledge the receipt of your favor of yesterday's date in which you submit for my inspection returns made by certain corporations organized under the laws of North

Carolina under Section 48 of an "Act to Revise the Corporation Law of North Carolina."

The pertinent provisions of the said Section are as follows: "Every corporation, authorized to transact business in this State, shall file in the office of the Secretary of State, annually, within thirty days after every election of directors, a statement authenticated by the signatures of the president and secretary, containing the names of all of the directors, and officers, with the date of the election or appointment, term of office, residence and post office address of each, the character of its business, the location, giving street and number, if any, of its principle office in the State, and the name of the agent in charge of said office, upon whom process against the corporation may be served * * *."

The blanks prepared by your Department for the purpose of collecting this information are in proper form, and the failure on the part of the said corporations to furnish the said information does not seem to proceed from any disposition on their part to violate the law. The principle reason assigned for the failure to fill out the said blanks is that the corporation is no longer doing business in North Carolina, though it does not appear in any of the cases that there has been a dissolution of the corporation in accordance with the laws of North Carolina. When a corporation is created under authority granted by the State, even though its object be purely private, as in a case of a manufacturing company, this contract can not be terminated any more than any other contract by one of the parties without the consent of the other given either at the time the corporation is formed or afterwards. *Private Corporations, Clark and Marshall, 2 Vol., p. 851.*

In the case of *Boston Glass Manufactory v. Langdon*, 24 Pickering (Mass.), p. 49, *Morton, J.*, speaking of a purely private corporation, to-wit, a manufacturing concern, says: "The surrender of a charter can only be made by some formal solemn act of the corporation, and will be of no avail until accepted by the government. There must be the same agreement of the parties to dissolve that there was to form the compact. It is the acceptance which gives efficacy to the surrender."

In the case of a voluntary dissolution of a corporation under statutory authority, *Clark and Marshall, on Private Corporations, Vol. 2, p. 855*, say: "In most of the States the Legislatures have enacted statutes allowing the voluntary dissolution of private corporations and prescribing the mode in which such a dissolution may be effected. Such a statute, of course, is equivalent to acceptance by the Legislature of the surrender of the charter; but the

winding up and dissolution, to be effectual, must be in compliance with the terms of the statute."

Section 34 of "An Act to Revise the Corporation Law of North Carolina," passed by the General Assembly of this State at its Session 1901, specifically describes the manner in which a corporation organized under the laws of North Carolina may be dissolved, so that in order to effect the dissolution of a corporation the statutory provisions must be complied with. It is true that a private corporation may, at any time, cease operations as it is under no obligation to the State or to the public to carry on its business, "but cessation of business does not operate as a technical dissolution."

The following are some of the expressions endorsed upon the blanks now before me, and will serve to illustrate the character of most of them: "Not doing business in North Carolina;" "this company is no longer in existence;" "discontinued;" "not now in business;" "went out of business as a corporation November 1, 1901," etc.

While these statements indicate a purpose on the part of the corporation to cease the transaction of business, it can not be contended that they are sufficient, *ispo facto*, to effect a *legal* dissolution of a corporation in the face of the express provisions of the statute declaring how corporations may be dissolved.

I beg to advise you that I concur in your suggestion that these corporations conducting a purely private business should not be subjected to unnecessary inconvenience in winding up their affairs, yet I am of the opinion that in order to enable your Department to comply with the law governing corporations in this State, an effort should be made to procure a substantial compliance with Section 34 relating to the question of dissolution.

And to this end I beg to suggest that you again call the attention of the officers of these various corporations to Section 34 of the Corporation Law, and to enclose, if you should deem proper, a copy of this opinion.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

ARREST OF FUGITIVES FROM JUSTICE—REWARD.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., November 15, 1902.

To His Excellency, Governor of North Carolina.

SIR:—I have the honor to acknowledge the receipt of your favor of the 13th instant enclosing papers in the matter of the application

for the reward offered for the arrest of Frank Winn and his delivery to the Sheriff of the county of Wayne. The said Winn was arrested in Fayetteville, Cumberland County, on the night of the 10th of October, 1902, and three parties claim the reward, to-wit, W. S. Cook, James H. Benton and Thaddeus Winn. It appears from the papers filed in the case, that at the time of the arrest, W. S. Cook was sheriff of Cumberland, and James H. Benton was a police officer of the city of Fayetteville. Information having come to these officers that a fugitive from justice, charged with homicide in another county in the State, was lurking in their county, the law enjoined upon them the duty of making the arrest. *The Code of North Carolina*, Section 1126.

It is the duty of an officer to execute the functions of his office for the compensation attached to it by law, and he will not be permitted to recover a reward offered by the public for the performance of an act which it was a part of his official duty to perform if he could. *Mechem on Public Officers*, Section 861.

The case of *Warner v. Grace*, 14 Minn., 487, is so directly in point that I beg to cite it. In this case it is held that: "Where a deputy sheriff, upon the request of another person, and upon information furnished him by such person, arrested in his county, without a warrant, a person who had committed a felony in another county, for whose arrest and delivery to the authorities of the proper county a reward was offered, and delivered him to such authorities, he is not entitled to receive such reward. If he was satisfied that the information furnished him was true, it was his duty, as a peace officer, to make the arrest, and for making it he was entitled to the same fees as though it was made under warrant."

The same doctrine is announced by the Supreme Court of this State in *Malpass v. Caldwell, Governor*, 70 N. C., 130. It is perfectly clear that neither W. S. Cook nor James H. Benton is entitled to the reward offered in this case.

The application of Thaddeus Winn presents a more serious question, but after a careful reading of the affidavits in the case, I have reached the conclusion that he is not entitled to the reward. By the terms of the proclamation it was incumbent upon a party, in order to become entitled to this reward, to arrest the fugitive and deliver him to the sheriff of the county of Wayne. It appears that Thaddeus Winn did neither. He accompanied the officers for the purpose of identification, and a capture was accomplished by the officers, and by them the prisoner was delivered to the proper authorities of Wayne County. And it further appears from the record that Thaddeus Winn himself did not consider that he was entitled to the reward in his own right, for on the day following the arrest he signed a paper writing agreeing to accept from

W. S. Cook, sheriff of Cumberland County, fifty dollars as his part of the reward. From this it appears that Winn recognized the fact that the arrest had been effected by parties other than himself.

The case presented is one in which the arrest of the prisoner and his delivery to the proper authorities have been accomplished by officers upon whom the law cast the duty of making the arrest, and no reward, in my opinion, should be paid to anyone.

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

RECAPTURE OF CONVICTS—REWARD—PENITENTIARY
FUND.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., November 17, 1902.

HON. B. R. LACY, *State Treasurer.*

DEAR SIR:—I have the honor to acknowledge the receipt of your favor of recent date in which my opinion is requested upon a case presenting the following facts: A convict having escaped from the penitentiary authorities, a reward of twenty-five dollars was offered for his recapture and return. The prisoner was afterwards apprehended and delivered to the State's Prison, and the warden issued a warrant for twenty-five dollars and expenses incident to the recapture.

The warrant was issued by the Auditor, and upon presentation to you, the same was paid under protest, the warrant having been drawn against the General Fund. I understand that your Department rules that the compensation for the apprehension and return of an escaped convict to the penitentiary is not chargeable to the General Fund, but to the funds belonging to the State's Prison. A careful investigation of the various statutes relating to the management of the State's Prison leads me to the conclusion that you are correct in your ruling.

Section 5, Chapter 472 of the Public Laws of North Carolina, Session 1901, provides that the Board of Directors of the State's Prison "shall make provision for receiving and keeping in custody until discharged according to law, all convicts now confined in said prison, and all such as may be sentenced to imprisonment therein by the courts of this State, * * * The said Board of Directors may provide for the recapture of convicts that may escape from said prison, in such manner as they may deem best, and may pay such reward and expenses to any person making such recaptures as they may think proper."

Section 8 of the same Chapter provides that: "The Treasurer

of the State shall keep the funds of the said State's Prison of North Carolina separate from other public funds, and shall disburse the same on account of the State's Prison upon vouchers consisting of itemized accounts of the claim, and an order of payment signed by such officer or agent as the Board of Directors of said State's Prison shall authorize to sign the same, approved by Chairman of said Board."

I am of the opinion that the charges incident to the recapture and return of an escaped convict stands upon the same footing as any other item of expense incurred by the authorities in the management of the State's Prison, and should be charged to the funds belonging to the institution.

Article 11, Section 11 of the Constitution of North Carolina declares that "It shall be kept steadily in view * * * ; that all penal and charitable institutions should be made as nearly self-supporting as is consistent with the purpose of their creation." This constitutional provision clearly indicates that in legal contemplation all expenses incurred in the management of these various State institutions should be charged to the sums specially appropriated for their management and control in the absence of express authority to pay the same "out of moneys in the treasury not otherwise appropriated."

Very respectfully,

ROBT. D. GILMER,
Attorney-General.

OYSTER GRANTS—SECRETARY OF STATE—PAMLICO SOUND.

ATTORNEY-GENERAL'S DEPARTMENT,
RALEIGH, N. C., November 21, 1902.

HON. J. BRYAN GRIMES, *Secretary of State.*

DEAR SIR:—Replying to your favor of recent date in which you ask for my opinion "as to the proper procedure in the issuing of a grant for oyster lands in the waters of Pamlico Sound," I have the honor to submit the following: Pamlico Sound being a navigable water is not subject to entry and grant in the ordinary acceptance of those terms, and became so subject only in a qualified sense by virtue of the Act of 1887 hereinafter mentioned. *Skinner v. Hetrick*, 73 N. C., 53; *State v. Spencer*, 114 N. C., at page 777.

The General Assembly of the State, for the purpose of stimulating the cultivation of oysters, has passed from time to time statutes conferring upon citizens of the State exclusive privileges in oyster beds or gardens, upon compliance with the statutes in such cases made and provided. Notably among these are Sections 3390, 3391, 3392, 3393 of The Code of North Carolina, being Chapter 332, Laws

of North Carolina, Session 1883. These Sections provide that any inhabitant "may make a bed in any of the waters of this State and lay down or plant oysters or clams therein, having first obtained license as hereinafter directed from the Superior Court Clerk of the county wherein such bed may be." *State v. Willis*, 104 N. C., 764.

In this case, at page 766, the Supreme Court says: "Much uncertainty existing as to what parts of the waters were subject to entry and grant, under this law, a commission was appointed under Chapter 119, Acts 1887, to make a survey and *finally* determine and locate the natural oyster beds, in order that such entries and grants could be intelligently and safely made." "For some reason best known to the Legislature," continues the Supreme Court in *State v. Willis*, *supra*, "the above act was confined to the waters north of Core Sound."

In *State v. Spencer*, 114 N. C., 770, it is said: "It will be seen by reference to Chapter 119, Laws 1887 * * * that by said act an elaborate system was adopted for the furtherance of the objects in view, the encouragement of the culture of oysters and also the preservation of the rights of the public in the use of the natural beds."

The Commission appointed under Chapter 119, Acts 1887, was charged with the duty of locating the natural oyster beds or public oyster grounds, and by Section 5, said Chapter 119, Laws 1887, it was provided that: "Any person or persons desiring to raise, plant or cultivate shellfish upon any ground in the county *which has not been designated as public ground* by the Board of Shellfish Commissioners, may * * * make an application in writing * * * to the entry-taker of the county in which the said area for which application is made is situated, for a franchise for the purpose of raising or cultivating shellfish in said grounds, and the said entry-taker having received said application shall proceed as with all other entries as provided in Section 2765 of The Code, as amended, except that the warrant to survey and locate the grounds shall be delivered to the engineer appointed by the Board of Commissioners of Shell Fisheries and not to the County Surveyor."

Section 6 provides that: "The Secretary of State, on receipt of the Auditor's certificate, as provided in Section 2778 of The Code, shall grant to the applicant a written instrument conveying a perpetual franchise for the purpose of raising and cultivating shellfish in and to the grounds for which application is made; and the said written instrument of conveyance shall be authenticated by the Governor, countersigned by the Secretary and recorded in his office."

By the provisions of Section 7, twenty-five cents per acre shall be paid to the State Treasurer for all franchises granted. Your atten-

tion is directed to other Sections of said Chapter 119, Laws 1887, further defining the duties of the Secretary of State in the matter of granting franchises for the purpose of raising or cultivating shellfish in the said grounds.

As before observed the provisions of Chapter 119, Acts of 1887, are confined to the waters north of Core Sound, and the waters south of it are governed by Section 3390, *et seq.*, of The Code, referred to, thus leaving the location of the natural oyster beds in grounds not embraced in the territory mentioned in said Chapter 119, Acts of 1887, to the Courts and juries. *State v. Willis, supra*, at page 767.

Very respectfully,

ROBT. D. GILMER,

Attorney-General.

OFFICIAL SALARIES OF JUDICIAL OFFICERS—DIMINUTION DURING CONTINUANCE OF TERM—INCOME TAX.

ATTORNEY-GENERAL'S DEPARTMENT,

RALEIGH, N. C., December 16, 1902.

To the HON. DAVID M. FURCHES,

Chief Justice of the Supreme Court of North Carolina, Raleigh.

DEAR SIR:—I beg to acknowledge the receipt of your favor of recent date, in which my opinion is asked upon a question involving the liability of the official salaries of the Chief Justice and the Associate Justices of the Supreme Court of this State to taxation. In discharge of the duty imposed upon me by Section 3363, Sub-section 4, of *The Code*, I have the honor to submit the following:

The doctrine that the power to tax is an essential element of government, and that the Legislature in its exercise is limited only by constitutional provisions, is elementary and fundamental. The power to tax the salary of a State officer is admitted, unless there is some provision in the organic law forbidding it. Such a prohibition upon legislative authority, if any exists, must appear in the Constitution of the State. Section 18, Article 4, of that instrument is in the following words:

"The General Assembly shall prescribe and regulate the fees, salaries and emoluments of all officers provided for in this article, but the salaries of the Judges shall not be diminished during their continuance in office." Section 21 of the Constitution of 1776 provided "that the Governor, Justices of the Supreme Courts of Law and Equity * * * shall have adequate salaries during their continuance in office." *Revised Code of North Carolina*, page 16.

In the amended Constitution of 1835, the constitutional provision, with reference to the salaries of judicial officers, was changed and the following article enacted: "The salaries of the Judges of the

Supreme Court, or of the Superior Courts, shall not be diminished during their continuance in office." *Revised Statutes of North Carolina, Vol. 1, Section 2, page 28.* And the same inhibition against diminution appears in the article quoted above from the Constitution, adopted in 1868.

Under the Constitution of 1776, it will be observed that the Judges were to receive "adequate salaries." "What was an adequate salary?" remarked Attorney-General Bachelor, in 1856, in passing upon a question similar to the one submitted, "was *ex necessitate* to be determined by the Legislature, which had the power of fixing it. As this was a discretionary power, that body could declare an 'adequate salary,' to be any sum it thought proper. This power was liable to abuse, and though it would have been a violation of the spirit of the Constitution to have fixed these salaries at a sum clearly inadequate, yet the Legislature, being unchecked by any other department of the government in the exercise of this discretion, could violate at will the spirit of this part of the Constitution. By it the power of reducing the salaries of the Judges during their continuance in office, is taken away. They may be increased, but can not be diminished. But to secure them effectually against diminution, this provision should extend to indirect as well as to direct legislation. The power to lessen these salaries by direct legislation, is now nowhere claimed; yet, the passage of this Act is an assertion by the Legislature of the power to diminish them indirectly, and if the Legislature has such power it can be used to any extent to which, in its wisdom, it may see proper to carry it."

While Attorney-General Bachelor, in his opinion, made no reference to the case of *McCulloch v. State of Maryland*, 4 Wheaton, pages 316-207, his argument is sustained by the reasoning of Chief Justice Marshall, who delivered the opinion of the Court in that case—"that the power to tax involves the power to destroy." This doctrine is exemplified in many cases decided by the Supreme Courts of other jurisdictions, declaring that the internal revenue Acts of the Federal Government, requiring stamps on processes of State Courts are unconstitutional interferences with their proceedings.

Smith v. Short, 40 Ala., 385; *Craig v. Dimock*, 47 Ill., 308; *Warren v. Paul*, 22 Ind., 276; *Fifield v. Close*, 15 Mich., 505; *Walton v. Bryenth*, 24 Howard's Practice Reports, 357; *Jones v. Keep*, 19 Wis., 390; *Bumpass v. Taggart*, 26 Ark., 398; *Forcheiner v. Holly*, 14 Fla., 239; *Latham v. Smith*, 45 Ill., 29; *Wallace v. Cravens*, 34 Ind., 534; *Pargoud v. Richardson*, 30 La. An., 1286; *Sporrer v. Eifer*, 48 Tenn., 633; *Carpenter v. Snelling*, 97 Mass., 452; *Davis v. Richardson*, 45 Miss., 499.

The principle announced in *McCulloch v. State of Maryland*, *supra*, has been affirmed by the Supreme Court of this State. In

King v. Hunter, 65 N. C., at pages 612-613, Reade, J., says: "It has been considered how far an office or officer may be taxed. And it is considered as settled that the State has no power to tax an officer of the United States, or *vice versa*, because 'the power to tax includes the power to destroy,' as was said by Chief Justice Marshall in *McCulloch v. State of Maryland*, 4 Wheaton, page 207. And if a State were allowed to tax a United States officer one dollar, it might tax him to the full amount of his salary, and thus 'arrest all the measures of the government.' And so the United States can not tax a State officer for the same reason." Upon a similar principle the Federal Courts have held that the United States Government can not tax the income of State officials.

The case of *United States v. Ritchie*, Federal cases, Book 27, Case 16,168, involved the right of the Federal Government to tax the income of the State's attorney for the county of Frederick, in the State of Maryland. The Court held that "the United States has no more right to tax these agencies than the State Government has to tax the means and agencies to carry on the Federal Government." In *Day v. Buffinton*, Federal cases, Book 7, Case 3,675, Clifford, Circuit Justice, held that "the salary of a Judge of the Court of Record, payable out of the treasury of a State, is not legally taxable as income under the internal revenue laws of the United States." This ruling was affirmed by the Supreme Court of the United States. 78 U. S., 113.

In *Freedman v. Sigel*, Federal cases, Book 9, Case 5,080, it was held that "the United States can not impose a tax on the salary of a Judge of a Superior Court of the city of New York by imposing a tax upon such salary as the income of such Judge."

In *Dobbins v. Commissioners of Erie County*, 16 Peters, at page 450, Mr. Justice Wayne, speaking for the Supreme Court of the United States, says: "Does not a tax by a State upon the office, diminishing the recompense, conflict with the law of the United States, which secures it to the officer in its entirety? It certainly has such an effect."

In the foregoing cases the decisions of the Courts rest upon the principle that the government of the United States has no right to tax the means, agencies and instrumentalities of the State Government, and neither has the State Government the right to tax the means, agencies and instrumentalities of the Federal Government. In the case of *Sweatt v. Boston H. and E. R. Co.*, Federal cases, Book 23, Case 13,684, Clifford, Circuit Justice, says: "By the word 'means' is meant the *revenue, taxes* and public securities, as applied both to the United States and the several States, and the prohibition extends to the salaries of the * * * judicial officers." * * *

Section 8, Article 1, of the Constitution of North Carolina, pro-

vides that: "The legislative, executive and supreme judicial powers of the government ought to be forever separate and distinct from each other;" that each shall act within its own sphere, just as fully, "as if the line of division was traced by landmarks and monuments visible to the eye."

The constitutional provision hereinbefore recited effectually removes from the domain of legislative authority the enactment of any statute, the effect of which is to diminish, either directly or indirectly, the official salary of a judicial officer during the continuance of his term. When the Constitution imposes a limitation upon legislative action, it must be assumed that the people who framed the instrument, through their representatives, regarded the matter as sufficiently important to be removed from the control of their agents, unless sitting as members of a body of equal dignity with that which enacted the constitutional provision. The Convention of 1868 seems to have had in mind that principle, recognized from the beginning by our Courts, that the unrestrained right to tax involves in law the right to destroy. The word "unrestrained" is used with due regard to its significance. *If the power to tax is conceded*, the barriers erected by the constitutional limitation are swept away and one branch of the State Government is placed at the mercy of another. If the General Assembly has the power to impose a tax of one per cent on the official salary of a judicial officer, upon the same principle, it could lay a duty which would cripple, if not completely paralyze, the whole system of the administration of justice in State tribunals.

It is freely admitted that, in the absence of dire political revolutions, the exercise of such destructive power on the part of one branch of the government toward another is not likely to be invoked; but the improbability of the non-exercise of the power does not affect the principle. Upon this point I quote the following language from the Supreme Court of Michigan: "The argument that such prohibitory action (the power to tax) is improbable, has no force whatever in determining the existence or non-existence of the power. There is no legislative power possessed by any Legislature which it may not lawfully carry to an extreme, where extreme action is deemed expedient by the majority of the members. And where a power of destruction has been conferred, it is always possible that it may be exercised, although it may be very improbable." The foregoing citation is from the case of *Fisfield v. Close*, *supra*, and that learned jurist, Judge Cooley, concurred in the opinion of the Court.

The Federal Constitution contains a provision similar to that appearing in the Constitution of our own State—that the salaries of the Judges shall not be diminished during their continuance in

office. Under an Act of Congress, imposing a tax of three per cent on the salaries of all the officers in the employment of the United States Government, the Treasury Department held that judicial officers were embraced within its terms. On February 16, 1863, Judge Taney, who was then Chief Justice of the Supreme Court of the United States, addressed a letter to the Honorable, the Secretary of the Treasury, and from it the following paragraph is taken: "The Act in question, as you interpret it, diminishes the compensation of every Judge three per cent, and if it can be diminished to that extent *by the name of a tax*, it may, in the same way, be reduced, from time to time, at the pleasure of the Legislature." It is true that the Act of Congress passed upon by Chief Justice Taney, as well as in the case of *Commonwealth v. Mann*, 5 Watts and Sergeant, page 403, cited by Attorney-General Bachelor (Appendix 48, N. C. Report), the tax levied was deducted from the compensation fixed by law and retained in the Treasury. But in what way the method of collecting the tax imposed upon the salary affects the question involved, I am utterly unable to perceive. The principle announced by Chief Justice Taney, as well as by the Supreme Court of Pennsylvania, in *Commonwealth v. Mann, supra*, operates upon the power to tax, and not upon the incidental means employed to collect.

In *City of New Orleans v. Lea* it is held by the Supreme Court of Louisiana (14 La. An., 197) that "the article of the Constitution which declares that the Judges, both of the Supreme and inferior Courts, shall, at stated times, receive a salary which shall not be diminished during their continuance in office, exempts the salary of a Judge from taxation." The case of *McCulloch v. Maryland, supra*, is cited, and the Court says: "If the right to tax the salary of Judges be conceded, there would be no limitation, but the discretion of the Legislature to do it, to such an extent as virtually to abolish the means of conducting the Judicial Department. Its existence ought not to depend upon the will of a co-ordinate department."

I find only one case which holds that the salary of a Judge, protected by a constitutional provision, similar to ours, is liable to taxation, and that is the case of the *Commissioners of Northumberland County v. Chapman*, decided by the Supreme Court of Pennsylvania in 1829—2 Rawle, page 73. The opinion is brief and no authorities are cited. The doctrine laid down is not in consonance with the reasoning employed by the same Court fourteen years later in *Commonwealth v. Mann, supra*.

Two, at least, of my predecessors in office, have held that the official salary of a Judge is not liable to taxation (Attorney-General Bachelor, *supra*, and Attorney-General Walser, Public Documents 1899, Document 8, page 95), and as far as I am advised this admin-

istrative construction of the Constitution has, until recently, been accepted as the correct interpretation of the Constitution.

Following the paragraph hereinbefore cited from *King v. Hunter, supra*, Mr. Justice Reade, speaking for the Supreme Court of our State, says: "It is not doubted, however, that the State may tax any other property, the object being revenue and not the destruction of the office. But the people have been so jealous, even of this power, that it is provided in the Constitution, that the salaries of the most important officers shall not be altered during their term of office, and this is understood to exempt their salaries from taxation, because to tax is to diminish, or, it may be, to destroy." The learned Justice was considering the question, "how far an office or officer may be taxed," and the paragraph, viewed in its setting, has more than the force of a mere *dictum*.

Chancellor Kent says: "We look essentially to the State Courts for protection. They touch, in their operation, every chord of human sympathy and control our best destinies. It is their province to reward and to punish. Their blessings and their terrors will accompany us to the fireside and be in constant activity before the public eye." In view of these important functions, abiding in our judicial tribunals, we must conclude that when the people, in convention assembled, declared that the salaries of the Judges should not be diminished during their continuance in office, they meant to withdraw from taxation, either directly or indirectly, such salaries, "because the power to tax is to diminish, or it may be, to destroy."

Very respectfully,

ROBT. D. GILMER,

Attorney-General.

LITIGATION.

INDICTMENTS AGAINST REGISTRARS.

At the October and December Terms of the District Court of the United States for the Western District of North Carolina, bills of indictment were found against certain registrars, residents of Forsyth, Montgomery and Swain Counties, under Section 5510 of the Revised Statutes of the United States, for an alleged deprivation of the rights, privileges and immunities of certain electors under the Constitution and Laws of the United States. In compliance with Chapter 181, Public Laws of North Carolina, 1901, an appearance was entered by me in behalf of these defendants. They were advised that they could successfully defeat the indictments on the ground that the Federal Courts did not have jurisdiction, under the facts appearing, to control the performance of a governmental duty imposed upon them by an Act of the Legislature, and were prepared to answer the said charges. But at a term of the District Court held in Greensboro in April, 1901, the District Attorney entered a *nolle prosequi* in all of the said cases.

K. S. FINCH AND HORTON CORWIN, JR.,

v.

THE STATE BOARD OF EDUCATION.

On the 7th day of December, 1900, the State Board of Education, by Daniel L. Russell, Governor and President *ex officio* of the State Board of Education, attested by C. H. Mebane, Superintendent of Public Instruction, and Secretary of said Board, granted an option to K. S. Finch on the lands belonging to the State Board of Education. This contract attempted to require the State Board of Education to execute to the said Finch or his assigns any part of the said lands not less than 1,000 acres. This provision was deemed by the present Board as inequitable inasmuch as under its terms there was nothing to prevent the said Finch from making his surveys by irregular lines and thus culling out the best portion of the lands, and thereby diminishing the value of those adjoining. The said Finch having made sales of a portion of the lands embraced in his option, applied to the State Board of Education for the execution of title. This the Board refused. On the 13th day of September, 1901, the plaintiffs in the above entitled action, procured a summons

to issue against the defendant Board from the Superior Court of Wake County, returnable at Chambers in the city of Raleigh on the 23rd day of September, 1901, which summons was served upon the Governor, together with a copy of the plaintiffs' complaint. On the 24th day of the said month the case was compromised by the terms of which the said Finch surrendered his option on all the lands belonging to the State Board of Education, except certain lands lying in the county of Tyrrell, which he had theretofore sold, not exceeding 10,000 acres.

Messrs. Maxwell, Osborne and Kernans appeared for the plaintiffs and the Attorney-General for the defendant Board.

W. J. JACKSON

v.

THE CORPORATION COMMISSION.

The North Carolina Corporation Commission, in its report for the year 1901, on page 6 of the letter of transmittal, says:

"As we construed the Machinery Act of 1901, we were not directed or permitted to assess railroad property for that year. The assessment made in the year 1900 was to remain until the year 1903, when there would be an assessment of other property.

"Sheriff Jackson, of Washington County, differed from us in this construction, and brought mandamus proceedings against us before Hon. W. S. O'B. Robinson, Judge of the Superior Court of this District, to compel the assessment of railroad property. This case was heard by Judge Robinson, who concurred in the construction put on the law by this Commission, and dismissed the proceedings at the plaintiff's cost. There was an appeal from this judgment to the Supreme Court, which appeal will be heard at the next term of the said Court."

The case was heard on appeal by the Supreme Court at February Term, 1902, and the judgment of the Court below was affirmed.

Douglass, J., dissenting, and Clark, J., concurring in the dissenting opinion. 130 North Carolina Report, 385.

Mr. H. S. Ward appeared for the plaintiff, and the Attorney-General in the Court below and in the Supreme Court with Messrs. Burwell, Walker & Cansler.

THE SOUTH DAKOTA CASE.

At October Term, 1901, of the Supreme Court of the United States, the State of South Dakota moved in that Court for leave to file its

bill of complaint against the State of North Carolina. This motion was made before the Court in the exercise of its original jurisdiction, was allowed and notice of the same duly served. On November 18, 1901, the complainant filed its bill of complaint in the office of the Clerk of the Supreme Court of the United States, and on the 25th day of November, 1901, a copy of the said bill of complaint was forwarded to this Department. The complaining State alleges that it is the owner of ten bonds issued by the State of North Carolina, bearing date of July 1, 1867, of the denomination of \$1,000 each, which became due on the first day of July, 1897, and issued for the benefit of the Western North Carolina Railroad Company.

It is further claimed that these bonds are secured by an alleged second mortgage on the State's stock of the North Carolina Railroad Company by virtue of the provisions of Chapter 106, Laws of 1866-'67. All of the bonds of the class involved in this litigation have been adjusted under provisions of Chapter 98, Laws of North Carolina, 1879, except about 250. It appears that these outstanding bonds are now owned or controlled by Schaeffer Bros., a firm of brokers in New York. It is contended for the State of North Carolina that the ten bonds which constitute the basis of the suit by South Dakota have been assigned to that State for the purpose of acquiring jurisdiction for the benefit of private holders and in contravention of the Eleventh Amendment to the Constitution of the United States. It is further contended on behalf of the State of North Carolina that inasmuch as the said private holders of these bonds can not invoke the original jurisdiction of the Supreme Court of the United States in their behalf, their assignee without consideration, occupies no better position. On account of the importance of the principles involved in this litigation, the Governor employed Judge James E. Shepherd, Judge James H. Merriman and Hon. Geo. Rountree to appear with the Attorney-General in this case, which action on the part of his Excellency meets my hearty approval. An answer, fully setting forth the contentions of the State of North Carolina, has been filed to the bill of complaint. The evidence has been taken and the case will probably be argued on the 13th day of April, 1903.

IN RE SMITH.

PENSION CASE.

This was a controversy submitted without action under Section 567 of The Code. The application of the deceased pensioners were proved by the Pension Board of Burke County, and were certified as being "correct and just." Thereupon the State Board of Pen-

sions, on the first day of December following, not having information that the pensioners had died since their application had been certified and filed, issued in their names warrants under the Acts of 1899, and forwarded the same to the Register of Deeds of the county of Burke. The representatives of the deceased pensioners claimed that these warrants were assets of their estates. The State Board of Pensions contended that the warrants should be returned to the Auditor's Department for cancellation. The case was heard by Judge W. B. Council at Chambers at Hickory, N. C., January 29, 1902. From a judgment for the pensioners, the State Board of Pensions appealed. Judgment reversed in the Supreme Court, and the warrants returned to the Auditor. 130 North Carolina Report, 638.

Messrs. Avery & Avery appeared for the pensioners, and the Attorney-General in the Supreme Court for the State Board of Pensions.

P. F. COLLIER AND SON

v.

WM. McD. BURGIN, SHERIFF.

This was a controversy, submitted without action, under Section 567 of The Code, heard by Judge W. B. Council at February Term, 1902, of the Superior Court of McDowell County. The defendant, as sheriff of the said county, contended that the plaintiffs, according to the methods employed by them in the sale and distribution of their books, were liable to the license tax on peddlers under Acts of 1901, Chapter 9, Section 54. From a judgment for the defendant the plaintiffs appealed. The judgment of the Court below was affirmed in the Supreme Court. 130 North Carolina Report, 632.

Mr. J. C. L. Byrd appeared for the plaintiffs, and the Attorney-General in the Supreme Court for the defendant.

MOLLIE A. MILLER, ADMINISTRATRIX OF FESTUS MILLER,

v.

STATE OF NORTH CAROLINA.

CLAIM AGAINST THE STATE.

The plaintiff, on the 28th day of February, 1902, filed a complaint in the Supreme Court of North Carolina, which said complaint was served on the Governor on April 3, 1902, and the cause was docketed in the Supreme Court on April 4, 1902. The plaintiff contends that the State of North Carolina is indebted to the estate of her intestate in the sum of \$2,886.43, growing out of certain services

alleged to have been performed by him in the matter of oyster litigation pending in the Superior Court of the county of Pamlico while he was Clerk of the said Court. An answer has been filed to the plaintiff's complaint by the State of North Carolina contending that all the matters involved in this litigation were adjusted by the General Assembly of North Carolina at its Session of 1889. To this answer are attached a report from the Committee on Claims submitted by Hon. E. J. Justice, of McDowell County, and an Act passed by the General Assembly awarding to the plaintiff's intestate the sum of \$1,402.25, which the State of North Carolina contends was accepted in full settlement of the plaintiff's claim against the State. See Chapter 703, Public Laws, Session 1899. A replication has been filed by the plaintiff, and the Supreme Court will be asked at the beginning of the February Term, 1903, to fix a time for the hearing of the said cause.

Messrs. Busbee & Busbee and Womack & Hayes appear for the plaintiff, and the Attorney-General for the State of North Carolina.

STATE V. HOWARD, *et al.*

GOLD BRICK CASE.

At June Term, 1901, of the Superior Court of the county of Guilford, J. L. Howard *alias* Frank Thompson, A. L. Daley *alias* Gonez Bono and H. D. Hawley were tried on a bill of indictment charging them with a conspiracy with intent to defraud. The defendants were convicted and appealed. The case was heard in the Supreme Court at August Term, 1901, and the judgment of the Superior Court of Guilford County was affirmed, Furches, C. J., and Douglas, J., dissenting. 129 N. C., 584.

Petition and writ of error to the Supreme Court of the United States filed in the Supreme Court of North Carolina March 25, 1902, in obedience to which a transcript of the record in the Supreme Court of North Carolina was forwarded on the 10th of April, 1902, to the Clerk of the Supreme Court of the United States, in which said Court the case is now pending.

Leslie A. Gilmore and Frank P. Blair appear for the plaintiffs in error, and Messrs. Womack & Hayes with the Attorney-General for the State of North Carolina, defendant in error.

IN THE UNITED STATES CIRCUIT COURT FOR THE EASTERN DISTRICT OF
NORTH CAROLINA.

J. L. HOWARD *alias* FRANK THOMPSON, A. L. DALEY *alias* GONEZ
BONO, AND H. D. HAWLEY.

V.

J. M. FLEMING, WARDEN OF THE STATE'S PRISON OF NORTH CAROLINA.

On the 18th day of December, 1901, the petitioners above named, applied to the Honorable Thomas R. Purnell, United States District Judge for the Eastern District of North Carolina, sitting as a Judge of the Circuit Court of the United States for the said district, for a writ of *habeas corpus*, addressed to the said Honorable Thomas R. Purnell, Judge of the said Court, against the said J. M. Fleming, warden of the penitentiary of North Carolina. The petition alleged that the petitioners were unjustly and unlawfully detained in the State's Prison of North Carolina by virtue of a mittimus or warrant of commitment issued by John J. Nelson, Clerk of the Superior Court of Guilford County. Upon the hearing of the petition on the 18th day of December, 1901, the motion was allowed, and on December 19, 1901, the Clerk of the Circuit Court of the United States for the Eastern District of North Carolina issued the writ of *habeas corpus*, returnable in the city of Raleigh on the 28th day of December, 1901. On the said day, return was made, and on the hearing, the said Honorable Thomas R. Purnell, presiding, made and entered in the cause an order that the petition be dismissed, and the petitioners be remanded to the custody of the said warden. Appeal to the Supreme Court of the United States, in which Court the said cause is now pending.

Messrs. L. A. Gilmore and W. P. Bynum, Jr., appear for the petitioners, and Messrs. Thomas B. Womack and A. L. Brooks with the Attorney-General for J. M. Fleming, warden.

J. R. SIMS

V.

NORFOLK AND WESTERN RAILROAD COMPANY AND MRS. O. L. SATTER-
FIELD.

Heard by Judge Walter H. Neal at Chambers at Durham, N. C., January 7, 1902. This action was instituted for the purpose of collecting from Sears, Roebuck & Company, of Chicago, Illinois, the license tax imposed by Section 52, Chapter 9, Public Laws of 1901, on dealers in sewing machines. There was a judgment for the plaintiff in the Superior Court, and the defendants appealed. 130 North Carolina Report, 556. Petition and writ of error to the Supreme

Court of the United States filed in the Supreme Court of North Carolina May 30, 1902, in obedience to which the transcript of the record in the Supreme Court of North Carolina was, on June 7, 1902, forwarded to the Clerk of the Supreme Court of the United States in which Court the cause is now pending.

Messrs. Shepherd & Shepherd appear with the Attorney-General for the plaintiff, and Messrs. Guthrie & Guthrie for the defendants.

REPORT

OF THE

EXAMINERS

OF

STATE INSTITUTIONS

APPOINTED BY THE GOVERNOR IN ACCORDANCE WITH
CHAPTER 424, LAWS OF 1901.

REPORT

EXAMINERS

STATE INSTITUTION

LETTER OF TRANSMITTAL.

RALEIGH, N. C., November 15, 1902.

To His Excellency, C. B. Aycock, Governor of North Carolina.

DEAR SIR:—We submit the following report of our actions as Examiners of State Institutions, appointed by your Excellency, in accord with Chapter 424, Laws of 1901.

In obedience to your notice we met in your office at noon of 15th day of July, 1902, and after taking and subscribing the oath of office, we organized by choosing Mr. W. P. Wood as our Chairman, and appointing T. W. Patton to act as our Secretary. Between that date and the present we have devoted to the State's service 79 days, and have traveled in performance of our duties 4,750 miles. Full and detailed minutes of our proceedings, with itemized statements of expenses incurred, are herewith placed in your Excellency's hands.

We have visited and examined as carefully as was possible within the time at our disposal 39 institutions, which receive their support in part or in whole from the treasury of our State. On each of these we submit a report of our findings. For the convenience of your Excellency and of the members of the General Assembly, we have classified these reports, so as to place together those of like character, thereby rendering more easy a comparison. This classification we have made as follows:

CLASS 1.

THE SOLDIERS' HOME.

We place this institution to itself and give it prominence, as we are sure it will ever hold the first place in the affections of our people.

CLASS 2.

In this class we decide to place those educational institutions from which our State may, in our opinion, expect a large pecuniary return for all the money she has invested, or will hereafter invest in them. Among these we include the Guilford and Moore's Creek Battle Fields, for reasons which we present in the reports thereon. This class we close with reports upon A. and M. College at Greensboro, and upon each of the seven Colored Normal Schools, stating our opinion of the merits of each, and appending to the whole our suggestions for their improvement.

These reports will be found in the following order:

1. The State Normal and Industrial College, Greensboro.
2. The University of North Carolina.
3. The N. C. Agricultural and Mechanical College, Raleigh.
4. The Cullowhee High School, Jackson County.
5. The Guilford Battle Ground.
6. The Moore's Creek Battle Ground.
7. The Normal School for Croatan Indians.
8. The A. and M. College (colored), Greensboro.
9. The State Industrial and State Normal School (colored), Winston.
10. The Salisbury Normal School (colored).
11. The Goldsboro Normal School (colored).
12. The Elizabeth City Normal School (colored).
13. The Plymouth Normal School (colored).
14. The Franklinton Normal School (colored).
15. The Fayetteville Normal School (colored).

CLASS 3.

In this class we place those noble charities which honor our State, from which she expects no pecuniary return, but has in years past liberally expended her money for the protection of her afflicted citizens. These reports will be found in the following order:

1. State Hospital for Insane, Raleigh.
2. State Hospital for Insane, Morganton.
3. State Hospital for Insane, Goldsboro.
4. State Hospital for Dangerous Insane, Raleigh.
5. The White Orphan Asylum, Oxford.
6. The Colored Orphan Asylum, Oxford.
7. Deaf and Dumb School, Morganton.
8. The Deaf, Dumb and Blind School, Raleigh.

CLASS 4.

Agricultural Societies, Fair Associations, as follows:

1. The N. C. Agricultural Society, Raleigh.
2. The Central Carolina Fair Association, Greensboro.
3. The Forsyth Agricultural Society, Winston.
4. The Alamance Fair Association, Burlington.
5. The Cumberland Agricultural Society, Fayetteville.
6. The Albemarle Agricultural and Fish Association, Elizabeth City.
7. Our recommendations on the Agricultural Associations and Societies.
8. The Oriental and Industrial S. F. and Agricultural Fair, New Bern.
9. The North Carolina Industrial Association, Raleigh.

CLASS 5.

MISCELLANEOUS.

1. The Board of Public Charities.
2. The North Carolina Board of Health.
3. The North Carolina Geological Survey.
4. The State Fireman's Association, Fayetteville.
5. The Volunteer Fireman's Association, Greensboro.
6. The State's Prison Sunday School, Raleigh.
7. The State's Prison.

REPORT

OF THE

EXAMINERS OF STATE INSTITUTIONS.

THE SOLDIERS' HOME.

On August 26th we visited and inspected this institution, and we feel our inability to find language suitable to express our gratification, admiration and approval.

We would respectfully impress upon your Excellency our view that the Soldiers' Home is in no sense a charity, but on the contrary, it is an effort on the part of our State to pay a small part of an honest debt which she owes to men who have freely given their all for the preservation of her honor. When one who is in comfortable financial circumstances shows a readiness to sacrifice time and property to maintain the good name of his State, we should, indeed, feel proud that such a man is a citizen of North Carolina, but in that case we can not make return or acknowledgment by contributing to his comfort, and, indeed, the protection which the rich man has received for his property gives the State a claim upon him, which he has recognized in the endeavor to serve her, as a partial return for her care, but when public service is rendered by a poor man who has received no property protection, but who has given his time and labor, which is his all, who has not hesitated to risk life in order that his State should stand high among her sister Commonwealths, it presents an example of loyalty and love which exceeds all others that men can show.

This is the case with those survivors of our State's troops in the Confederate army, who are, and ever should be, the honored wards of the State. Our people will ever feel that all they can do for the comfort of these old soldiers, by adding to their comfort and happiness during the few years they will stay among us and honor us, is but a very slight acknowledgment of the debt we owe them.

To the credit of our State's people this feeling is markedly on the increase among us, as is made evident by the successive Acts of our General Assembly. The incorporation of the Soldiers' Home was effected by Act of the Legislature of 1891, and will be found as

Chapter 60 of the session of that year. After a wise provision for the selection and continuance of a Board of Directors, and fixing their rights, powers and duties, that chapter provides for an annual appropriation of \$3,000. Four years later this was increased to \$8 500. Again, in 1899, a farther increase was made to \$10,000 for maintenance, and a special appropriation of \$5,000 made for an improved building. But this was still no sufficient measure of the grateful love of our people, and, therefore, in 1901, the annual appropriation was increased to \$13,000, and a farther sum of \$5,000 designated for additional buildings.

This record, in the impoverished condition of our State, shows that the people's will is ever to honor themselves by doing honor to her brave and devoted soldiers.

Those who have enjoyed the high privilege of administering this sacred trust have proven that they appreciated the temper of our citizenship, and have spared neither time, labor or devotion to accomplish the purposes for which these appropriations were made.

Our duty restricts us to a report upon the financial results of the present fiscal year and that immediately preceding it, a period beginning December 1, 1900, and ending July 31, 1902, or embracing all of the State's fiscal year 1901, and eight months of that of 1902. While this is the case, we take great pleasure in saying that the appropriation of \$5,000, made in 1899, for improvement in buildings, was most wisely expended in the erection of a hospital upon the premises, in which can be gently treated and nursed those of the inmates as need such special care, because of the infirmities of age, or because of sickness. An examination of this hospital calls for unstinted commendation. We would wish to give our State's thanks to the architect who suggested a plan of such admirable simplicity and comfort, to the directors who accepted it, and to the builder who, by his generosity, made its attainment possible by the expenditure of so small a sum.

An examination of the books of the Secretary of the Board of Directors gives the following for the fiscal year 1901:

Received from State appropriation.....\$13,000.00

EXPENDED.

For improved water supply.....	\$958.85	
For improved heating and plumbing.....	1,383.08	
For repairs to building.....	110.36	
For commission to State Treasurer's office.....	100.00	
For miscellaneous.....	10,447.71	13,000.00

For eight months of fiscal year 1902:

Received on account of State appropriation..... \$8,000.00

EXPENDED.

For commission to Treasurer's office.....	\$66.67	
For maintenance.....	6,994.00	\$7,060.67

Balance in hands of Directors.....	\$939.33	
Balance of appropriation in hands of State Treasurer....	5,000.00	

Total applicable to maintenance for remainder of year....	\$5,939.33	
---	------------	--

At this time we find that the number of soldiers in the Home is..	90	
---	----	--

And on furlough.....	22	
----------------------	----	--

Total	112	
-------------	-----	--

The average number maintained during the period embraced in the foregoing statements.....	100	
---	-----	--

The per capita cost of maintenance, for fiscal year 1901.....	\$104.47	
---	----------	--

For eight months of 1902.....	69.94	
-------------------------------	-------	--

The average cost of maintenance per month, per capita.....	8.71	
--	------	--

We find, both by evidence of the inmates and from our own investigation, that all are made thoroughly comfortable, and that this is accomplished at so small per capita cost, proves the diligent care exercised both by the Board of Directors and their employees.

The very small cost to our State's treasury may be in part explained by two causes, to which it is most gratifying for us to refer:

First.*The readiness of the inmates to give their services to aid the administration of the Home. As many of these old men as are able to work, show not only a willingness, but a pride, in doing so. One of them admirably manages the water-works; another mends all the shoes of his comrades; another, as a landscape gardener, has, by his own efforts, rendered beautiful the grounds, so that our Soldiers' Home is an honor to our State.

Second. The loyal and unceasing devotion of our good women. The various chapters of Daughters of the Confederacy have vied with each other in manifesting love for the lost cause, by ministering to the comfort and happiness of its old decrepit soldiers. Space forbids even a brief reference to what these good women have done, yet we must cite a few items as evidence of our grateful appreciation:

In the new dormitory, which was erected by the judicious expenditure of the special appropriation of \$5,000, made in 1901, there have been furnished in comfortable and suitable style, 19 bed-rooms, one assembly-room and a good library, which has been accomplished through the generous aid of the following chapters and individuals:

Chapters Concord, Greensboro, Chatham, Johnson-Pettigrew, Raleigh, Goldsboro, Lincolnton, Winston, Wilmington, New Bern, R. E.

Lee, Lexington; Shelby, Fayetteville, Durham, Guilford, Wilson, Burke, Red Springs, Kittrell, Anson, Edenton, Lenoir, Warsaw, Hillsboro, Salisbury, Vance, Stonewall, Charlotte.

Individuals, etc.: Mrs. W. E. Holt, The L. O'B. Branch Camp of Confederate Veterans.

In the new hospital a goodly supply of suitable clothing and other needful articles have been provided by the same chapters, aided by the following: Asheville, Winnie Davis, Charlotte; Oxford, Blacknall, Stovall, Pamlico, Kinston, Greenville, Williamston, S. McD. Tate, Morganton; Statesville, Lexington, Cape Fear, J. E. B. Stuart, and the following individuals: Miss Purvis, Mrs. Randolph, Mr. J. S. Carr. (The last named having made a most liberal contribution of excellent hospital furniture.)

We take great pleasure in commending the faithful work and wise management of Capt. R. H. Brooks, the Superintendent, and of Mrs. Brooks, the Matron, who, as the only salaried officials, receive a stipend so small as to make it plain that their chief reward is "the joy of service."

The Auditor of the State is *ex officio* a member of the Board of Directors and its Secretary, and has given his constant and careful attention to the duties of both positions without charge.

We call attention to the item of expenditure, "Commission to Treasurer's office," and express the opinion that inasmuch as a special bond was required for the custody and disbursement of this fund, it was right and proper that this small commission should be allowed. Yet, it is without sanction of law. (See Chapter 312, Laws of 1901—"Each of said officers," Auditor and Treasurer, "shall serve without additional compensation.") We recommend the passage of an Act making lawful this expenditure. With this exception, we recommend that the existing legislation and the present annual appropriation remain unchanged.

We desire to add to the pleasure which we have in making the above report of approval, commendation and gratitude, by adding our thanks to Mrs. Reed, who, as a memorial to her distinguished husband, has erected a chapel for the use of the soldiers, and to the clergy for their constant and gratuitous services therein.

STATE NORMAL AND INDUSTRIAL COLLEGE, GREENSBORO, N. C.

This college has reached its tenth year, and while the appropriations made to it may seem large in view of our poverty, they seem absolutely insignificant if compared with the grand results which they have produced. Let us name a few of these and try to appreciate their value in hard dollars:

First in importance, we find that in the past ten years 236 of the daughters of North Carolina have here graduated, of whom 230 are now actively engaged in teaching our public schools, thus fulfilling the promise which they made in consideration of our giving them that tuition which many of them could not otherwise have obtained. Only six girls have not been able to give their services to their State, and we may reasonably conclude that they have been prevented doing so by ill-health or other insuperable obstacle.

We next recall the fact that two years ago a calamity befell this college which we might reasonably have expected would have caused its lengthy, and possibly permanent, stoppage: an epidemic of sickness so severe as to cause distress widespread; to compel a closing of its doors for two months; to necessitate its students to go to their homes; to involve an expense great, unexpected and unavoidable. Yet, in spite of all this, we find that as soon as our State Board of Health announced that the evil was remedied, these brave young girls returned with hearts filled with loyalty and love of their Alma Mater, and to-day the attendance is larger than ever before, the aggregate being 450, and limited to that only because of the inability to provide room for a larger number.

Perhaps the demand will be made that we should confine our report to actual figures of dollars and cents; we will now do so: The State's investment in plant of this college at this time amounts not quite to \$80,000. Yet, to-day, at a most moderate appraisal, the value of this property now owned by the State is \$160,000. This remarkable increase is directly attributable to the State appropriations, because, encouraged by them, individuals both within and without our State have made liberal donations; because encouraged by them, the Board of Directors have not hesitated, on their own credit, to buy land which to-day is worth far more than its cost. Its increase in value has inured to the benefit of the State, because, encouraged by these appropriations, the young students have raised, by their own efforts, some \$10,000, and freely given it to their State. We can safely conclude, then, that by making appropriations of \$80,000, the State to-day owns double that amount.

We next report that we have satisfied ourselves, and now assert

that nearly 130,000 children are being taught by those who were enabled to teach, whether graduates or not, by these appropriations, and many of whom could not have done so without them.

We now submit a condensed financial statement of the State Normal and Industrial College for two years past:

RECEIPTS FROM OCTOBER 1, 1900, TO SEPTEMBER 15, 1902.

From State appropriation for maintenance.....	\$43,750.00
From State appropriation, special, for debts and improvements	25,000.00
From the Peabody Fund.....	4,000.00
From a personal donation for Park improvement.....	5,000.00
From fees, registration, library and medical.....	12,403.50
From fees Tuition Department.....	11,662.25
From fees Dormitory Department.....	39,015.26
From fees Music Department.....	2,318.17
From fees Laundry Department.....	7,103.64
From City and Country School (one year only).....	4,081.08
From sales of stationery, etc.....	2,102.97
From farm.....	4,222.72
From miscellaneous sources.....	3,355.43
From money borrowed.....	10,000.00
Total	\$174,015.02

STATE NORMAL AND INDUSTRIAL COLLEGE DISBURSEMENTS.

Bank accounts overdrawn September 30, 1900.....	\$3,426.22
Salaries	50,884.34
Dormitory expenses.....	39,015.26
Laundry expenses.....	6,045.30

	\$174,015.02

We submit a brief analysis of the above most remarkable statement that some of its more striking points may be more readily seen and fully appreciated. It shows that at the low rate of \$8.00 per month the board and lodging of these young girls has amounted to \$39,015.26, every penny of which they have paid themselves. It shows that they have paid for their laundry \$1,000 more than it has cost. It shows that by paying for tuition, school fees and music, they have met more than half the amount of the salaries of their teachers. It shows that while being taught how to teach, they, in their practice school, have in one year earned for the State over \$4,000. So much for its showing of the students. Of the management it shows that the farm, not a very fine, is more than self-supporting. It shows plainly to us that the books are kept in a manner most accurate and simple, which has enabled us with little labor or time to condense and verify these figures. We congratulate the directors for having so excellent a bookkeeper. Lack of space prohibits our saying a tithe of what we wish to say in commendation of this college, and of gratitude for its marvelous accomplishments, so we now endeavor to perform our other duty by indicating lines for its further extension for increased usefulness, which means that we will point out our State's most urgent needs.

The present dormitory was erected with an utterly inadequate appropriation, consequently it is very much worn. It is absolutely essential that it shall be overhauled and repaired at a cost of \$2,500. At the same time a story can be added to one part, at a cost of \$5,000, which will provide rooms for fifty more girls. This being done, we would immediately have an attendance of 500 students, or 380 boarders and 120 day scholars.

We urge, without hesitation, that an immediate appropriation of \$7,500 be made for the purposes above stated.

For maintenance, we urge that no reduction be made in the amount now appropriated, to-wit, \$40,000 per annum. Only by the exercise of the most strict economy has this sufficed to meet the expense with the present number of students.

Still facing the fact that we are only providing room for one-half of the young girls who are seeking admittance, and who are willing to work for the education of our children, and farther realizing the great importance that we should avoid all loss of provisions, all un-

necessary cost of maintenance, and that all possible facility should be given the students for self-improvement, both mental and physical, we urge that, as soon as possible, this school be provided with the following improvements:

1. A new dormitory, capable of receiving 500 additional students.
2. A cold-storage room and ice plant.
3. A gymnasium. This is greatly needed.
4. A library. The present room used as a library is small and much crowded.
5. A manual training department. This is essential, if this school is to maintain the position which it fully deserves.
6. An auditorium. The apartment now used is scarce able to seat the present number of students. A new one should be provided of double capacity.

THE UNIVERSITY OF NORTH CAROLINA.

Our University—these two words represent a value in dollars beyond measure. They point out an integral part of our State. The two should never be divorced in the esteem of ourselves or our children.

Whatever sum of money we may appropriate to our University does not make her a competitor with other colleges of which we are justly proud, but enables her to sustain the battle in behalf of education; to arouse our people to a sense of its importance, without which no college can prosper. We are glad to note that as our University is successful, as her students increase in number, so do all other schools and colleges grow and prosper. This fact shows wisdom of our fathers in building and sustaining the State University and thereby giving the educational impetus which is shown in the established and liberal support of so many valuable institutions of learning which adorn our State. We fairly believe that the truest wisdom will prompt us and our successors to continue in our fathers' foot-steps to subscribe liberally to the University and thereby insure the success, not of her competitors, but of her sister colleges, all proudly working together for our State's good by advancing the common cause of universal education.

A brief review of our University's history will help us to properly appreciate her. Ordained by the people of North Carolina in their first Constitution, adopted in 1776, her charter granted by the General Assembly of 1789, she is, therefore, the oldest University in the Southern States. The corner-stone of the "Old East" building was laid in 1793 and the first students received in 1795. The hoariness of age is not considered generally an advantage in these times of

progress, nor should it be unless the institution claiming it has also sustained her part with her juniors. Chapel Hill will not suffer in comparison with any other, with respect to the place she has sustained in the stirring affairs of her long and eventful life. The long list of great men who entered manhood as her graduates, the college which was instrumental in giving to North Carolina her most worthily distinguished Governor Z. B. Vance, surely can never be other than our University.

Not only in time of peace, but in the regions of cruel war, she stood ever true and loyal; in obedience to her teachings, her graduates hesitated not to surrender their lives in the defense of the State's honor; in the sad post-bellum days, the old mother school suffered with her children the pangs of poverty most dire; and shall it be said that these children or their descendants shall be niggardly in giving now from this wealth to the upbuilding and maintaining of their own University?

The position she has ever held in the esteem of our people is made plain by the reflection that of all her plant, land, and buildings, of which a most conservative valuation is a half million dollars, not any part has been bought with money taken from our State treasury. Every part of it has been donated by individuals. Since inauguration in 1795, North Carolina has appropriated about four hundred and eighty thousand dollars, of which about twenty thousand dollars was used in repairs made necessary by the ravages of the civil war; all the balance has been invested in the education of North Carolina's illustrious sons. By personal donations scholarships have been from time to time founded, and then many thousands of worthy boys have been helped to an education, which, in their poverty, they could not otherwise have obtained. The ardent love of the Alumni to their Alma Mater surely is worthy of consideration in estimating the work of our University; their devotion has been manifested through her long life, and still continues to be proven. The Alumni building, the newest of the group of fifteen, is an ornament to our State, and will be a life-long honor to the young donors.

We have tried thus far to state plainly what we conceive to have been some of the results of the money here appropriated by our State during past years. They are to us great, beyond all power of estimate. We are glad that the General Assembly, at its last session, appropriated, by fifty per cent, more than had ever been done before. The amount now given for maintenance is \$37,500 per annum. We urgently recommend that no reduction be made, but that it be increased as rapidly as the condition of the State treasury will permit.

NEEDS.

There exists most urgent need of improvement to enable our University to continue the good work she has already done. We will

draw attention to only one or two items, which seem most immediately pressing: The library, while not so large as that of some more modern colleges, is composed of books, pamphlets and manuscripts of exceedingly great value; if lost, no money could replace them. Yet, they are stored in a building which is not fire-proof, and which is but poorly adapted to its purpose. So crowded is it, that there is no space left for a suitable reading-room. The esteem in which the students hold it is plainly seen by the numbers that frequent it, in spite of its discomforts and inconveniences. We do certainly hope that some means may be had soon to erect a new and modern library building.

In the Chemical School there is a good apparatus, doubtless of much value. More than three hundred young men are to-day begging to be admitted to share its advantages, but the only building which can be devoted to it seems to us far too small to receive half that number. In view of the marvelous development in chemical science, it can not be possible that to save a few dollars we will debar these honest, industrious, loyal young citizens from acquiring it. We do surely hope that it may soon be possible to provide a new chemical building.

An examination of the Bursar's department shows its books and accounts to be carefully kept. From a statement supplied us we condense as follows:

During the term ending Dec. 31, 1901, there was received	
from students	\$16,605.06
And from appropriations for Summer School.....	600.00

Total	\$17,205.06
-------------	-------------

And for same term the disbursements were:

Balance deficit last term.....	\$2,523.92
Apparatus, scientific.....	923.15
Apparatus, gymnasium.....	168.04
Infirmary	617.98
Repairs and labor.....	786.36
Library	1,120.83
Salaries, summer term.....	1,825.00
Salaries, instructors, etc.....	3,933.25
Servants' hire.....	567.25
Special appropriation.....	1,387.85
Summer School.....	975.97
Bursar's salary, six months.....	350.00
Miscellaneous	1,983.61
	<hr/>
	17,163.21

Balance cash on hand.....	41.85
---------------------------	-------

For the term ending August 15, 1902, the Bursar's accounts are condensed as follows:

Amount on hand from last term.....	\$41.85
Received from students.....	14,867.60
	<hr/>
	\$14,909.45

DISBURSEMENTS.

Apparatus, scientific.....	\$205.72
Apparatus, gymnasium.....	93.67
Infirmary	1,149.88
Interest on invested funds.....	1,936.05
Repairs and labor.....	1,418.83
Library	851.27
Reading-room	266.23
Salaries of instructors, etc.	5,203.73
Servant's hire	686.70
Special appropriation	1,256.87
Stamps, stationery and printing	1,444.74
Campus expenses	250.30
Commencement expenses	370.30
Bursar's salary six months.....	350.00
Catalogues	409.00
Miscellaneous	3,367.60
	<hr/>
	\$19,260.89
Deficit	4,351.44

From a statement furnished us by President Venable we find that the salaries at this time are:

Instructors and assistants.....	\$7,750.00
Professors—twenty-eight persons	46,100.00
And that the budget of expenses, as estimated.....	22,150.00

President Venable submits the following:

"The present needs of the University are—

"1st. An increase of \$2,500 in annual income, making a total of \$40,000. This was the original estimate as laid before the Legislature of 1901, and is absolutely needed for the maintenance of the University.

"2nd. A chemical laboratory, to cost \$20,000. This will relieve the congestion in the department of chemistry, and allow for the proper equipment for the medical department, and that of biology.

"3rd. A library building. The present is overcrowded and quite inadequate to the demands made upon it."

Condensed statement of Treasurer for period beginning January 1, 1902, and ending October 25, 1902:

Balance cash on hand January 1, 1902.....	\$161.37
Received from State Treasurer.....	32,500.00
Received from escheat	1,909.20
Received from vested funds.....	3,911.45
Received from miscellaneous sources	1,142.84
Total.....	39,624.86

DISBURSEMENTS.

Salaries	\$30,408.33
Interest	852.50
Heating plant	4,538.75
General improvements.....	2,724.62
Summer School	600.00
Miscellaneous objects	1,146.96
	<hr/>
	39,271.16

Bond of Marietta Cotton Mill	\$500.00
------------------------------------	----------

The aggregate of vested funds, par value.....	\$108,214.10
---	--------------

RECOMMENDATIONS.

We recommend to the General Assembly, that it continue the present annual appropriation for maintenance.

We advise the Board of Directors that the most urgent of the needs mentioned by President Venable are, in our opinion, a new chemical building, and a new library. And inasmuch as the plant of the University has been obtained from contributions from its friends, without aid from the State treasury, we hope that these much-needed improvements may soon be had from the same source.

THE NORTH CAROLINA COLLEGE OF AGRICULTURE AND MECHANIC ARTS, RALEIGH.

"This institution owes its existence to the combined liberality of the United States Government and the late R. S. Pullen, together with the patriotic efforts of a few far-sighted men, who saw that in the industrial life of North Carolina the time had come when trained and educated leaders were necessary."

We quote these words, because they clearly express our sentiments. The men who saw the need of trained and educated leaders in our State's industrial life were indeed wise. We regret if they have been few in the past; and we shall endeavor to increase their number in the future. The general government with wise statesmanship made possible the establishment of our College of Agriculture and Mechanic Arts, and by annual appropriations it now aids in the support and maintenance of the College. We urge the view that

whatever sum the general government contributes to the support of this College, should, at least, be equaled by State appropriations.

Certainly we rightly place this institution in the class of those which have paid, are paying, and will continue to pay large returns upon every dollar that is invested in it. Its past history abundantly proves this. Struggling under the burden of insufficient support, with appliances totally inadequate, it has kept steadily in view the object of its establishment, and has sent out men who are indeed necessary to North Carolina, because they are trained and educated leaders in her industrial life. If so much has been accomplished, even with struggling poverty, surely every consideration will induce us, now that we are feeling the benefit of past appropriations, to increase them to the full extent of our ability.

The College most urgently needs an increase of appropriation for its annual support and maintenance. It already has an enrollment of 450 students, and by June the number will exceed 500. But the annual income is no larger than when the enrollment was below 200. To teach this large and continually increasing number of young men the present force of teachers is inadequate, and the supply of apparatus and teaching material is pitifully insufficient. For securing necessary and competent teachers and for the purchase of teaching apparatus and perishable material we consider that an additional annual appropriation of at least \$15,000 is absolutely necessary.

The last General Assembly did wisely in appropriating \$20,000 specially for the erection of a Textile Building; this is to-day a credit to North Carolina. In it are textile machinery and equipment equal in value to the cost of the building, secured without cost to the State, having been donated by the manufacturers just as soon as we provided a building to receive, protect, and operate them. Still other textile machinery has been promised and will soon be delivered. Within a year the textile equipment of the College will amount to fully \$50,000. We may certainly look forward to large numbers of young men going forth annually, well trained in all the latest discoveries of the cotton manufacturing art, to increase the wealth of North Carolina.

The new Textile Department with its splendid building and equipment delights us, and fills us with hope of the manufacturing future of North Carolina; but it also convinces us of the immeasurable advantages which would result from the establishment and similar equipment of an Agricultural Department and Agricultural Building, equal in all respects to our Textile Department and building and worthy of our great agricultural State. That good work has already been done in educating our young farmers, we do not doubt; and yet it seems wonderful that anything has been accomplished with such inadequate equipment.

The Dairy Building, in which over fifty young men are now seeking instruction, is scarcely large enough for ten. Moreover, it is an old wooden house, liable at any moment to be burned and at best giving a poor conception of any value of the art which it represents. Yet, with the exception of an old style wooden barn, which is entirely too small, this little dairy represents the total equipment which North Carolina has provided for agricultural education in her Agricultural College.

The value of skilled teaching in up-to-date, scientific methods of farming is absolutely beyond estimate. Let us provide such instruction in our Agricultural College, and inspire our bright country boys with enthusiasm for farming. We may then look forward to the day when, aided by better methods, better knowledge, and better machinery, one-half of our farming population will produce more food than is now produced by all, and will thus enable the other half to enter other pursuits. We shall then have home markets for our farm produce and world markets for a great variety of manufactured products; and our people will be self-supporting, independent, and wealthy. There can be no question that an investment of fifty thousand dollars in an agricultural building and equipment will yield many times that sum in the next few years. We urge this matter upon the consideration of our people. We realize our State's poverty, and wishing to change it into wealth, we should do all in our power to cause this investment soon to be made.

True economy requires that no money be wasted. While this lesson is important, it especially applies to North Carolina, which is not a wealthy State. Therefore, we urge that all unnecessary expenditure be promptly cut off. At this College necessity has compelled the installation and keeping up of more than one heating plant because there was never at any one time at the disposal of the Directors enough money to install a proper one. These small separate plants add greatly to expenditure of fuel and labor, and yet do not produce the best results. We urge the immediate installation of a suitable central plant, for which the premises afford an excellent location. We are quite sure that the amount saved in running expenses will pay a large interest on the money required for its installation.

There are many other needs which are urgent, indeed, in which if money were invested the return would be large and immediate. While we would most heartily approve any expenditure, which may be intrusted without restriction to the Board of Directors of this College, we have named above the two things in the nature of a permanent equipment, which together with an increased annual appropriation to meet increased annual expenses, seem to be absolutely essential to the continued existence and proper management of the College, even with the present number of students. But the number of stu-

dents will greatly increase as soon as accommodations are provided. Over 100 have been refused admission the present session for lack of room. There can be no doubt that, if we provide accommodations even of the most simple character, we will have in five years at least a thousand students, or about twice the present number. No one can say how much wealth the State loses while she thus neglects the industrial education of her boys. Certainly in our opinion it is a vast sum which is thus lost. We urge that the College be provided as soon as possible with such additional dormitory room as will double the present capacity; that it be given an ice plant and cold storage room, which will enable the management to save the loss in provisions, which is inevitable without them; that a steam laundry be provided; that a suitable building be erected for the teaching of chemistry and for housing the necessary apparatus, without which it is impossible for students to be thoroughly trained in the latest science, either mechanical or agricultural.

In short, believing that industrial education is the best that any boy can possibly have, and that it is absolutely essential to the well-being of our State, we urge that this College be equipped in a manner calculated to enable it to meet the demand, which, happily for us, is ever increasing. An increase in the past three years from 200 to 500 students shows that industrial education is what our people need. In what way can the State better provide for the development of its resources and the prosperity, happiness, and independence of its people than by fully equipping this College, and thus furnishing opportunity for industrial education to as many youth as desire it?

The financial transactions of this institution from July 1, 1901, to June 30, 1902, were as follows:

1st. Owing to the destruction by fire of one of the dormitories, known as Watauga Hall, in which were located the College dining room and kitchen, the Directors, with the approval of the Governor's Council, borrowed \$30,000 with which has been completed a new and much better dormitory and has been partially completed a new and much-needed building, known as Pullen Hall, which will provide ample dining room and kitchen, recitation rooms, reading rooms, and chapel; and has also provided the lighting and heating of the new Textile Building. We estimate that all these, when completed, will represent an expenditure of about \$40,000, which we consider eminently wise, and in all respects economical. The Directors were forced to borrow, also, with consent of the Governor and Council, the sum of \$2,500 to replace furniture and other perishable property in Watauga Hall which had been destroyed by fire.

2nd. The last General Assembly wisely appropriated for the new Textile building \$20,000. This money not being in the treasury, the

Directors were obliged to borrow it. In their efforts to obey the mandate of the General Assembly they have expended on the Textile Building, now completed, and its equipment, \$21,263.31. The \$20,000 was spent on the building and the small excess of \$1,263.31 was spent on equipment, being mainly for freight and insurance on donated machinery.

3rd. The last General Assembly appropriated for payment of indebtedness then existing, \$21,072.92. This amount has been received from the treasury, and the old debts paid.

In conclusion, it gives us pleasure to testify that the affairs of this College have been administered economically, intelligently, and with an eye single to the interests of the State. The spirit of the College is admirable. The officers and teachers are faithful, hard-working, and harmonious. The students are well behaved, industrious, and economical. The institution is, and deserves to be, the pride of the State. Nothing is needed except to develop it along the lines it is following.

Our recommendations are:

1. That the indebtedness which has been incurred by the Board of Directors, with the approval of the Governor and his Council, and of which we express our entire approval, shall at once be paid.

2. That as soon as possible, this college be provided with the following improvements, which, in our opinion, are essential to its continued success.

- (a) Such increase to its annual maintenance as will make the State's appropriation thereto equal to that of the United States Government.

- (b) An agricultural building and equipment commensurate with the importance of the agricultural development of our State.

- (c) Additional dormitories capable to accommodate 500 students.

- (d) A central heating and power plant, and in connection therewith an ice plant and cold storage room and steam laundry.

- (e) A suitable chemical building adequate to meet the requirements of this rapidly developing science.

CULLOWHEE HIGH SCHOOL.

On September 11th we made an official visit and examination of the Normal Department of the High School at Cullowhee. Its location is in Jackson County, on Cullowhee Creek, which is a tributary of Tuckaseege River. In natural beauty this place equals any we have ever seen. The character of the population, which is almost universally of the white race, is such as to present the very best opportunity for educational development. Indeed, the good use to which these people have put their very limited advantages, causes the sure conviction that increase of schools and improvement in teachers will produce results which will justify any expense made to provide them.

The great and pressing need of these people is more numerous schools and better teachers; a school-house will do no good, if it be conducted by an untrained teacher. True economy is for the State to provide the teacher of the very best quality, and for him, by his county's aid, to provide the school.

This end the State can reach by establishing and maintaining Normal Schools. The results attending this course in the Cullowhee Normal Schools proves beyond all dispute the wisdom and patriotism of the General Assemblies which have made appropriations therefor. If any mistake has been made, it is that these appropriations have been so small. In evidence of which we append the statistics which we have gathered and carefully verified.

COST TO THE STATE.

The Treasurer's books present the following figures for the past two years:

Balance cash on hand August 10, 1900.....	\$95.15
State appropriation for fiscal year 1900.....	2,000.00
State appropriation for fiscal year 1901.....	2,000.00

Total for which the Treasurer is responsible.....	\$4,095.15
---	------------

The expenditures were:

For salaries of Superintendent two years.....	\$1,600.00	
For salaries of two assistants two years.....	2,200.00	
For apparatus.....	10.00	
For furniture.....	35.85	
For books.....	5.00	
For cost of exhibits at State Fair.....	100.00	
For miscellaneous objects.....	58.00	4,008.85

Balance cash on hand August 10, 1902.....	\$86.30
---	---------

Our opinion is that the above gives assurance of most remarkable economy on the part of the management. At the small stipend of \$800 per annum they have had the services of a Superintendent, who, in almost any other State, could have had a salary three times as large. The only explanation is his untiring interest in his noble work and his devotion to the welfare of our people. His spirit has influenced his two assistants. These young men have sacrificed themselves to the good of their fellows.

RESULTS.

During the nine years of struggle with pitiful poverty the Normal School has graduated 105 young men and women. The character of these graduates can be estimated by the fact that every one of them has complied with the agreement to teach in North Carolina as a return for her aid. Of the 44 public schools in Jackson County, 35 are taught by graduates at Cullowhee.

If it could be asserted that these young people are not well qualified to fill their important places, the above statement would be of slight value. Happily the contrary is the case. Specimens of their work satisfies us that each is well equipped, in all respects qualified to the delicate task of training our rising generation. This is supported by their having won all the prizes offered for that department in the State Fair of 1900, and ten out of twelve of the Fair of 1901.

The increase in usefulness is manifested by the enrollment of 1900-'01, being 90, and the average attendance 73, which is very remarkable, in view of the very poor school-house, to which these students had to come. A still further evidence of the value of the Normal Department is that, by its aid, there has been maintained also an excellent preparatory school, with average attendance of 154 scholars. We believe that at a low estimate the cost of such a school may be placed at \$750 per annum, whereas its only support in money has been \$150 from county, and \$175 paid for tuition by 34 of the scholars. The balance of \$425 should in justice be credited to the Normal Department.

It should be remembered that the small sum appropriated to this school is the only aid given by the State to any institution west of Morganton. That this Normal School is the only source from which we may expect to get competent teachers for almost the whole of the Congressional District in which it is located; that the white population of this large trans-montane district will exceed 150,000. We certainly urge that the duty, as well as the best interest of the State, demand that she make a more liberal appropriation to this school.

We learn that the appropriation of \$5,000, made in 1901, for the erection of a suitable school building, has not been claimed because of the committee's appreciation of the financial embarrassment of

the State's treasury. They have, however, secured the donation of a suitable site, for which they hold the deed, have obtained an acceptable plan, and will soon begin the building.

The appropriation for maintenance we also think entirely too small. It is unbecoming the dignity of our State to accept the valuable services of such men as this Superintendent and his assistants at so small a stipend. We earnestly recommend that the annual appropriation hereafter be \$3,000.

THE GUILFORD BATTLE FIELD.

Intentionally we place our report upon the Guilford Battle Field among those of the educational institutions of our State. Feeling that no branch of instruction is with us so neglected as that which teaches the true history of North Carolina, and convinced that a proper appreciation of her glorious past will incite her sons and daughters to the achievement of an equally glorious future, we commend to the fostering care of the General Assembly this institution, whose object and tendency is to produce exactly that result.

We admit that in all efforts of this kind a considerable advantage is brought to the locality in which the effort is made. Therefore, if the people of the place should manifest indifference, we would be very loath to advise those living in more remote portions to subscribe their money to its inauguration. In the present instance, however, exactly opposite conditions prevail. An inspection of the financial statement, which is appended, shows that two-thirds of the expense has been met by contributions from the city of Greensboro and her citizens. Not only so, but this institution has been made possible by the untiring effort of two good men, entirely devoted to this State, the late Judge Schenck and Major Morehead.

With these considerations in mind, we unhesitatingly recommend the continuance of the present appropriation, which will call for no change in existing law. And we further most respectfully ask your Excellency to exert your influence, both personal and official, through the good offices of our Senators and Representatives, to induce Congress to give such recognition and aid as this Association does fully deserve.

Everyone who reads the history of the American Revolution, where it is fairly written, must know that the Battle of Guilford Court House so crippled the British as to make certain the subsequent success at Yorktown, the surrender of Lord Cornwallis, and the speedy independence of the American Colonies. Therefore, it is eminently fitting that the preservation of that battle field should be the work

of the Federal Government. All that North Carolina need ask is that men and women of this and succeeding generations may be encouraged to visit the spot, to examine its topography, to read the inscriptions on the numerous monuments already erected, and read the records of those days for their substantiation, which we know will be complete.

The financial statement follows:

RECEIPTS.

From State, two annual appropriations.....	\$1,000.00
From city of Greensboro.....	668.00
From individual subscriptions.....	1,050.00
From percentage on railroad fares.....	348.00
	<hr/>
	\$3,066.00

DISBURSEMENTS.

For one salaried employee.....	\$480.00
For fertilizers, implements and labor.....	236.00
For eight monuments.....	1,900.00
For photographs, publications, etc.	100.00
For expenses of 4th July celebration.....	100.00
For purchase of additional land.....	250.00

PROPERTY.

The results of years of struggle of this Association and of the devotion of its President and Vice-President are that it now owns more than one hundred acres of land, the actual site of the battle, adorned by cultivation and by the erection of a large number of monuments suitable to commemorate the acts of the nation's heroes, a museum, small but well built, and filled with relics of great value. Surely the recital of these accomplishments of two men will suffice to give effect to our recommendation.

THE MOORE'S CREEK BRIDGE BATTLE GROUND, IN PENDER COUNTY.

One of the most distressing conditions to-day in our State is the lack of interest of her people in the facts of her history. This indifference is in great part attributable to lack of information. We have submitted so long to slurring jests at the expense of our State, that we have been slack in talking among ourselves and in presence of our children, of the deeds of valor of her sons of former generations. As a result, we find wanting that State pride which is honestly the birthright of North Carolinians, and in consequence we are not so determined, as we should be, to give our State that exalted position among her sister Commonwealths, to which her history entitles her.

In our schools our children are taught from books whose authors are foreign, knowing nothing of those things which especially our children should learn. It seems to us eminently wise that every proper effort should be made to remedy this defect. In no way can this be so well done as by marking appropriately the places that are well proven to have been the exact scenes of events that should ever be famous.

Very few of our people, we fear, know that on February 27, 1776, more than four months before our National Declaration of Independence, a small band of North Carolinians fought a battle with a much larger force of British and Tories, of which the direct trophies were: "Fifteen hundred excellent rifles, thirteen wagons and teams, a lot of English guineas, worth \$75,000, and 850 prisoners, including their commanding General, McDonald," while indirectly, "its moral influence told like an electric shock on the heart of the whole country, as with commanding power it sped over the land, importing a resolute spirit of resistance to the desponding, and oft-times dismayed hearts of the patriots, and reaching the counsels of the State, developed itself in the first legislative recommendation of a Declaration of Independence by the National Congress which was made on the continent of America."

A visit to the spot goes far to convince us of the absolute truth of the above sentences quoted from the address of an eminent son of North Carolina. Still visible are the old lines of intrenchments, also the embrasure through which was fired this single cannon which raked the bridge.

By the patriotic efforts of a few public-spirited men, our State owns about ten acres, covering the exact scene of the battle. Here, by private effort, was erected in 1857 a monument, which has become considerably defaced, but which should not be displaced, but repaired and preserved. A few more acres might easily be obtained, and the whole should be converted into a beautiful park, in which,

on July 4th of each year, many thousands of our young people might assemble to do honor at once to their nation and to their State.

Up to the present time the total appropriation from our State treasury here has amounted to only \$300, which have been expended chiefly in the erection of a pavilion and other improvements. We urge that the same amount be annually appropriated here, as to the Guilford Battle Field, to-wit, \$500. That an association of good citizens of that section be incorporated, to hold, control and improve the property, and that our Senators and Representatives be urged to present the matter to Congress, and to urge that a more adequate sum be appropriated.

We make these recommendations because we consider that to the National Government should be awarded the privilege of doing honor to the participants in the battle which made her a nation, while to North Carolina much immediate benefit will surely come from thus educating her children in her history. We are sure that in no way can \$500 be more profitably expended than by affording the opportunity to read on the old weather-beaten monument these words: "In commemoration of the Battle of Moore's Creek Bridge, fought here the 27th of February, 1776, the first victory gained by the American forces in the War of the Revolution."

CROATAN INDIAN NORMAL SCHOOL.

We have not visited this institution, feeling that to do so would incur useless expense, as it has not been in session since the 26th of May last. For the information which we report we are indebted to the State Superintendent of Public Instruction.

This school was established by our General Assembly, and its purpose declared to be, "To train teachers for the Croatan Indians in Robeson County." To its support the State has appropriated \$500 per annum since its organization, and an extra appropriation of \$100 to pay indebtedness was made in 1901.

Its immediate management is intrusted to a local Board of Trustees, composed of Croatan Indians, and to the Board of Education of that county. One teacher is employed at \$65 per month, and the attendance last reported is 40, the sexes being equal in numbers.

The accounts in the office of the Superintendent of Public Instruction show that during the year 1901 they received and expended	\$406.25
And the year 1902 they received and expended.....	500.00
And special appropriation for debts.....	100.00

Total cost to State.....	\$1,006.25
--------------------------	------------

We see no reason to recommend any change in existing laws.

AGRICULTURAL AND MECHANICAL COLLEGE FOR THE COLORED RACE.

Entering upon the consideration of the most difficult problem at this time presented to our people, to-wit, negro education, it is our intent to lay before your Excellency in most plain words the existing facts as brought out by our examination of each institution; in explanation of them to give a brief review of the history of each; to submit a condensed financial statement; to point out the needs as they appear to us, and finally, with all candor, to state our opinion of the causes which have produced the results, whether good or bad.

Naturally, we begin this portion of our reports with the above-named institution, which of all those for the colored people in North Carolina has in past years enjoyed the greatest advantages, in location, in buildings, in public interest, manifested by the largest appropriations of money, local, State and Federal. This institution has also had that other advantage, without which no institution for colored people in our State can possibly be successful, to-wit, a Board of Directors, a majority of whom are white men of high character. With these advantages it seems right that we should place this report first on our list.

ITS HISTORY.

This college was incorporated by Act of the General Assembly, Chapter 549, Laws of 1891, and its location fixed at Greensboro, because of the very liberal contributions to its land and buildings made by that city. Since that time our State has appropriated \$10,000, and the city of Greensboro \$16,000 to the plant, and beginning with an annual appropriation for maintenance of \$2,500, the State has increased it at intervals until now it reaches \$12,500. From the Federal Government this college receives annually \$8,250, being 30 per cent of the whole portion of the Landscript Fund applied to the State. By the law, this is not applicable to purchase of real estate, but is for payment of salaries and purchase of apparatus, and to these objects it has been applied. What the other resources of this college have been can be estimated from the financial statement which we have obtained from its Treasurer and condense and append hereto.

RESULTS.

From its inauguration until two years ago, this college received both males and females. It is now held this was not satisfactory and the girls have been excluded. Its first result, then, is to say to the colored race, "Your moral standing is such that co-education is impossible," and on North Carolina to impose the increased expense

of establishing and maintaining separate institutions for the sexes, thereby giving strength to those who insist that the taxes of the whites should not be applied to the education of the negro. In this result we are of opinion that this college has added tremendously to the difficulties which already oppressed our State; it has unjustly assailed the moral character of the colored race; it threatens to increase that darkly threatening flood of ignorance which, like a black pall, oppresses us, and makes more weighty the burden which must be borne by your Excellency and others who are striving to arouse and sustain a public sentiment in favor of universal education.

We next note that since the exclusion of girls the number of boys enrolled as students has somewhat increased, until now it is said to be as many as ninety-five. Feeling that the true test of a school is not its enrollment so much as in its actual average attendance, we have tried to arrive at this, but have not been able to do so with certainty because no books have been kept from which it can be ascertained. We have heard reports that it was as low as forty and as high as fifty. We hope either is an under-estimate, and that it is safe to place it at sixty; therefore, dividing the expense of maintenance taken from the financial statement, \$27,667.31, by sixty, gives a per capita cost of maintenance of \$461.28 for a term of 16 months. This we certainly consider excessive, and indicating an unnecessary expenditure of money.

We next tried to determine where the mistake was which produced so enormous a per capita. We conclude that it was most unwise to spend money in a college intended for the negro, for the purchase of apparatus and appliances of so costly character, and providing education of so scientific quality, as would call for such appliances. It is well known that there is no probability that any large proportion of these young students will ever see, after leaving this college, any other than the most simple and inexpensive implements, either mechanical or agricultural.

Wisdom would lead us to instruct them in the use of such things as they are likely to possess; moreover, one purpose of this school is to provide negro teachers for negro preparatory schools, but in no school-house in North Carolina can he possibly extend to the children the instruction he has here received, nor will he find one in a thousand of the negro children capable of receiving such instruction if he were able to offer it. We are glad to say that an occasional instance occurs of a young negro man or woman becoming distinguished in acquirements of scientific education, but these are so rare as to be noticeable because of this rarity. In the present impoverished condition of our State she can not afford to spend large sums of money for the benefit of so few; her duty is to the masses, and for them she must provide education in accord with both their needs and abilities.

RECOMMENDATIONS.

We advise that the higher scientific education of the colored people of North Carolina be left in hands of the Federal Government, and of such persons as may differ with our conclusions, and that our State make no further appropriations to it until it is shown by experience that this kind of teaching is calculated to promote the best interests of the great mass of our needy people.

We have received from the Treasurer of this institution a financial statement, of which the following is a copy:

FROM JUNE 1, 1901, TO OCTOBER 1, 1901—16 MONTHS.

Balance cash on hand June 1, 1901.....	\$1,372.08
Received from Federal appropriation.....	16,500.00
State appropriation (\$10,000 still due)....	15,000.00
Slater Fund.....	300.00
Sale of produce of dairy, farm, garden....	4,240.30
Boarding	1,798.40
Tuition, lodging, etc.	929.27
Brick-yard, wood-yard, machine shop, etc..	2,448.15
Summer School.....	394.79
Back debts of students and miscel. sources.	1,093.91
Total	\$44,076.90

DISBURSEMENTS.

Expended on account of dairy, farm, garden, etc.	\$10,052.28
Boarding	2,135.35
Tuition, lodging, etc....	6,826.74
Brick-yard, wood-yard, machine shop, etc....	8,252.23
Summer School.....	410.11
Total for maintenance for 16 months.....	\$27,677.31
Expended in payment of back indebtedness....	13,276.99
Balance on hand October 1, 1902.....	\$3,122.60

NOTE, BY TREASURER.—“Of the above disbursements, \$11,003.22 is for salaries for 16 months, under the various departments.”

Our comments upon the foregoing financial statement are, that whereas, the amount expended for the maintenance of this institution for a period of sixteen months is \$27,677.31 and the average attendance of students was sixty, the per capita cost is \$461.28, which we consider excessive and unnecessary.

Whereas, the amount reported by the Treasurer as expended for salaries has been \$11,003.22, the proportion to each student has been

\$183.38. We consider this entirely too much, and that the salaries paid are excessive.

Whereas, the amount expended on the farm, dairy, garden, etc., was \$10,052.88, and the receipts therefrom \$4,240.30, therefore, this part of the institution cost for its running \$5,812.58.

Whereas, the amount expended on the brick-yard was \$8,252.23, and the receipts therefrom \$2,448.15, therefore, this part of the institution cost for its running \$5,804.08.

We would prefer that an industrial school should teach how a farm and brick-yard can be run with profit.

THE SLATER INDUSTRIAL AND STATE NORMAL SCHOOL, WINSTON.

The management of this school is in the hands of the following persons: Henry E. Fries, Rev. Robt. E. Caldwell, W. A. Blair, S. G. Atkins, A. H. Eller, Judge H. R. Starbuck, who are citizens of North Carolina, and Henry Roberts, Geo. McAneny, E. H. Clements, A. Purves, W. F. Crowell and Geo. G. Williams, who reside in other States.

Our reason for giving these names is, that we feel that each of them is entitled to the thanks of our State, which, so far as we are authorized, we now tender them. The service which they have rendered in providing an answer to the most aggravating question of our day, negro education, and in meeting the objections of those who oppose the expenditure of money collected from the whites for the education of the colored, is beyond estimate. By a plain report of what we saw at this school we hope to point out some of the wise methods which these men have employed.

First, and most important, they (all but one being white) have appreciated the responsibility which they assumed when the position of director was accepted; they have not been such only in title, but they have in fact directed the institution over which they have been placed. By the exercise of most excellent judgment they have selected their teachers, given attention to the manner in which their appointees performed their duties, removed those who failed, supported and encouraged those who strove to give satisfaction, and thus have secured the services of a thoroughly efficient corps.

Realizing that negro girls needed education as much as boys, and that our State was not able to establish separate schools, they adopted the most wise and effective measures to reap the advantages of co-education. For this purpose they secured the services of a

discreet colored woman, to supervise the colored girl students, with results entirely satisfactory.

With their close supervision they have combined a spirit of kindness, winning the esteem of all those over whom they had authority, and last, and most important, they have preserved a feeling of kindness between all parties, so that the terrors of the race question do not appear.

Their effort has been to study the conditions which would surround their students after graduation; knowing that they must return to humble homes, they have educated them in the use of such implements as they would find there. No money was spent in the purchase of costly apparatus; none in high salaries to teach negroes science, "falsely so-called," but that real science of how to make honest citizens, they have taught most successfully, and at very moderate expense.

The work of the school was begun in a small wooden building, which is still used for young children, and to give the normal students practice in teaching, while the larger school now occupies a plain, substantial brick building, of which the architect's estimate of cost was \$15,000, but the actual cost was only \$10,000, because of the boys having done a large part of the work.

The Directors were also wise and wonderfully fortunate in obtaining the services of Mr. John W. Woody, to live on the premises, to aid in the teaching, and to immediately control the business affairs. Mr. Woody is a white man of age, experience and high attainments, and certainly did not accept the position for the salary offered him, but could only have been induced to do so by the pleasure of taking part in the good work which is being accomplished.

RESULTS.

There are so many that space forbids mention of all, so two are selected as illustrations:

First, One of the most successful business men of our State, who employs a large number of colored laborers, finding that his works were embarrassed by sickness of his employees, which was often prolonged for want of proper nursing, proposed to give \$5,000 to erect a hospital for colored people, on condition that a like sum was given by others. This offer was promptly accepted, the Directors and their friends, the teachers and scholars, speedily made up the other \$5,000. A hospital now stands near the school building, which is a credit to the community. We could not understand how such a hospital, so well equipped, could have been obtained for \$10,000, until it was explained that one of the students had supervised it, and the others had done the work. Here it is proposed soon to have a class of girls educated as trained nurses, thus introducing an employment for col-

ored women, which is peculiarly well adapted to the Southern ideas of propriety.

Near the school building are many modest cottages, which are owned by the graduates of this school, thus giving the object-lesson that for any man to be a good citizen he should own his home. In each of these cottages may be seen an honest man, a pure wife, a family of respectable children, and surely this result is worth far more to North Carolina than the money she has appropriated to this school.

While we could, and most gladly would, say much more in commendation of this Board of Directors, space compels us to close this report with their financial statement, covering the term of two years, beginning June 1, 1900, and ending May 31, 1902.

Our recommendations follow reports upon all the Normal Schools.

Labor, fuel, supplies and miscellaneous items.....	214.07
	3,775.55
Balance cash on hand September 25, 1902.....	\$32.60

This is one of the seven Normal Schools for colored people to which the State appropriates the aggregate of \$14,000.00 per annum, its share being as shown above \$1,857.14 for each school year.

The faculty consists of a Principal and three teachers. The length of the school term is eight months. The total enrollment of the last term is reported by Principal to have been 165, of which the average attendance was 155. Six of the total enrollment were less than 16 years of age, and twenty-three were non-residents of this State.

The number of graduates at last commencement was twenty-six, of whom eleven were prepared and expected to become teachers, and seven were non-residents of North Carolina. The school course is sub-divided into four classes, designated as "First Year," "Junior," "Middle" and "Senior." The teachers observe the instructions prescribed by the State Board of Education.

This institution occupies one of the buildings of the Livingston College, under a contract made by its Board of Directors. On visiting this building we were not at all favorably impressed either with its condition or that of the surrounding grounds. We conceive it to be of the very first importance that those who are to become teachers should themselves be trained in habits of neatness. If possible this is more important to teachers of colored children than of the white, because the former, unless so trained, are unfitted to fill the positions upon which they must depend for a livelihood. The almost unsightly condition of this building and grounds gives us slight

reason to hope that the young men and women, who receive their training there, will be competent teachers of their juniors.

Our recommendations as to future maintenance of this institution will be appended to our report upon the condition and accomplishments of the other Colored Normal Schools.

COLORED NORMAL SCHOOL, GOLDSBORO.

Here we find another case of a Board of Directors who do not direct. The five members of this Board are white men of deservedly high character in their community; but those of them that we met stated plainly that they knew nothing of the institution that they had undertaken to manage, and the invariable result follows, to-wit, a waste of the State's money. At the time of our visit there were 23 students, taught by four professors, at a monthly cost aggregating \$210; in other words, the tuition of each student was costing the State more than \$9.00 per month. This seems to prove the correctness of our words, that there was a waste of the State's money. This school has no building and scarce any equipment. It certainly seems most unwise to attempt to carry on normal instruction under such adverse conditions. We are not prepared, however, to make decided recommendations in regard to this institution until we have completed our investigation of all of the Colored Normal Schools of the State.

From the Treasurer of the Board of Directors we obtained the following financial statement, covering the two last school terms, of nine months each:

Balance cash on hand June, 1900.....	\$421.21
Received from State Treasurer two annual appropriations..	3,714.28

Total	\$4,135.49

No balance.

ELIZABETH CITY STATE NORMAL SCHOOL— COLORED.

We regret that our time was too short to permit more than a brief inspection of this admirable institution, as we are sure that a longer visit would have given us pleasure, and have enabled us to report most satisfactory results. We found the Board of Directors composed of white men, who do *direct*. We found no person who was slow in expressing entire satisfaction and approval of their work. We found that they had employed as Superintendent a colored man who, we were told, had done much to promote the general welfare of the community. He and his four assistants were conducting an excellent school, in face of the disadvantage of an entirely inadequate building. The rooms were crowded, but also neat and clean, filled with about one hundred and twenty-five young people, who give promise of becoming good citizens of our State.

By the personal effort of the Superintendent, P. W. Moore, a small sum has been received from a few of his friends for the purpose of inaugurating an Industrial Department. This has been commenced with good results, but it also increases the urgent need of more and better room.

A school conducted as this is will do very much to promote the cause of general education, because it gives as an object-lesson an answer to that most difficult problem, "What shall we do with that clause in our Constitution which commands the education of all children, colored as well as white?" Let this mandate never be repealed or violated. There would be no danger of either occurring if all colored schools were directed and superintended as is the State Normal at Elizabeth City.

Condensed financial statement of the Treasurer of the Elizabeth City Normal School for the two terms, beginning August 13, 1900, and ending August 11, 1902:

Balance cash on hand August 13, 1900.....	\$890.17

Balance cash on hand August 11, 1902.....		\$317.68

COLORED NORMAL SCHOOL, PLYMOUTH.

It is surely our hope that we will find no other institution in North Carolina so utterly unsatisfactory in every respect as the Normal School for colored people in the town of Plymouth. In such a case it seems our duty, first, to seek for and report the cause. We do not hesitate to say that every institution will be satisfactory or the reverse, in exact proportion to the degree of attention which is given it by its Board of Directors. This is an invariable rule, and is found to apply here. The Board, composed entirely of white men, seem to have bestowed very little, if any, time or thought to its direction. In evidence of this we report that after strenuous effort we were unable to find anyone who could give us any idea of the disposition which had been made of the State's money. In further evidence we find that the negro man employed by their Directors as Superintendent is utterly unfit to fill so important a position.

The results are such as may ever be expected when directors do not direct—a miserable building, unsightly and untidy, a lot of dudish-looking negro boys, for whom no instruction is provided in any branch of industry; girls who will never be able to teach children habits of neatness, because they have never learned such themselves. Justice, however, leads us to report one good result, to-wit, wide-spread dissatisfaction with this school throughout the community in which it is located. It would, indeed, be lamentable if such a school should give rise to any other feeling than complete disapproval.

NEEDS.

There can be but one need for us to report or recommend: the prompt, complete and permanent discontinuance of this, one of our State institutions.

Financial statement of Plymouth Normal School, from September 1, 1900, to July, 1902, obtained several days after our visit:

COLORED NORMAL SCHOOL, FRANKLINTON.

Our visit of inspection was made here on October 27th. We found the school in session, about sixty-five normal students in attendance, about equally divided as to sex. The Principal is a colored man of decided ability and attainments. The situation is desirable in every respect. The property owned by the institution embraces about sixty acres of farming land, and buildings well adapted to its purpose, if kept in good repair, but we regret to find them sadly in need of painting and other inexpensive improvements essential for their preservation.

We learn that the property has been acquired and the school, in part, supported by donations from Northern friends, chiefly from the Presbyterian Church. The Principal stated to us that he had received from these sources during the past year "about seven thousand dollars," but we were unable to get any more definite information of the amount, or from whom received, and we failed utterly in our attempt to discover what disposition had been made of it. While we admit that we have no right to demand this information, yet it is evident that it would aid us in making our recommendations, if we knew the exact amounts received, the names of the generous donors, and, most of all, that it had been judiciously expended.

Application to the Treasurer of the Board of Directors, who has had charge only of the State's appropriation, gives us the following financial statement, covering the two school years last past:

August 11, 1900, balance cash on hand.....	\$171.46
Received of State Treasurer, two appropriations.....	3,714.28
Received of Peabody Fund.....	250.00
Total	<u>\$4,135.74</u>

DISBURSEMENTS.

Teachers' salaries.....	\$3,170.00	
Treasurer's salary.....	100.00	
Fuel	534.95	
Nine stoves purchased.....	119.00	
Miscellaneous purposes.....	191.73	4,115.68
Balance on hand.....		<u>\$20.06</u>

This school presents another instance of directors who do not direct. Of the five gentlemen composing the Board, their Treasurer informs us that only one has given it the attention it deserves.

This is, indeed, much to be regretted, as with the great interest manifested in the institution by friends in other States, good results might be attained here, which are impossible, unless the directors each give it the attention which he undertakes to do when he accepts his position.

FAYETTEVILLE NORMAL SCHOOL.

We visited this school on November 7, 1902, and found by its records that the enrollment was 101, representing 11 counties, and the average attendance 70. We were told by the Principal that 40 per cent of the enrollment hold teachers' certificates, and most of these are actually teaching, but continue attendance to further improve themselves.

The school has no building of its own, but rents the upper story of the city school-house; nor has it any Industrial Department. Notwithstanding these disadvantages, we are decidedly of the opinion that it is doing a good work. We are glad to find that in this opinion concur the best element of the people of Fayetteville. We learn that land is already secured on which a Normal Industrial building may be placed, and that by exercise of strict economy the Board of Directors have in hand a balance from the annual appropriation to begin its erection. This manifestation of interest and good manage-

ment leads us to hope that this school will soon be placed upon a permanent and successful basis, as it fully deserves to be.

A condensation of the Treasurer's accounts presents the following figures for the two years last past:

May 17, 1900, balance cash on hand.....	\$1,074.45

November 7, 1902, balance cash on hand.....	\$745.40
---	----------

We now close our reports upon the colored schools of our State, and refer to the preceding for an understanding of these general remarks and recommendations.

There are eight of these schools, to-wit: the A. and M. College at Greensboro, which receives an annual appropriation of \$12,500.00 from the State; and seven Normal Schools, of Salisbury, Winston, Franklinton, Plymouth, Elizabeth City, Goldsboro and Fayetteville, which altogether receive \$14,000.00 per annum.

The argument, which has led to the establishment of so many schools, has been that thus a larger number of students could attend them. What force there was in this argument at the time has, in a great measure, been removed by the increased facilities and lower cost of travel. But the disadvantages are manifest, as plainly stated in our report upon each.

Our recommendation is, that for each of the next two years the State appropriate to the normal education of the colored people the sum of fifteen thousand dollars, which shall be divided equally between the schools of Winston, Elizabeth City and Fayetteville.

We further respectfully urge upon your Excellency that the Board of Directors of each of these schools be continued as at present composed.

We further recommend that the appropriation suggested for each of these schools be placed in the hands of its Board of Directors, to

be expended at their discretion. We believe that thus much better results will be obtained, than for the Legislature to undertake to prescribe the method of this expenditure.

We further advise that a committee composed of one member of each of these Board of Directors, to be named by your Excellency, shall have general supervision of these schools. That they shall visit each at least once during each year, and shall report to your Excellency before the next meeting of the General Assembly such changes in the law as they deem to be improvements.

STATE HOSPITAL FOR INSANE, RALEIGH.

During the week ending August 30, 1902, we made four visits to this institution, inspecting and examining its every department as fully and carefully as was possible in the time at our disposal. We respectfully submit our report as follows:

We received a cordial welcome from the Superintendent, Dr. James McKee, and his assistants.

NUMBER OF PATIENTS.

There are at this time 404 patients, of whom 180 are males and 224 females. Of these the Superintendent classes as

Harmless, but incurable, insane, males.....	21
Harmless, but incurable, insane, females.....	15
Epileptics, incurable, males.....	36
Epileptics, incurable, females.....	26

Total incurables..... 98

The first point to be determined, with as near approach to accuracy as possible, is the number of insane in the territory served by this hospital. This part of our State, known as the Eastern District, embraces 44 counties, with a white population of about 450,000, as shown by the census of 1900. From the best information that we have been able to obtain the proportion of insane to the whole population is two in each thousand. If this rule holds good here, we may say that there are in the Eastern District 900 insane persons, of whom 404 are in the hospital. The others are either in the jails, the County Homes, or in charge of their relatives. This is, indeed, a sad condition of things, and we are compelled to hope that the usual proportion does not hold good with us. As will be seen by our report on the hospital at Morganton, there is evidence, more con-

clusive, that this proportion does prevail in the Western District. If so, we can not see why it should not in this district. Yet, the Superintendent tells us that he has recently discharged fifty patients, and that much of the room thus vacated has not been filled by new admissions. It would seem, then, either that there are not so many insane here, or that their relatives are not anxious to get them into this hospital.

We are glad to know that Section 81, Chapter 7 of the Laws of 1901, makes it the duty of the tax assessors hereafter to ascertain the number of the insane. This information, if accurate, will be most valuable for future guidance. Not having any such statistics to guide us now, we are not willing to recommend any additions to the capacity of this hospital. In the present condition of the State treasury we must feel sure that an appropriation is absolutely requisite before we can advise its being made.

THE WATER SUPPLY.

We find that this hospital is provided with water from two sources:

1. By means of an hydraulic ram, water from Rocky Branch is raised to the reservoir on the hospital grounds. The point of intake of this supply is about one-fourth mile below the emptying point of the sewer from the A. and M. College. The branch above the intake drains a section which is already rather thickly inhabited and rapidly increasing in population. From these facts it is manifestly improper that this source of supply should be continued. It is true that this water is not now used for drinking, but only for laundry and bathing purposes. Yet, we submit that water derived from so foul a source is unfit for these or any other purposes, and that while it continues within the premises, there is great danger of a person drinking it by mistake, and thus precipitating an epidemic of typhoid fever, to the great detriment of both the hospital and the State.

2. There are several driven wells from which drinking water is raised by power pumps. The quality of this water is said to be good. While we do not doubt this, there still remains the danger of the foul water being used for drinking, especially imminent with the patients, who have not the mental ability to determine which is which. We therefore advise a speedy change of the water supply, and suggest as the most feasible method for its accomplishment, that arrangements be made with the water company of Raleigh to provide an abundant supply of pure water.

We have been provided with an estimate of the cost of connecting this hospital with the city mains. It seems to us to be complete in its specifications, and at the same time very reasonable in the statement of cost. The aggregate of this is \$4,500. If this is paid by the

hospital, the company contracts to furnish a full supply of pure water at the rate of 8 cents per thousand gallons, which we consider reasonable. We therefore recommend that immediate steps be taken to carry out this plant; that if the expense can be met from the Steward's special fund, it be provided in that way, otherwise, that a special appropriation for this purpose be at once made by the General Assembly.

STEWARD'S DEPARTMENT.

With great care we have examined the books and vouchers of W. R. Crawford, Jr., Steward, and find them in condition satisfactory.

The appropriations made by Chapter 737, Laws of 1901, for this hospital were as follows:

Annual for maintenance.....	\$71,500.00
Special for improvements.....	2,500.00
Special for accrued indebtedness.....	10,000.00

Receipts and expenditures for whole of fiscal year 1901, and for eight months of 1902, are:

RECEIPTS.

Balance cash on hand December 1, 1900.....	\$627.13
State appropriations (two years), for maintenance	143,000.00
Special for improvements.....	2,500.00
Debts	10,000.00
	<hr/>
	\$156,127.13

EXPENDITURES.

During fiscal year 1901, for debts.....	\$10,000.00
For improvements.....	2,500.00
For maintenance.....	70,695.09
During eight months of year 1902, for maintenance	56,011.76
	<hr/>
	\$139,206.85
Balance in State Treasurer's hands, Aug. 1, 1902	\$16,920.28

An analysis of these figures show that the cost of maintenance per capita was:

For whole of fiscal year 1901.....	\$168.72
For eight months of fiscal year 1902.....	133.68
Or an average per capita per month.....	15.13

We are not prepared to say whether or not any part of the above expenditures was unnecessary. We suggest a comparison of this average per capita per month with a similar one to be obtained from

the Steward's books of the other hospitals, as the best method to guide your Excellency in arriving at a fair conclusion.

Further examination of the Steward's books show that from sale of old material (not of real estate, which would go into the hands of the State Treasurer) there has come into the Steward's hands the following amounts: (See Chapter 1, Section 34, Laws of 1899.)

"Proceeds arising from personal property belonging to a Hospital Board, paid by private patients, rentals from real estate, and money from any other source, except sale of real estate, shall remain with the hospital and be used as the Board of Directors may determine."

RECEIPTS.

From above sources for fiscal year 1901 (12 months)	\$4,080.18
From above sources for fiscal year 1902 (8 months)	2,828.78
	<hr/> \$6,908.96

DISBURSEMENTS.

By order of the Board of Directors, etc.—		
During fiscal year 1901.....	\$2,319.86	
During eight months year 1902.....	1,564.82	\$3,884.68
	<hr/>	<hr/>
Balance of this fund on hand August 1, 1902....		\$3,024.28

We note that items for maintenance in the Steward's accounts include moneys paid out as salaries and wages of the officers, employees and servants. A full list of these has been placed with us and an inspection of it leads us to the conclusion that there is no unnecessary expenditures made on that account. The pay-roll for the month of July, 1902, amounts to \$1,901.52, or an average monthly cost of attendance on each patient of \$4.54, which we submit for comparison with similar items in the other hospitals.

In our examination we had before us the matron, the farmer, the carpenter, and the engineer of the hospital. We were most favorably impressed with each of these officials.

Our recommendations are as follows:

1. That the appropriation for maintenance continue as at present—\$71,500 per annum.
2. That an abundant supply of pure water be obtained at once. This will involve the necessity of a special appropriation of \$4,500, unless it can be provided from the Steward's special fund.
3. After making a personal inspection, and also having had the opinion of the engineer, we recommend the early purchase of four new boilers of each 125 H. P., to take the place of the three now in

use, each being 75 H. P., which are entirely inadequate to the service required of them, and, moreover, having been used for twelve years, are about exhausted. The cost of the four new boilers, we think, will be \$4,000.00, and that the three old ones can be sold for \$1,200.00. Therefore, we advise a special appropriation of \$3,000.00 for this purpose.

4. We find the ice plant quite inadequate and unsatisfactory, and that it can be improved and made to meet requirements for some years to come by obtaining a new and larger brine tank. This we estimate to cost five hundred dollars (\$500.00), and advise a special appropriation of that sum.

STATE HOSPITAL, MORGANTON.

We respectfully ask your Excellency's permission to open this report with a few words addressed to the members-elect of the General Assembly:

GENTLEMEN:—We have before us at this moment a very large number of letters written by persons of every class and condition, addressed to Dr. P. L. Murphy, beseeching him to take pity upon their afflicted relatives. Their prayer is for treatment of mother, father, child, wife, husband, not one of whom has broken a law of our State, but who, nonetheless, are doomed to long and loathsome imprisonment in the common jail, which was intended only for criminals. Surely it can not be thus that North Carolina intends longer to treat her honest citizens.

Out of the great mass of these letters we select a few extracts, and most earnestly beg you to read and consider them:

Governor Aycock to Dr. Murphy—

"If possible please take Mr.'s wife into the hospital. * * * These constant appeals make my heart sick, and I do not see how you have borne it through all these years."

Of the sincerity of his Excellency in using these strong words no one will for a moment doubt, who could glance over the large number of applications now on file, not acted on, because of lack of room.

One good citizen writes:

"I hope you will give favorable consideration to the application of Mr. for the admission of his son. This is a distressing case and can not be cared for at home, at the poor-house, or in the jail. Mr. is one of our best citizens. The

officials of the county urge it. The public is interested. All who know the conditions earnestly desire that the poor boy receive the benefit of your treatment."

Another says:

"Mr. has been confined in our county jail for four months. He is a man of extraordinary ability, and with a few months' treatment can be restored to health, but if he stays in jail much longer he is doomed to be insane for the balance of his life."

Another good man says:

"The jailor says that this poor, good woman will surely die unless she is speedily removed from jail. Can not you help her?"

A heart-broken daughter writes:

"Won't you please take our dear mother into the hospital? For God's sake do so, if you can."

Here is an extract from a letter of a father to Governor Aycock:

"KIND SIR:—Many thanks for your letter to Dr. Murphy urging him to take my son, Oh, if I could only get treatment for my poor, afflicted boy. I can scarce get him to eat now, and it is so hard to see my child starve before my eyes."

"DEAR DR. MURPHY:—My attention has been called to the case of Charley, which is, indeed, pitiable. If poor Mrs. is not soon relieved she will be in the same condition her son is now."

"DEAR DR. MURPHY:—So many requests have gone to you about poor Mrs. that I hesitate to trouble you again. Her husband is a poor man with six small children; it is dangerous to leave them with their afflicted mother. He can not leave her to make food for his hungry little ones."

The pleading of a husband and father:

"KIND DOCTOR:—Please take my poor afflicted wife into the hospital. There is great danger that she will burn our house and destroy our children. Please, Doctor, take her and I believe you can cure her."

A paper signed by twenty-five good men of County, says:

"We send you, who is violently insane. Our jail facilities are so inadequate that we have been obliged to chain and handcuff him, and in his efforts to get loose, he greatly lacerates and bruises himself, not only endangering his life, but also likely at any time to break loose and injure others. We believe you can cure this good man and citizen."

These are the heart-rending words of a wife:

"DEAR DR. MURPHY:—I come appealing to you for help. Pardon me for writing again, after you wrote that you had no room for my poor husband. He has become so much worse that I feel that I must again beg you to help him and me and our little ones."

A distressed mother writes to Governor Aycock, describing the sad condition of her 17-year-old boy. His Excellency forwards it to Dr. Murphy, saying: "I enclose a letter which speaks for itself. Can not you, by any possibility, take this poor boy?"

Gentlemen, the following is our report to his Excellency and such suggestions as we can make, to aid you in reaching a solution of this really terrible condition:

STATE HOSPITAL, MORGANTON.

This institution is intended to provide for the white insane in what is described as the Western District of North Carolina. Its territory is divided into 52 counties, and by the census of 1900 its population was:

Whites	779,049
Negroes	219,424
Other races	1,556
Total	1,000,029

This report deals only with the whites.

From the most reliable statistics attainable it seems that the percentage of insane to the whole population is usually from $2\frac{3}{4}$ to $3\frac{1}{2}$ per thousand, the average for the United States being about 3 per thousand. Selecting Virginia as presenting conditions most similar to ours, we find that while her population is less by 37,000 than ours, her insane are double ours. From some cause the proportion of citizens who are afflicted with this terrible malady is smaller in North Carolina than in other States, either North or South of her. With us the proportion seems not to exceed 2 per thousand. Our argument is, that if our burden is less than that of other States, so much more imperative is our duty to provide adequately for those afflicted ones, who are our fellow-citizens.

From the above statement it appears that in the Western District of North Carolina the white insane amount to 1,548 persons. At this moment we are protecting and treating in this hospital—

Males	351
Females	431
Total	782

And leaving 766 insane white people in this district unaided by the State. Further evidence of this is given by examinations of the applications for admission now on file. Of these there are those for females 240 and males 250, not one of which has been granted because of lack of room. It is plain that not all the insane have made application. How many of these unfortunates there are at this moment either in the county jails, county homes (so-called), or under some kind of restraint imposed by their relatives, it is impossible to say with certainty. Our opinion is that the number named above—766—is considerably less than the fact.

From our best information we state also, that the annual increase of insane will reach forty persons in excess of the removals by death and discharge with the present rate of increase to population. As this district increases in population, the annual increase of insanity must be greater. Therefore, the problem which is presented is clearly before us. At this moment 766 persons insane and not provided for. Each year 40 additions to these, and still no chance to admit them to the hospital. The longer we delay a solution, the more difficult the problem becomes. There seems to be but two solutions which can be suggested, to-wit, removal of part of those now being treated, or an increase in the buildings. Let each be carefully considered.

Can part of the patients now in the hospital be removed? If so, whither shall we send them? The only reply must be, "Each to his or her own county." This answer seems so natural that it is the one most commonly made. Nevertheless, we are confident that it can not be made effective for many years, if ever. If returned to counties, they will add to the burdens which are already felt heavily. If supported in a manner such as will meet the demands of humanity, the cost upon the public will be far greater, because it will manifestly cost more per capita for each county to support a small number than for the State to support a large one. Of course it is admitted that money can be saved by cruel mistreatment of these unhappy insane people, but we do not believe that such is the wish of a majority of the citizens of North Carolina.

If anyone advocates economy in expenditure at the cost of the plainest duties of humanity, we beg him to consider the following facts, which are well authenticated:

For two years a poor insane man was shut up by the authorities of one of our counties, in a cage which was so small that he could neither stand up nor lay down. We speak advisedly. The ceiling was too low for him to stand erect, and the floor too short for him to "stretch himself on it." For two long years this innocent man endured this torture. Not only so, but the cold of winter was so great that all of his toes were frozen off. We can not believe for a

moment that any man in North Carolina is willing to subject his State to the chance of a repetition of such disgrace, for the purpose of saving the few dollars necessary to support this poor man decently. The thought is terrible, that of the insane now in care of the counties of this district, some may be at this moment subjected to similar cruelty. We will not advise that others be placed where such treatment is possible.

2. Shall the capacity of our hospitals be increased? We answer yes, because it seems to us the only way in which these poor sufferers can be humanely cared for; yet, it is our duty to consider carefully our financial condition, and to see that no unnecessary expenditure be made. How this can be best accomplished will be suggested by consideration of the condition of the Western Hospital, as we found it, after as thorough and complete an examination as our time permitted.

PRESENT BUILDINGS.

These are an honor to our State. We are sure that the money used in their erection has been wisely expended. We are satisfied, and in this opinion the Superintendent concurs, that there is no need for additional buildings of so expensive character. Provisions can be made for reception of double the present number of inmates at a cost per bed much lower than that of the present buildings. To make plain our meaning, a new building now approaching completion is intended to receive 225 insane women, and its cost will be \$80,000, or for each patient \$355. While a contemplated building, which, it is hoped, can be erected for \$20,000 will accommodate 100 male patients, or for each \$200.

Still more strikingly is the possible saving shown in a new building, known as the Colony building, of which we will speak more fully hereafter. This will cost complete \$5,000, and will accommodate 30 men, an average per bed of \$166.66. We think that these figures should be the maximum that shall be paid for additions to this hospital.

We do not wish to be understood as criticising the expenditures hitherto made. On the contrary, we deem them eminently wise, and in the highest sense, truly economical. The present "plant," including land and buildings, have cost the State (including the appropriation of 1901) \$700,000 in round figures. We do not hesitate to assert that the same plant could not to-day be provided here for less than \$1,500,000, while in one of our wealthy Northern States we believe its cost would reach \$3,000,000. Manifestly there has been the utmost care, honesty and wisdom exerted by those who had in charge the State's money. Buildings of this character, although costly, were and are essential, but we think that buildings less expensive

will answer for increasing the accommodations till they suffice for more than twice the present number of patients.

THE COLONY PLAN.

The correctness of our judgment, as expressed above, can only be tested by experience. Happily this test is now being applied by the erection of one Colony building. Of this the material is brick; its location is a half mile distant from the present plant. It is provided with abundance of pure water. It will be supplied with best heating and lighting apparatus. It will be equipped with suitable and comfortable furniture, and all this, to capacity for thirty patients, it is expected will be accomplished at a cost of \$5,000. We can scarcely see how this is possible, and will not be surprised if its cost reaches \$6,000. Whatever the cost may be, it is provided for in the appropriation made by the session of 1901.

In this building it is proposed to place thirty male patients under the care of two attendants, preferably a married couple. The selection of patients will be those capable to work on the farm. The light employment will be the best possible treatment for their malady, while they will enjoy all the comforts of a home. The cost of maintenance will certainly be no greater, and, we hope, will be materially less, per capita, than it is now.

While this is admittedly an experiment in our State, we feel such confidence in its success that we recommend its being made on a larger scale. We think that five more colony buildings should be placed on different parts of the hospital lands. Estimating each to cost complete \$6,000, we advise an immediate appropriation to be made for them of \$30,000. When this is done, we believe that the very best possible provision will be made for one hundred and fifty additional male patients.

How far this kind of treatment will suit for women, we are not able now to express a decided opinion, but we think that a test may well be made by filling one of the proposed new buildings with female patients, in order that the question may be answered by results of experience, which is the only absolutely reliable authority.

It is true that the above suggestions, if it prove satisfactory, will not provide the additional room which is imperatively needed now, but we urge close adherence to that conservatism which is an honor to our State, and that further plans be left for future determination.

READJUSTMENT OF DISTRICTS.

After careful consideration we do not advise any change in the division line of the Eastern and Western Districts for the care of the insane whites.

CAPACITY OF HOSPITAL WITH PROPOSED ADDITIONS.

Above we have given our reasons for estimating that there are at this time, in this district, outside of the Hospital, of insane white 766. Of these we hope that there will be provided for during the next two years, in the

New women's building, females.....	225
New men's Building, males.....	100
New colony building, males.....	30
Proposed colony buildings.....	150 505
<hr/>	
Leaving unprovided for.....	261
B. F.	261
Adding the estimated increase for two years.....	80
<hr/>	
Total to be provided for two years hence.....	341

We admit that this is not as we would like to have it, but think it is as much as our State can do in her present financial condition, and that it is a conservative step towards making full provision in the near future.

There are a great many points to which we have given careful thought before making our suggestions. Some of these we think best to lay before your Excellency, in order that you may form a fair opinion as to the soundness of our conclusions. It is quite evident that in past years more money than was needful has unavoidably been expended, because of the inadequacy of the appropriations. In evidence of this, we remind you that the session of 1899 appropriated only \$20,000 for buildings, which, at that time, could not possibly cost less than \$100,000. This small appropriation barely sufficed to erect the foundation, which had to be covered over and remain useless until the session of 1901 wisely appropriated \$100,000. We almost feel that the small appropriation of 1899 was a loss to the State treasury. With the lower cost of building material, \$100,000, in 1899, could have accomplished as much as \$120,000 can now. With the comparatively liberal sum given in 1901, the Board of Directors have completed the building begun in 1899, have built the first colony building, have built additional dining-room, have provided boilers and boiler-house, sufficient for another similar building, and have left of that appropriation \$20,000, which they propose to apply to the new building for men. This is, indeed, a most remarkable record, proving the wisdom, fidelity and energy of the Directors and management, but we also insist that they could have accomplished still more if the whole sum had been at their disposal in 1899.

We next ask consideration to the bad effect produced upon the financial condition of our people by inadequate action on the part of the General Assembly. The large number of insane not in the hospital involves a higher per capita cost than those in the hospital, always provided they receive proper treatment (and we will not intimate that North Carolina will attempt to save money at the plainest dictates of humanity). This excess of cost must be borne either by the counties, or by the relatives of the insane person. But each county has already as many burdens as it can or should sustain. If left in charge of relatives the insane man or woman requires the constant care of some member of the family, frequently the breadwinner is obliged to devote his full time to the care of an unfortunate wife or sister or brother. The inevitable result is that the children of that family must suffer for food; little ones hungry is not a pleasant thought. We forbear to press it, and only ask consideration to the increased burden forced upon that county by this addition to its paupers.

3. We have heard it suggested that money can be saved, by each of the hospitals taking care of the criminal insane of its district. In our report on the Hospital for Criminal Insane we have expressed our views upon the wisdom of the legislation which provided for it, and only add here our conviction after further investigation that no step would be so disastrous as that which would repeal or materially alter that legislation.

It gives us pleasure to report that we find the buildings and premises of the Morganton Hospital in excellent condition.

WATER SUPPLY.

The wise foresight of the directory of past years is especially evidenced by their securing an abundant supply of pure water. The purchase of the water shed was most commendable, as thus the purity is made sure. The elevation of this above the hospital is 175 feet, and the distance from it 5 miles. The main conduit is a 6-inch cast-iron pipe, of which the theoretical delivery in 24 hours is 350,000 gallons. The estimated requirement for each patient is 200 gallons per day, so that we have enough for 1,750 patients. At the hospital there is a reservoir of 500,000 gallons capacity. Our only regret is that the reservoir and conduit are so small. Both will have to be enlarged in future years, but this is not needed at present.

HEATING.

Heat is provided by steam, direct and indirect, and by hot water systems, and all in good order and results satisfactory.

FIRE PROTECTION AND INSURANCE.

The protection against fire seems adequate, but the amount of insurance is entirely inadequate. The present policies amount only to \$10,000. The idea seems to have prevailed that the State was able to carry her own insurance, but in this view we do not concur. The cost should not be a charge upon the maintenance fund, but a special appropriation should be made to keep the State's property adequately insured. We so recommend.

INDIGENT AND NON-INDIGENT PATIENTS.

In making our examinations of the two hospitals we have given much thought to this subject. The minutes of the Board of Directors of the Western Hospital show that they have made an earnest effort to comply with the law as prescribed in Section 11, Chap. 737, Laws of 1901, and as defined by our Supreme Court, Hospital at Raleigh against Fountain. For this purpose they took rigorous measures to determine which of the patients were non-indigent. As a result, it appears that of the 782 under treatment, only 12 could be classed as able to pay the full cost of their keep, and 4 to pay a part of this cost. This proportion is so small that we withdraw our suggestions made at Raleigh, and advise that the execution of the existing law be left to the Board of Directors of each hospital, and that the law be not changed.

There seems to be a growing disposition throughout the State to urge the admission of aged insane, classed technically as dotards, into the hospitals. Their admission we deem generally inadvisable. Their cure is beyond hope. Their admission excludes an equal number who may be cured, but still worse, it fosters a disinclination among the younger generation to care for their aged parents or other relatives, which is by no means creditable to any people. For these reasons we urge the enactment of such laws as may restrain or entirely prevent it.

In our efforts to solve the problem of lack of room, we have considered carefully the question of disposing of the harmless insane. Our advice at this moment is that this should be approached with extreme caution. There seems a concurrence of opinion among experts, that it is very difficult to determine whether or not an insane person is harmless. We cite the case of a woman who was returned to her home, supposedly harmless, but soon she became so violent as to kill two of her children.

Our chief purpose in this investigation has been to discover methods by which money can be saved to our State's treasury. Very few of these have we been able to find. We submit, however, that if the law were strictly complied with, prohibiting the admission of

idiots (see Section 18, Chap. 1, Laws of 1899), there would follow a considerable saving. We find that from various causes there has not been a strict compliance with this section. So far as we are advised, no good can be accomplished by their admission. Their presence excludes others that may be cured, and adds to the expense of the institution.

The annual death rate is about 4 per cent of the whole number of patients. And of the whole number of deaths, one-fifth are caused by tuberculosis. This leads us to refer to the necessity for isolating cases of this or other contagious diseases. At present there is no possibility of such isolation, except in extreme cases, and none for tuberculosis patients. The only precaution that can be taken is to burn the mattress. This seems to us extravagant, and it should be avoided. A sterilizing apparatus can be had for about \$700 and the number of mattresses saved by its use would be worth much more than the interest on this sum. We, therefore, recommend its purchase.

We express our emphatic approval of the Training School for nurses, now conducted in this hospital. It has been in progress for two years. While receiving its advantages, the nurses give their service for \$10.00 per month, instead of \$12.50 as previously; moreover, after graduation the results are much more efficient nursing and better control of patients.

RECOVERIES.

As non-professionals we have been disposed to take the reported number of recoveries as a test of the value of an insane hospital, and of the skill displayed in its management. A further examination leads us to the conclusion that there are much fewer than the average layman expects. The concensus of professional opinion seems to be that not more than one-fourth, or even one-fifth of the insane recover. We are glad to note that in our State a larger proportion of recoveries are reported, and we hope this is reliable.

STEWARD'S DEPARTMENT.

Mr. F. M. Scroggs is the very efficient and faithful Steward of the State Hospital at Morganton. His salary is \$1,200 per annum. His only perquisite the feed of one horse.

After a careful examination of the Steward and of his books and vouchers, we gather and report the following:

The hospital consumes about 3,000 tons of coal per annum.

The Steward considers the farm in good condition and its management satisfactory.

The Steward purchases only such articles as are required in excess of those raised on the farm.

Butter costs 20 to 25 cents per pound; oleomargarine, 16 to 17. Only butter is used.

Steward sees no way in which the per capita cost of maintenance can be reduced.

State appropriation for maintenance for each of past two years has been \$100,000. At end of this term the deficit will be about \$25,000, or \$12,500 per annum; by using the Steward's fund this deficit can be reduced to \$10,000. Steward thinks this deficit attributable to higher market price of staple provisions. To sustain his view, he submits the following exhibit:

FISCAL YEAR 1899-1900.

Bought dry salt bacon, 59,023 pounds, costing \$3,515.30, or 6 cents per pound.

Bought smoked bacon, 38,943 pounds, costing \$3,001.20, or 7 cents per pound.

Bought meal, 2,139 bushels, costing \$1,182.77, or 55 cents per bushel.

FISCAL YEAR 1901-1902.

Bought dry salt bacon, 62,006 pounds, costing \$5,359.64, or 8 cents per pound.

Bought smoked bacon, 72,074 pounds, costing \$7,777.35, or 10 cents per pound.

Bought meal, 2,127 bushels, costing \$1,631.82, or 77 cents per bushel.

Involving an excess of cost in these articles bought the latter year, over what the same would have cost the former year, of \$4,932.02.

After examining this exhibit we concur in the opinion that the deficit in the maintenance fund for the past two years can be accounted for by the higher markets.

Steward suggests that money may be saved by buying bacon by car-load, but this would necessitate increased storage room, and he does not advise it.

During the 12 months from December 1, 1900, to November 30, 1901,

The cost of maintenance was.....\$110,886.19
And for 9 months from Dec. 1, 1901, to August 31, 1902.. 95,755.03

Total for 21 months.....\$206,641.22

The average number of patients during this term was 780, which gives an annual cost per capita of \$151.40.

Steward thinks that if number of patients is increased to 1,000 the annual per capita cost will be reduced to \$133.33.

The pay-roll of employees for month of August shows an expenditure of \$2,400, to which, being added salaries of officers, \$715, makes total cost of attendance per month \$3,115, and shows a per capita cost of attendance \$4.15, as compared with \$4.54 for same in Raleigh Hospital. The close similarity of these figures indicates careful economy in both institutions. The lower rate at the Western Hospital doubtless is caused by its larger number of patients. This rate may be expected still further to decrease with increase of patients. Additional attendants will be required, but the same officers will suffice.

Country beef is used, costing from 2½ to 3 cents per pound, gross.

The Steward is also responsible for receipt and disbursement of a special fund, arising from various sources, such as pay of patients, sale of old material, etc., etc. Of this his accounts and vouchers present the following:

Balance cash on hand December 1, 1900.....	\$6,012.88
Receipts to November 30, 1901, 12 months.....	3,922.77
Receipts to August 31, 1902, 9 months.....	3,655.92
<hr/>	
Total to be accounted for.....	\$13,591.57

DISBURSEMENTS.

For repairs to water conduit.....	\$2,648.52	
For stock calves.....	195.00	\$2,843.52
<hr/>		
Balance cash on hand August 31, 1902.....		\$10,748.05

This balance is by law placed at the disposal of the Board of Directors, and, we presume, will by them be applied to reduction of the deficit in the maintenance account above referred to, thereby reducing it to \$15,000.

From the Steward's books we find that this Hospital pays in freights to the Southern Railway Company about \$8,000 per annum, and yet has to pay hauling for freight from the station, a distance of one mile, about \$700 per annum. This last expenditure can be saved by laying a track to the Hospital. We have not been able to obtain an estimate of the cost of this, but do not think it could exceed \$5,000, while most likely it would be much less. We must believe that if the authorities of the Southern Railway were advised of the situation, they would agree to build this track to aid an institution

who has been, and will continue to be, so good a customer. We recommend that they be approached on this matter.

Before closing our report on the Steward's Department, we desire to express our high approval of the management of the store-room. Filled with supplies of almost endless variety, it is controlled by a young woman, Miss Talent, whose faithfulness and devotion is manifested by the perfect order and cleanliness which prevails, while an inspection of her books shows a full record of each article, however minute, when received, when issued, and number remaining each day on hand.

NEEDS OF THE HOSPITAL.

We make the following estimate of the cost of maintenance for the two fiscal years from December 1, 1902, to November 30, 1904:

For 750 patients, 12 months, to Nov. 30, 1903, @ \$133.33 each.	\$100,000
For 250 patients, 9 months to Nov. 30, 1903, @ \$100 each....	25,000
For 100 patients, 4½ months, to Nov. 30, 1903 @ \$50 each....	5,000
For 1,100 patients, 12 months, to Nov. 30, 1904, @ \$133.33 each	146,666

Total for both years.....\$276,666

Hoping that a part of this may be provided as hitherto by the special fund, we recommend an annual appropriation of \$135,000.

We also recommend a special appropriation to meet the present deficit as above set forth of \$10,000, or whatever it may be at the end of the year.

We also recommend for additional buildings as above fully explained \$30,000.

In closing our report upon the two hospitals for insane whites, which we ask to have considered together, we would respectfully ask your Excellency's consideration to a proposed change in the present method of providing for their annual support. The custom has been for each session of the General Assembly to appropriate a specific sum of money to each. It seems to us that it would be much better to levy a certain tax, "For the support of the insane," the per cent of such levy to be sufficient to produce the amount required for their maintenance, with economical management. If the taxable property shall increase proportionately with the population, the same levy will produce enough money to meet the requirements of succeeding years. The control of this special fund we suggest shall be committed to a Special Committee on Lunacy, composed of three or five members, the State Treasurer being one, and *ex officio* Chairman. The other members to be appointed by the Governor and of different political parties. This committee should be charged with the distri-

bution of this fund to the insane hospitals in proportion to the needs of each. This plan now prevails in New York, and we think its advantages are manifest.

THE STATE HOSPITAL, GOLDSBORO.

We visited this institution for the care and treatment of insane negroes on October 11th, 13th and 14th, and are pleased to report it in most satisfactory condition. At this time there are 504 patients enrolled, and 470 actually in the Hospital. Every indication was given of good management on the part of the Superintendent, Dr. J. F. Miller, and his assistant physicians and employees. The utmost economy is practiced in every department, as will appear by reference to the financial statement hereto appended, and from the further fact that of the appropriation made by the last Legislature of \$50,000 for additional buildings, only \$20,000 has been used, and expended so wisely as to meet the present urgent demands.

In discussing with the Superintendent the needs of the institution, we were glad to learn that he and his Board of Directors do not limit their admissions strictly to dangerous cases, nor to such as are curable, but receive such as are helpless, and can not, or will not, be humanely treated in their counties. All who know the pitiable condition of an insane negro, must recognize the propriety of this ruling, and rejoice that North Carolina does so liberally protect these unhappy beings. Yet, the treatment is so good, and the number discharged so great, that we did not find evidence of crowding. On the contrary, about 25 additional patients can be accommodated in the present building.

The farm, consisting of some 500 acres, we consider the best and most productive of any of our State's institutions. On it are raised large quantities of vegetables, which go far towards the support of the Hospital. For its management the Directors employ one man as farmer, at \$30 per month, and under him four paid employees, all other labor being obtained from the patients, of whom about half are able thus to be employed.

We find that at this Hospital there is one item of expense which it would seem is unnecessary, and ought to be avoided, to-wit, the hauling of all freight and supplies from the railroad. The nearest station is on the Southern Railway, only a half mile distant. A cheap track can be laid thence to the Hospital for a cost not exceeding \$2,000. Possibly this estimate may be reduced by the grading being done by the patients. It does seem that the Southern Railway authorities

will make this concession to so good a customer, if the matter be brought to their attention.

A need which is very urgent, because essential to true economy, is the installation of an ice machine and cold storage chamber. We think this can be done for about \$2,500, and that one-third of that sum is lost each year because of not having it.

We are much impressed with the need of suitable and sufficient fire escapes. At this time there are none, and a fire would surely cause a direful catastrophe. We think there should be four, of the same pattern as that now at the Hospital for Dangerous Insane, of which the cost will be about \$150 each.

The books of the Steward we found in admirable condition, clear and concise, and fully written up, so that we had little trouble in obtaining from them the following financial statement:

Appropriation for maintenance, fiscal year 1901.....	\$47,500.00
Appropriation for maintenance, fiscal year 1902.....	\$50,000.00
Total	\$97,500.00

Of the above there has been expended by vouchers paid by State Treasurer between December 1, 1900, and September 30, 1902—

For salaries for 21 months.....	\$25,972.21
For maintenance for 21 months.....	64,448.99
For interest on money borrowed and for completing new building	2,332.76
For deficit of November 30, 1900.....	1,124.50
	\$93,878.46
Balance in hands of State Treasurer.....	3,621.54
	\$97,500.00

We further find that the Steward has in his hands a fund derived from sale of vegetables, old material, etc., of which the following is a statement:

Balance cash on hand December 1, 1900.....	\$114.10
Received from all sources, up to September 30, 1902.....	3,194.29
Total	3,308.39
Expended for all purposes, chiefly on farm account, to Sep- tember 30, 1902.....	2,940.67
Balance cash on hand.....	\$367.72

From the above statement we make the following deductions: The amount paid out for salaries for 21 months being \$25,972.21, and the average number of patients actually under treatment being 470, gives a per capita cost of attendance per month of \$2.63, to be compared with same at Raleigh \$...., and at Morganton \$....

The amount expended for attendance and maintenance being \$90,421.20 for 21 months, gives a per capita cost for 470 patients per month \$9.16, or per annum \$109.92.

Adopting the same per capita of \$9.16 per month as likely to prevail for the three remaining months of this fiscal year, the cost of maintenance and attendance for that period will be \$12,915.60, from which, deducting balance in Treasurer's hands, \$3,621.54, and amount in Steward's hands, \$367.72, total \$3,989.26, leaves a probable deficit of \$8,926.34.

In justice to the Hospital it should be remembered that of the maintenance appropriation there has been expended on account of new building, as shown above, \$2,332.76, and for deficit of December 1, 1900, \$1,124.50. Total, \$3,457.26.

If this amount were in the State treasury, as it should be, to the credit of this Hospital, the anticipated deficit of November 30, 1902, would be reduced to \$5,469.08, which was unavoidable, even with most strict economy, in view of the greatly increased price of all staple provisions.

Estimating that the probable number of patients under treatment during the next two years will be 500, and that the continued rise in prices will increase the per capita cost to \$120, we advise an appropriation for maintenance of \$60,000 per annum. We are quite sure that the same economical management will continue, and if any of this appropriation can possibly be saved it will remain in the State treasury. On the other hand, it is most unwise to make an insufficient appropriation and then to enact that an institution shall not incur debt. Every thoughtful person must admit that when an institution is charged with certain duties, and faced with a rapidly rising market of provisions essential to its existence, it is entirely impossible always to avoid debt. To forbid its being incurred, is to command the impossible. The enactment of such statute only tends to promote disrespect for all law. This Board of Directors and Superintendent certainly deserve our fullest confidence. We should trust them entirely and not try to hamper them by a law which it may be impossible for them to obey.

The other needs of this Hospital we have already referred to.

STATE HOSPITAL FOR DANGEROUS INSANE.

(For Act of incorporation, specifying fully purposes, powers, duties and responsibilities, see Chapter 755, Laws of 1901, which seems to be in part amendatory of Chapter 16, same session.)

A full and careful examination of this institution (the State Hospital for Dangerous Insane) was made by us on August 25, 1902. Its location is in the west wing of the State's Prison building, and its management is in the hands of the Board of Directors of the State's Prison. We first examined the books and accounts in the office of the Clerk, T. M. Arrington, and found them in satisfactory condition. The system of bookkeeping is so plain and simple that with very little labor we obtained the following facts:

An annual appropriation is made from the State treasury for the support of the institution of \$5,000. (See Section 7, Chap. 755, Laws 1901.) Of this on May 31, 1901, at which date the present management took charge, there remained on hand of the appropriation for the fiscal year 1901.....	\$2,393.11
And during that fiscal year there was received for sale of old iron, and turned into the State treasury.....	110.07
During the same year there was also received from the State treasury, as provided by Section 2, Chap. 16, Laws 1901	700.00
Making total at disposal of Directors.....	\$3,203.18

Which sum was applicable to the maintenance of the institution for the remaining seven months of that fiscal year, and was expended as follows, as shown fully on the Clerk's books and sustained by vouchers:

Expended for maintenance.....	\$2,909.30
Expended for repairs and improvements to buildings.....	293.88
Total	\$3,203.18

In the above item for maintenance is included—

Salary of Clerk, 7 months, at \$200 per annum.....	\$116.66
Salary of physician, 7 months, at \$400 per annum.....	233.34

In addition to the annual appropriation of \$5,000 for maintenance, the General Assembly, in Section 7, Chap. 755, Laws 1901, appropriated the sum of \$3,000, "For the purposes of carrying this Act into effect," which the Directors, correctly, as we think, construed to authorize the expenditure of that sum in making necessary alterations

and improvements in the portion of the State's Prison set apart as a Hospital for the Dangerous Insane and adapting it to the purposes of a hospital. In this way the whole sum has been wisely expended, under the advice of the three Superintendents of the insane hospitals of our State. The amount appropriated, however, was not sufficient to accomplish fully the changes proposed, which necessitated the use of \$293.88 of the maintenance fund, as shown above. Still there remains not completed a considerable part of the proposed improvements, estimated to cost the further sum of \$3,000, which, in our opinion, will be a wise expenditure to be made at a future day, but not required immediately.

During the term of eight months of the present fiscal year, extending from December 1, 1901, to July 31, 1902, there has been expended of the annual appropriation—

For maintenance.....	\$2,983.12
And for capture and return of an escaped insane man.....	24.36
<hr/>	
Total	\$3,007.47

Leaving in the State treasury a balance of \$1,992.53 for the maintenance of this institution for the remaining four months of this fiscal year, which we consider sufficient. We note with pleasure that no debt exists, but that every expense is fully paid to July 31, 1902.

The present number of patients is 41, which we understand to be the average number during the term covered by the above statements, which gives as per capita cost per annum \$114.98.

A careful examination of the premises caused us pleasure that they were found in excellent condition, and so far as we could see the management of the inmates was humane and kindly, and at the same time calculated to maintain discipline.

RECOMMENDATIONS.

We can not suggest any improvement upon the existing arrangement, which seems to us the best possible to be made for that most unfortunate class of people, who, with criminal tendency, have not the mind either to control it or to render them responsible for their acts.

We do not advise any further expenditure to be made in improvement of the buildings at this time.

We advise that no change be made in existing legislation, beyond what may in your Excellency's opinion be needed to make it effective, to the full protection of every community and person, against the violence of the insane.

OXFORD ORPHAN ASYLUM.

For this, the most beautiful of her charitable institutions, North Carolina is indebted to the Masonic fraternity; the conception was theirs, the first steps were taken by them; the property, so beautiful in every feature, is provided by them; a large part of its cost of maintenance is annually given by them, and very properly its chief management is left in their hands. The State has for some years past contributed \$10,000 towards its support, which gave us the right and pleasure to visit it.

Having gone through its every department, we report that the institution is thoroughly satisfactory, and its perfect neatness, its quiet order, its manifestation of the strictest economy can not fail to delight any tax-payer, that he has the privilege of investing his money in an enterprise so well conducted.

It is right that we should first consider the monetary results. Some of our people are often apt to under-estimate, or even overlook these entirely; to such persons we appeal that they will candidly consider the difference to the State's treasury caused by one boy or girl, grown to be an honest, industrious man or woman, the head of a family of honest children, contributing for all years to come to the State's wealth, good name and prosperity, and the same boy or girl adding another to that criminal class, sadly too large already, bringing disgrace to North Carolina, costing thousands of dollars for arrest, trial, conviction, and perchance execution; not only so, but leaving a progeny inheriting the same criminal tendencies. We unhesitatingly assert that any fair-minded person who will give thought to these things, must admit that the difference to our State in dollars and cents is beyond estimate. Yet, it must be admitted that a little child deprived of its natural parents, suffering the pangs of hunger and cold, is most likely to grow to be a man or woman of the second class, while if the same child be protected in its infancy, be trained to habits of industry, be educated along lines calculated to suit its future condition, the chances are largely in favor of that child belonging to the first class.

In this institution we see exactly this being done, not with one child, but with a large number; two hundred and forty little girls and boys now make up this charming family. Looking into their bright young faces, we feel ashamed to give a moment's thought to the financial side of the question. We picture them as they would be if we had not this asylum, sad, sorrowful, unchildlike, with features pinched with hunger and cold, with souls filled with a sense of the injustice of their fellow-man. Alas, the picture is too sad to at-

tempt its further portrayal; happily we can turn to the reality—boys racing and romping over the grounds as boys should, then working as boys should as little farmers, carpenters, shoe-makers. Girls neatly dressed, with bright faces and sparkling eyes, educated by actual experience to be seamstresses, to wash and iron, to cook, and do all other household duties. Both boys and girls assembled in chapel, not to brood over the cruel neglect which they have suffered, but to praise the everlasting Father, who, in their poverty, has cared for them, and raised up for their protection the Orphan's Friend.

As this fine property has cost our State treasury nothing, we might have hesitated to enter upon its examination, had we not been urged to do so by the Superintendent. The result of our inspection is to report that not one cent has been spent needlessly; that the best possible ends have been accomplished that were attainable with the money at the disposal of the Directors; that improvements are now in process, which will add to the convenience and economy of the administration, and every building is kept in perfect order.

NEEDS.

Of these it is necessary to speak: We heard no complaints. We do not know whether there remains in North Carolina a white child who is destitute; if there be such a one, then the imperative need of our State is to provide this institution with the means to protect that child. At present it seems to us that everyone is here that can be admitted without increase of income. The per capita cost, including lodging, food, clothing, nursing, education, and all other requisites, is only \$95.00 for twelve months, of which the State provides less than half. We can not possibly expect or wish it to be less. We can, therefore, only recommend that the present appropriation be permanently continued, and that additions to it be made from time to time, as the demand may arise.

The following is the financial statement, which we condense, from the admirably kept books of the Treasurer:

OXFORD ORPHAN ASYLUM.

Financial statement, from December 1, 1900, to August 31, 1902:

December 1, 1902, balance cash on hand, as per printed report	\$2,959.31
Received from State Treasurer, 2 annual appropriations..	20,000.00
Grand Lodge, 2 annual appropriations—	
\$3,000 and \$2,500.....	5,500.00
Contributions by lodges.....	4,114.39
Contributions, general.....	2,590.19

Received from proceeds of singing class.....	\$6,082.79
Rent of property.....	722.88
Printing office, net earnings.....	1,207.09
Boys' labor in furniture factory.....	1,086.38
	<hr/>
	\$44,263.03

Fuel	1,688.66	
School	4,950.43	
Repairs	300.20	
Machine shop	2,845.84	31,241.11
	<hr/>	
Balance		\$3,711.16

THE COLORED ORPHAN ASYLUM OF NORTH CAROLINA.

This institution is located about two miles from the town of Oxford. Its Superintendent is R. Shepherd, who is a typical specimen of the negro of the older generation, a class of people now rapidly diminishing in number. Of his practical common sense and strict honesty and of his intense devotion to his work we have not the least doubt. Although our visit was not expected, we found everything in good order, extreme cleanliness and utmost economy manifested on all sides.

There are now in the asylum one hundred and fifteen children, varying in age from four to ten years. They all seem healthy, well clothed, happy and respectful. A farm of one hundred acres is worked chiefly by the larger boys and girls, providing much of the food and a considerable amount of cotton for sale. A school is maintained in which is taught such things as are adapted to the situation which the scholars would hereafter occupy.

To this excellent charity our State has for some time past appropriated \$5,000 per annum, which, under the most frugal management, not being sufficient for its support, the last session of the General Assembly properly appropriated \$1,600 to pay the debt incurred

up to that time. From the following financial statement it appears that heroic efforts have been made to keep within resources, the per capita cost per annum of food, clothing and teaching and all incidentals has been \$49.40. On being asked by us if he needed any more money, the Superintendent replied, "Not for the present number of children, but I can't support them any cheaper, and I have many applications for admission of poor helpless orphans, which I am obliged to deny, and this does hurt me, indeed."

We recommend continuance of present appropriation with such increase as the condition of the State treasury will warrant.

Financial statement for term of twenty months, beginning December 1, 1901, and ending September 1, 1902:

RECEIPTS.

From State Treasurer, regular appropriation.....	\$8,750.00
State Treasurer, special appropriation.....	1,600.00
Grand Lodge of Masons.....	234.00
Personal contributions.....	955.96
Sale of produce.....	657.65
Money borrowed for current expenses.....	1,502.40
Total	<u>\$13,700.01*</u>

DISBURSEMENTS.

Salaries and wages.....	\$3,586.88	
On purchase of land.....	324.36	
Maintenance	6,079.41	
Repairs to buildings.....	678.25	
Farm, seed, labor, etc.	1,452.86	
Insurance	50.50	
Current debts	1,502.40	
Interest	125.26	13,799.92
Balance due to Superintendent.....		<u>\$99.91</u>

DEAF AND DUMB SCHOOL, MORGANTON.

September 18, 19, 21, 22 were devoted to an examination of this institution, and our findings are as follows:

In the establishment of this school, and in the liberal appropriations made to it our General Assembly has given proof of that high patriotism, that true philanthropy, and conservative business economy which has characterized our State in the past, and we doubt not will continue to be its distinctive characteristic in future.

In the selection of a site and the adoption of architectural plans the highest wisdom is manifested. The location embraces the advantages of easy access, beautiful scenery, and ideal healthfulness. The architect has striven to supplement these natural advantages by designing buildings perfectly in accord with their location and surroundings, affording ample light and ventilation, and giving such conveniences as tend to the most thorough and complete administration, at the lowest expenditure of money.

TEACHERS.

We find that the corps of teachers is one of admirable efficiency, well instructed and experienced in the latest and most improved methods of their profession. Their interest in their scholars is entirely absorbing. Of their success we can not doubt, after the most interesting visit to the several class-rooms. These classes are divided between the oral and the manual departments, over each of which there is a competent supervisor. As it is the most new to us, and most startling in its accomplishments, we refer first to the oral department.

Deaf and dumb children are as diversified in natural ability as those who have their full faculties—neither more nor less so. Some of them have ability to acquire a higher degree of education than others; some are qualified to be taught to speak and to understand the motion of the lips of those who speak to them, and others are not so qualified. Moreover this ability is developed in some to a higher degree than in others. Consequently, it is unreasonable to expect like results to follow in case of every child. These results may be expected to be as varied as are the degrees of mental ability, natural disposition, and physical infirmity in the whole number of children taught. Because a portion are admittedly unable to be improved by oral teaching is no reason why its great and manifest advantages should not be extended to those who are so.

The first step is to decide in case of each child which system of teaching is best adapted to him. This can only be determined by

careful trial. At the time of our visit, the session having opened only a fortnight previous, this testing of capacity was still going on; nevertheless, the proficiency of some of the children in lip-reading and in speaking was most astonishing.

THE MANUAL DEPARTMENT.

This department gave also evidence of both skill and devotion on the part of teachers and supervisor. The results were the bright and happy faces of children freed from the gloom of total deafness and inability to express the slightest thought to their companions. The value of this alone is beyond estimate. Those of us who are blessed with faculty of hearing can scarce appreciate the dense darkness which must shut in the mind of a totally deaf person. To see two hundred children happily talking to their fellows, by nimble use of their fingers, is a sight to repay the tax-payers for all the money needed for its accomplishment. Among other acquirements we were especially impressed with the fine handwriting of these children. Very rarely have we seen any to approach it in distinctness and beauty.

INDUSTRIAL DEPARTMENT.

The fact is not ignored that the prime object of this school is to enable the students to gain an honest livelihood, and each to maintain his or her place in the race for life; hence, the industrial training is given special prominence. Classes of boys are taught shoe-making, carpentry, and the various branches of farming. A smaller number are also taught printing, while the girls are trained in sewing, cooking, house-keeping, and others things suited to their sex.

THE ART DEPARTMENT.

We were much impressed with the exhibit of drawings, paintings and other works of art, which gave assurance that at least as large a proportion of mutes might become accomplished artists as of any other class of children. Where this talent is found it certainly should be cultivated to the full. We earnestly recommend a re-establishment of this department.

DESCRIPTION OF PROPERTY.

The site embraces somewhat more than 300 acres, of which 190 are in cultivation. Through these lands the Southern Railway passes, and its station of Morganton is in close proximity. When purchased some seven years ago, the surface was, in a great measure, covered with dense undergrowth, which has been cleared away and given place to a fine lawn. The only building at that time was an old brick residence, by no means suited to the purposes of the institution.

The principal dormitory and dining hall are now in a most admirably designed and well built house, so situated as to overlook most of the lands.

Near by, but far enough removed to secure fire protection, is the school-house proper, also excellently planned and substantially built; also, at convenient distance is the boiler and machinery house, the Industrial School, the store-room, the ice and cold storage plant. The whole representing a wise and economical expenditure of about \$185,000. The furniture and equipment, while modest in style, and in good taste, is substantial and well adapted to its purpose.

THE FARM.

This department is supplied with tools and implements of most recent and improved make, with a herd of fine milk cattle, four mules and one horse, and a stock of hogs of high breed. At its head is a skillful farmer, and part of its work is performed by the school boys. In its results we judge it to be fully self-supporting. Our only criticism is that in the annual reports made to the Board of Directors, the farmer states, at a fair cash value, all of the products, both those fed to cattle and hogs, and the produce of milk and bacon thus obtained, thus, doubtless unintentionally, making an unfair aggregate of products. By this statement this aggregate is about \$6,594, which, being reduced as above indicated, leaves as a conservative estimate of the actual products \$3,976, against which should be charged the annual cost of \$3,000, still leaving a reasonable profit, and sustaining our opinion that it is self-supporting. While we gladly report this satisfactory condition, the most important results are the boys trained in agriculture, and thus made able both to support themselves and to introduce improvements at their homes.

THE SHOE-MAKING DEPARTMENT.

This is also of great educational value, and, as we are informed, is also self-supporting.

THE MACHINERY

Is under the constant care of a competent and faithful engineer, and seemed in good condition, and working satisfactorily.

MATRON'S DEPARTMENT.

The general housekeeping is in charge of the very efficient matron, assisted by a supervisor of boys and one of girls. We are satisfied that these ladies are faithful in the performance of every detail of their positions, and that by their efforts the amount of money devoted to this department produces the best results possible.

THE WATER SUPPLY.

Is obtained from five driven wells, and seems to be abundant, while its purity is established by frequent analysis. A steam pump raises the water to the reservoir, of which the capacity is 125,000 gallons, and thence to a tank on top of the building.

FINANCIAL STATEMENT.

The Steward of the institution is Mr. Geo. L. Phifer, who gave us every aid and facility in the examination of his books and office. His accounts having been checked up by the Executive Committee to a recent date, we examined the vouchers of payments made subsequently, and find the following results for the two past years:

Balance due for maintenance, November 30, 1900.....	\$2,964.09	
Expended for all purposes, including both maintenance and buildings, to September 15, 1902.....	91,119.97	
Total		\$94,084.06
Received from State Treasurer for building and water-works	\$7,000.00	
From appropriation for maintenance.....	73,000.00	
From Steward's special funds.....	9,113.28	89,113.28
Balance unpaid to September 15, 1902.....		\$4,970.78
Estimated cost of maintenance 2½ months, to November 30, 1902.....		10,500.00
		<hr/> \$15,470.78

The money available to meet this is—

In hands of State Treasurer.....	\$7,005.23	
In hands of Steward.....	2,887.00	9,892.23
Indicating a deficit on November 30, 1902, of..		<hr/> \$5,578.55

STEWARD'S SPECIAL FUND.

Balance cash on hand December 1, 1900.....	\$2,637.84	
Received from sales of personal property.....	9,367.67	
		<hr/> \$12,005.51
Paid to State Treasurer.....	9,118.51	
Balance on hand, as above.....	\$2,887.00	

We regret that separate accounts have not been kept of expenditures made on buildings and those made strictly for maintenance.

Our information is that of the aggregate, as shown above, to-wit, \$91,119.97, there was expended on additions to main building about \$10,000.00, and on reconstruction of old residence, \$2,500. Total, \$12,500.00, of which was provided by special appropriation, session 1901, \$7,000.00, showing that there has been expended for these purposes from the maintenance appropriation \$5,500.00, which, being about the same as the estimated deficit indicates, that the appropriation made for maintenance and the Steward's special fund, are sufficient for that purpose, if it be applied strictly to it alone.

We do not think that the expenditures stated above as made for buildings were entirely justified. The General Assembly appropriated \$7,000.00 for additions to main building and for water-works. This work having been done with all economy, yet cost about \$10,000.00, we think that the Board of Directors were justified in taking from the Steward's special fund, which, by law, is at their disposal, the amount (\$3,000.00) required to complete this work, but that they were not justified in undertaking the reconstruction of the old brick residence, costing up to this time \$2,500, which the General Assembly had not authorized, and when it was evident that the institution would be in debt at the close of the year. Moreover, we express the opinion that the expenditure upon this old residence was unnecessary. There was abundance of room for the comfortable housing of the Superintendent, teachers and scholars, and there is no need for any more at present.

We think that confusion may be avoided by treating the Steward's special fund in same way as in the other institutions which we have examined, instead of requiring that officer to send it to the State Treasurer to be paid out by him on vouchers from the institution. We recommend the passage of an Act providing that all moneys coming into the hands of the Steward of this institution, from any source, other than the sale of real estate, shall be held by him and applied under the direction of the Executive Committee to make good any deficit that may each year exist in the maintenance account, and the surplus, if any there be, shall then be turned over to the State Treasurer.

SALARIES.

The pay-roll which we have in hand shows an aggregate of salaries to officers and teachers of \$16,875.00 per annum, which, being divided by 240, which we understand is about the average attendance of students, gives per capita cost for teaching and attendance for nine months of \$70.30. We have no means of deciding whether this is excessive or not, and submit it for comparison with similar institutions in other States.

TOTAL PER CAPITA COST.

So far as we can judge from the financial statement set forth above, the maintenance of this institution for each of the past two years has been \$48,000.00, which, for 240 children, gives a per capita for all purposes of \$200.00 for the school term of nine months. For comparison with this we submit the following from other States, which we are enabled to do by the kind aid of Superintendent Goodwin:

Tennessee—white and colored—per capita.....	\$165.00
Georgia—white and colored—per capita.....	169.00
Alabama—white and colored—per capita.....	230.00
Kentucky—white and colored—per capita.....	180.75
Virginia—white deaf, dumb and blind—per capita.....	188.00

Among the many advantages enjoyed by the Morganton D. and D. School, not the least is its Superintendent. Professor Goodwin is a man of exceptional ability and possessed of great skill in his profession. As it is our duty to point out the needs of this institution, we name as the first of these that it should reap the full advantage of the great technical knowledge and experience of its Superintendent, and not detract from it by imposing on him duties which others can more appropriately perform. We consider it entirely wrong, both unjust to him and embarrassing to the Board of Directors, that the Superintendent should be *ex officio* their Secretary. Therefore, we urge the immediate repeal of the clause in Chapter 299, Sec., of 1891, which makes that provision.

Second. For the reasons already given we think that the Superintendent should not be laden with the responsibility of recommending all officers, teachers and employees for election by Board of Directors. This is detrimental in that it causes a division of responsibility. The whole weight of the business management should rest upon the Board of Directors. For this end they should have full right to appoint or remove any employee. Doubtless they will be, and should be influenced by the advice of the Superintendent, but we insist that the law should not relieve them of responsibility and place it upon him. We therefore urge the repeal of so much of Chapter 131, Laws 1893, as makes this provision.

After our examination we express the opinion that this institution will need, and should have for the next two years, an annual appropriation for maintenance of \$40,000. That it needs no further appropriation by the next session of the General Assembly for either buildings or grounds. That its most urgent need is that the Board of Directors should fully realize the responsibilities of their position, and each determine to be indeed a Director.

THE N. C. INSTITUTION FOR THE DEAF AND DUMB AND THE BLIND.

This beautiful charity is situated in Raleigh, and its purpose is the protection of blind white children, and colored deaf and dumb, and also colored blind. At this time it has white blind girls 70, and boys 90. Total white, 160. Colored blind girls, 43, and boys 33; and colored deaf and dumb girls, 43, and boys, 54. Total colored, 173. The two races are housed in comfortable, well-designed buildings, in different sections of the city, but both under the same superintendence and general management. The supreme control is vested in a Board of Directors, almost all of whom live in the vicinity, and who seem both interested and efficient; consequently every department of their institution is in a condition highly creditable.

The buildings for the whites are centrally located, only a short distance from the State House, and are ample in size and attractive in architecture. Those most recently erected give evidence of great economy and practical care and judgment having been given them. The State's money appropriated to these has surely been well expended. The grounds are attractively laid out and kept in good order. Altogether, this is the one institution of our State which we really think has no urgent needs. The room already provided is ample for double the present number of inmates and this is more than we have of these afflicted ones in this State. In fact, we learn from the Superintendent that at this time there are not more than 150 of both races in North Carolina outside this institution, which fact places our State in the first rank, as having made most liberal provision for the care and education of these classes of children. It would certainly seem that under these conditions every such child should be here, but we learn that there are several instances of parents selfishly keeping their children at home, in order thus to draw a small monthly allowance from their county. We urge the passage of an Act making it unlawful for County Commissioners to make any such allowance.

We are glad, also, to speak in terms of high commendation of the colored portion of the institution. These buildings are also well designed and ample, and we have seldom seen the perfection of neatness more nearly attained than in them. The same lines of instruction are followed for the blind, effort being made to endow each with ability to perform remunerative employment. While this is especially difficult of accomplishment with the blind, we were much pleased to see the proficiency of a portion of the scholars. The blind girls doing plain sewing and beautiful worsted and bead work,

and the boys making brooms, mattresses and chair bottoms. It is not so difficult to find employment for the mutes, and we found these colored boys and girls taught the same employments as the whites in their institution at Morganton.

Our close examination of Steward's books showed them thoroughly written up and kept in manner concise and plain. From them we draw the following financial statement for the N. C. Institution for Deaf and Dumb and the Blind:

FINANCIAL STATEMENT FROM DECEMBER 1, 1900, TO SEPTEMBER 30, 1902.

December 1, 1900, balance cash on hand.....	\$62.37
Two annual appropriations for maintenance	110,000.00
One special appropriation for library.....	100.00
One special appropriation for building.....	10,000.00
From counties for clothing of pupils.....	7,204.68
From earnings of institution.....	3,260.21
	<hr/>
	\$130,627.26

DISBURSEMENTS.

For salaries of officers.....	\$44,156.47
Servants' wages	4,762.16
Maintenance	52,918.62
Clothing	8,506.58
New building	4,500.45
Plumbing old building.....	694.00
Gymnasium	571.49
Water supply	3,208.34
City street assessment	133.00
Library	98.18
	<hr/>
	\$119,549.29

Balance on hand of State Treasurer September 30, 1902... 11,077.97

\$130,627.26

From the above we conclude that the amount expended during 22 months of salaries and wages has been \$48,919.63, which, being divided by 300, the average number of children for same period gives to each \$163.06 as cost for attendance, and as they were only present for 18 months of this time the expense per capita per month will be \$9.06, which to us non-professionals seems a high average. We submit, however, in forming an opinion, it should be compared with other similar institutions.

The permanent annual appropriation for maintenance of this in-

stitution is fixed at \$40,000, by Chapter 224, Laws of 1893. To this the General Assembly has made additions, of which the last, enacted in 1901, was \$15,000. Therefore, dividing the sum appropriated for maintenance each of the two past years, to-wit, \$55,000 by 300 as the average number of its beneficiaries, gives a per capita cost of \$183.33, which is lower than any Southern State, except South Carolina.

The cost of the same service elsewhere has been: In Virginia, \$206; Alabama, \$230; Kansas, \$232.50; Texas, \$240; Kentucky, \$247; Mississippi, \$281; Colorado, \$290; Maryland, \$300.

The amount remaining in hands of State Treasurer on September 30th is about enough to meet the expenses of September and October, leaving those incurred in November to be paid from the appropriation of the next fiscal year. This can be explained by the increased number of students, and by the higher market price of provisions.

It seems to us, therefore, that although there are now over sixty pupils in excess of those two years ago, and a prospect of still further additions, that by economical management a special annual appropriation of \$20,000, in addition to the permanent one of \$40,000, will be ample for maintenance, for each of the next two years.

As we have stated above, we think that there is here abundant room already provided for every blind child of both races, and for every colored deaf and dumb child in our State. Therefore, we recommend no further appropriation for buildings. That there is room for some improvements we do not doubt, but in the present condition of the State treasury, we do not advise that any be made, except such as the Board of Health may require on grounds of sanitation. These, of course, should be promptly made.

We recommend that the Board of Directors be authorized to sell the hundred acres of land now used as a farm by this school and to appropriate the proceeds to purchase of other land more suited to their purposes.

THE NORTH CAROLINA AGRICULTURAL SOCIETY.

We have, on this the 23d day of August, 1902, made examination of the office and accounts of the North Carolina Agricultural Society and submit the following as our report:

LEGISLATIVE ENACTMENTS.

The record of incorporation will be found in The Code, Sec. 2214 *et seq.*, where the purposes, powers and limitations of the Society are clearly defined. There seems to have been made three enactments amendatory of the original incorporation, of which only one seems important to be referred to in this report, to-wit, Chapter 209, Laws of 1891, in these words:

"Section 1. That all games of chance, wheels of fortune and gambling of all species, at any fair, are hereby forbidden."

Our reason for quoting this section is, that we are informed upon what appears to us to be reliable authority, that this law of our State was violated at the last fair of this Society.

We have carefully examined the annual statements of the Society, which show its financial transactions for the past two years. These statements have been duly examined and audited by the Society's Auditing Committee, and from them we gather the following facts:

On February 1, 1900, the cash balance on hand was.....	\$1,391.92
During the following year there was received from the	
State Treasurer.....	1,500.00
Received from the Agricultural Department.....	1,500.00
Received from other sources.....	11,624.56
<hr/>	
Total	\$16,016.48

DISBURSEMENTS.

Salary paid to C. B. Denson, Treasurer.....	\$600.00	
Salary paid to J. E. Pogue, Secretary.....	600.00	
Salary paid to other parties.....	260.00	
Interest on bonded debt.....	4,104.00	
Expended for other purposes.....	8,141.12	13,705.12
<hr/>		
Leaving balance cash on hand.....		\$2,311.36

On April 1, 1901, there was balance cash on hand as above \$2,311.36
 During the following year there was received from the

State Treasurer	1,500.00
Received from the Agricultural Department.....	1,500.00
Received from other sources.....	13,367.68

Total	\$18,689.04
-------------	-------------

DISBURSEMENTS.

Salary paid to C. B. Denson, Treasurer.....	\$600.00	
Salary paid to J. E. Pogue, Secretary.....	600.00	
Salary paid to other parties.....	270.00	
Honorarium, paid to C. B. Denson, Treasurer...	200.00	
Honorarium, paid to J. E. Pogue, Secretary....	200.00	
Clerical service, paid to other parties.....	247.75	
Carriage hire, etc., paid to J. H. Robbins.....	150.00	
Interest on bonded debt.....	4,787.00	
Expended for other purposes.....	9,772.64	16,827.39

Leaving balance cash on hand April 1, 1902....	\$1,875.55
--	------------

In explanation of the above we ask attention—

1. To the disbursements indicated by the words, "For other purposes," amounting for the two years to \$17,913.76, which is composed of amounts paid for premiums, and for legitimate expenses attending the two annual fairs, but of which the items are too numerous to be appropriately given in detail here.

2. To the payment of interest on the debt of the Society, amounting in the two years to \$8,991.00, and we congratulate the Society in having been able to pay so large a sum, discharging all interest obligations to January 1, 1901. We learn from the Treasurer that these payments represent an accumulation of interest, which the Society had been unable to pay for four years prior to January 1, 1901. There seems good reason to hope that the receipts of the present year will suffice to pay the interest which will accrue to January 1, 1903.

Our recommendations will follow reports on agricultural associations.

THE CENTRAL CAROLINA FAIR ASSOCIATION.

The offices and grounds of this institution are located at Greensboro, N. C. It was organized July, 1900. The Treasurer's books give the following statement of receipts and disbursements from its organization to September 25, 1902, at which latter date the Board of Examiners made their investigation:

RECEIPTS.

From stock subscriptions.....	\$6,950.00
From admissions, entrances, advertising, etc...	10,468.69
From State Treasurer, appropriation for 2 years	100.00
	<hr/> \$17,518.69

DISBURSEMENTS.

For purchase of land.....	\$1,600.00	
Buildings	7,660.00	
Improvements	2,390.00	
Premiums	5,995.30	
Salary two years, manager only.....	850.00	
Miscellaneous purposes.....	1,538.98	\$20,034.28
	<hr/>	
Excess of disbursements over receipts.....		\$2,515.59

N. B.—This excess represents money borrowed personally to complete buildings, \$2,500.00, and overdraft due to Treasurer, \$15.59.

An inspection of the fair grounds and buildings convinces us that the former have been most wisely selected; the location affording great facility of access, and admirable adaptation to the purposes intended. The latter give evidence of most wise and economical expenditure of money. As is shown by the foregoing financial statement, the real estate has cost \$11,650.00, and that there has been paid out in premiums and miscellaneous expenses of two annual fairs \$7,534.28, and for salaries for two years only \$850.00, there being only one paid official. Of the total expenditures, aggregating \$20,034.28, only \$100.00 has been received from the State treasury.

Convinced as we are that fair associations, if conducted as this one has been, are of great advantage to our people, we sincerely hope that your Excellency will join us in recommending that it receive greater aid. The promotion of our agricultural interests are of vital importance to the well-being of our people.

These can be best promoted by encouraging a generous rivalry among our farmers, by making annual exhibits of the best results at-

tained, by inducing entrances of articles and attendance of people, by a liberality of premiums to be fairly awarded to the successful competitor. All of these influences have been exerted here, almost entirely by the public spirit and energy of the business men of this community. This fact is sufficient to warrant the recommendations, which we will make in closing our reports on the institutions of this class.

FORSYTH AGRICULTURAL SOCIETY.

The purposes of this institution are to advance the planting interests primarily in its own county, and, secondarily, throughout North Carolina. This it accomplishes by holding in the city of Winston-Salem an annual fair, which, we are informed, is well attended and productive of much good. Its business offices are in Winston, where its Secretary lives. His accounts show the following figures for the past three years, which is the age of the Society:

RECEIPTS.

From State treasury, three annual appropriations.....	\$150.00
Gate receipts	7,125.00
Entry fees	1,370.00
Shows	125.00
Total	\$9,170.00

DISBURSEMENTS.

Cash premiums	\$1,820.00
Cash purses	5,075.00
Cash expenses	1,505.00
Cash on hand	\$770.00

Recommendations follow reports of this class.

ALAMANCE FAIR ASSOCIATION.

We have been unable to meet the Secretary of this institution; nor have we succeeded in obtaining any financial statement. Our information is that it is doing a good work; that it holds annual fairs for the county, which are quite creditable, and thus arousing general interest in agricultural and mechanical pursuits.

This institution receives annually from the State Treasurer fifty dollars.

Recommendations follow reports of this class.

THE CUMBERLAND COUNTY AGRICULTURAL SOCIETY.

The fortieth annual fair of this Society was being held at the time of our visit. We learn that in the whole of this period there has been no interruption, which, in some degree, accounts for the very creditable exhibit of county products, and the gratifying manifestation of interest.

We find that the association owns its fair grounds, which, covering some twenty acres, are pleasantly situated in the suburbs of the city of Fayetteville.

We find that the annual appropriation here is only \$50.

We submit the following letter from the managers of this institution:

"FAYETTEVILLE, N. C., November 10, 1902.

"To the Honorable Board of Examiners of Public Institutions.

"GENTLEMEN:—We respectfully submit the following reasons why we should receive a larger appropriation for our Fair Association:

"The Cumberland County Agricultural Society has just closed its fortieth annual fair.

"We own the fair grounds property, worth now for building and manufacturing purposes at least five thousand dollars; we are out of debt (except what will be paid soon); that we have received no help from the State, except fifty dollars annually for the last six years; that we have in contemplation the organization of a District Fair Association, composed of all the adjacent counties, viz.: Moore, Harnett, Sampson, Bladen, Robeson and Scotland, which, with Cumberland, will make seven counties, with one Director chosen from each county.

"This section of our State is rapidly increasing in agricultural productions, and especially in the trucking business. We can, with sufficient help from the State, say not less than five thousand dollars per annum, build up a large and prosperous fair, and be able to pay larger premiums on agricultural exhibits, which will stimulate our farmers to make larger and better crops.

"All of which is respectfully submitted for the consideration of your honorable Board.

"Respectfully,

G. W. LAWRENCE,

"Secretary and Treasurer."

Financial statement of the Cumberland County Agricultural Society, from January 1, 1901, to November 10, 1902:

Balance cash on hand January 1, 1901.....	\$99.13

Music, etc., etc.	188.25
Races	70.00
Miscellaneous	11.52
	<hr/>
	\$1,604.22

November 10, 1902, balance cash on hand.....	\$228.81
--	----------

Recommendations follow reports of this class.

ALBEMARLE AGRICULTURAL AND FISH ASSOCIATION.

This institution is located at Elizabeth City. Its purposes, as indicated by its name, is to promote the planting and fishing interests in that section of North Carolina. To its aid there is annually appropriated \$450. An examination of the fair grounds showed them in good order, finely situated and well improved. We have no doubt that the money given to this Association is wisely expended, and accomplishes the object intended by the General Assembly.

The appropriation above reported is made in consideration of this Association representing and serving the interests of nine counties. Recommendations follow reports of this class.

Referring to the immediately preceding reports on the six Agricultural or Fair Associations, we are much impressed with the good they are accomplishing, especially to the farmers of our State. Inasmuch as the farmers are the principal beneficiaries of these institutions, it seems to us eminently right and logical that they should be under the fostering care of the State's Agricultural Department. We feel that those outside of Raleigh should each receive more aid than is given at this time. Knowing the impoverished condition of the State treasury, we can not recommend any increased appropriations from it, but we do hope that it may be found possible for the Agricultural Department to relieve the pressure upon the State treasury, and at the same time to promote the farming interest throughout the State, by contributing to each of the county associations at least as much as fifty dollars for each county represented in its annual fair. If this suggestion is accepted and carried into effect, we recommend that the State appropriations to these six institutions shall cease; otherwise, that they shall continue as heretofore.

ORIENTAL AND INDUSTRIAL S. F. AND AGRICULTURAL FAIR.

This institution, located in the town of New Bern, was intended for the improvement of the negroes of that section. If we may judge by the existing conditions, it has certainly failed to meet the purposes of its establishment. For several years past it has received from the treasury of the State \$500 to be expended in premiums. After diligent search we can find no one either willing or able to give any information as to the method of its expenditure, or of the results accomplished. We find that up to the year 1901 an annual fair was held on the ground of the association of the white people.

The owners of these premises seem now to have abandoned their purposes, the premises are unenclosed and devoted to other objects. There seems no probability that the negroes will hold another fair at an early day.

We recommend that the Act of the General Assembly providing for this appropriation be at once repealed.

NORTH CAROLINA INDUSTRIAL ASSOCIATION.

(For legislation, see Chapter 426, Laws of 1891.)

This institution has for its object the advancement of industrial and agricultural skill among negroes, for the accomplishment of which the State appropriates to it annually \$500, and thus enables the association to hold an annual fair.

An examination of the Treasurer's books shows the following receipts and disbursements during the fiscal year 1901:

Balance cash on hand from preceding year.....	\$2.00
Received from State Treasurer.....	500.00
Received from gate receipts at fair.....	328.62
<hr/>	
Total	\$830.62

DISBURSEMENTS.

Salary of President.....	\$30.00
Salary of Secretary.....	35.00
Salary of Treasurer.....	30.00
Rent of fair grounds.....	75.00
Printing poster and circulars.....	107.00

Labor	\$60.00	
Premiums	335.00	
Miscellaneous objects	144.63	\$816.63
		<hr/>
Balance cash on hand.....		\$13.99

We see nothing to criticize in the above statement, except that we consider it to be unfair in the Agricultural Department to charge this Association annually \$75 for the use of the fair grounds. We recommend that this charge be remitted in future.

We call attention to the language of Section 2, Chap. 426, Laws 1891: "Said sum of \$500 shall be expended solely and exclusively in payments of premiums by said Industrial Association, upon farm products and works of use, and are the production of inhabitants of this State."

An inspection of the above statement makes it evident that this law has not been observed. We think, however, that a strict compliance with it would greatly cripple the efforts of the association, and, therefore, we recommend the repeal of that section, or such modification as to your Excellency seems best calculated to accomplish the intentions of the Legislature in establishing this Association.

BOARD OF PUBLIC CHARITIES.

Has its chief office in the city of Raleigh, and Dr. Charles Duffy is its President, and Mr. C. B. Denson its Secretary, and we respectfully submit the following as our report:

The establishment of this Board is in obedience to the Constitution of our State (see Article XI, Sec. 7), which is in these words:

"Beneficent provision for the poor, the unfortunate and the orphan being one of the first duties of a civilized and Christian State, the General Assembly shall, at its first session, appoint and define the duties of a Board of Public Charities, to whom shall be entrusted the supervision of all charitable and penal institutions of the State, and who shall annually report to the Governor upon their condition, with suggestions for their improvement."

The legislative enactments, made in obedience to the above Constitutional mandate, will be found chiefly in The Code, Sec. 2332, *et seq.*, to which there seems to have been made but one change, to-wit, that enacted by Chapter 491 of the Laws of 1891. This Act refers to method of payment of the expenses of the Board, providing for the repeal of that clause in Section 2332 of The Code, which was in these words: "Provided, the said Board shall be allowed their

travelling expenses for attending one meeting," and substituting therefor the following: "That the Board of Public Charities shall receive no compensation for their services but their actual expense, which, with all office expenses and printing of necessary blanks, shall be paid by the State Treasurer, upon warrant of the Auditor."

While duty impressed with the great advantages brought to our State by its Board of Public Charities, space forbids our going into them in detail. We therefore commend to your Excellency their annual reports, and especially that for the year 1899-1900, which alone is sufficient to prove the wisdom of the framers of our State's Constitution, in providing for this most valuable institution.

COST TO THE STATE.

An inspection of the books in the Auditor's office shows an expenditure for the Board of Public Charities, as follows:

For fiscal year ending November 30, 1900.....	\$914.75
For fiscal year ending November 30, 1901.....	875.90
For term ending July 31, 1902 (7 months).....	584.40

Of the above amounts, C. B. Denson has received as salary as Secretary, \$68 per month, and the amount expended in excess thereof shows the other expenses of the Board.

RECOMMENDATIONS.

While we feel that a larger amount may be advantageously expended by the Board of Public Charities, we think that this had best be left to the discretion of that Board and of our State Auditor, and, therefore, we advise that no change be made in existing legislation.

NORTH CAROLINA BOARD OF HEALTH.

This institution we consider to be of very great value, and constantly increasing in importance as our population grows larger.

The enactments providing for its organization and conduct are Chapter 214, Laws of 1893, amended by Chapter ..., Laws of 1901.

An examination of the accounts of the Secretary and Treasurer presents the following condition for two years, beginning May 21, 1900, and ending May 20, 1902:

Balance cash on hand May 21, 1900.....	\$604.47
Received from State Treasurer for fiscal year 1901.....	2,000.00
Received from State Treasurer on account of 1902.....	1,500.00
Total	\$4,104.47

DISBURSEMENTS.

Salary of Secretary and Treasurer, two years....	\$2,000.00	
Inspection of water supplies at sundry places...	218.52	
Office rent	120.00	
Bacteriological tests of water supplies at 25 places	250.00	
Bacteriological apparatus	94.55	
Inspections of public institutions.....	305.67	
Expenses of members of Board of Directors attending meetings in this and other States.....	321.05	
Office and miscellaneous expenses.....	465.44	\$3,775.23
		<hr/>
Balance cash on hand May 21, 1902.....		\$329.24

From the nature of the work it is impossible to fix an estimate of the good accomplished by the above expenditure. The conditions facing us change with great rapidity. Many springs of water, which in past years were pure and wholesome, have unavoidably become contaminated. Their continued use would surely produce disease. It is the province of the Board of Health to determine by scientific methods which may be safely continued in use and which must be abandoned.

A large part of the income of our people is derived from residents of other States, coming here in search of health or pleasure. These people will come only so long as they are assured of the sanitary conditions existing here, and especially of the purity of the drinking water. This assurance can be given in no other way except by the inspections, analyses and certificates of our Board of Health.

Still another most important duty is to educate our people to a due appreciation of our changed and changing conditions. If no warning be given, it would often occur that a serious epidemic would prevail, which might easily have been avoided by timely notice. It is the State's duty to give such warning, and she can only do so through the instrumentality of her Board of Health.

Impressed with the importance of these considerations, we earnestly recommend that an increase of \$1,200 be made to the annual appropriation for this Board, to be used by it in procuring increased scientific bacteriological laboratory and service. We know that the sum we suggest will seem very small in comparison with the importance of the work expected to be accomplished. Our explanation is, that the Agricultural Department shows a willingness to co-operate with the Board of Health in providing and conducting a laboratory jointly for the purposes of both departments, and by thus uniting their interests and combining their efforts the result will be reached with a saving of money to each.

STATE GEOLOGICAL SURVEY.

This was organized by Act of General Assembly, Chapter . . . , Laws of . . . , and the State Treasurer directed to pay its expenses, not, however, to exceed the sum of \$10,000 per annum. Its chief office is in one of the University buildings at Chapel Hill.

At the time of our visit its executive officer, Prof. J. A. Holmes, was absent, and it was impossible to do more than obtain a statement of its expenditures, as follows:

From the first of December, 1900, to the 30th of November, 1901, the expenses of the Geological Survey amounted to \$9,999.91, and for eight months, from December 1, 1901, to July 31, 1902, its expenses amounted to \$5,522.38. The salaries paid by it are—

To the Chief Geologist.....	\$2,500.00 per annum.
To one assistant Geologist.....	1,500.00 per annum.
To one assistant Geologist.....	1,200.00 per annum.
To one typewriter.....	600.00 per annum.

Feeling our inability to state the result attained by this expenditure, we have asked Professor Holmes to do so, and append his report:

The work of the State Geological Survey during the period covered by this report has included the following:

(1) An investigation of the mineral resources and mining developments in the midland and western counties of the State, by the State Geologist and the Mineralogist of the Survey, Dr. J. H. Pratt.

(2) An investigation of the water powers on the streams of the midland and western counties of the State, by Mr. E. W. Myers, Water-power Engineer of the Survey; Mr. John S. Henderson, Jr., and Mr. B. S. Drane.

(3) An investigation of the forest resources of the State, including both the pine and swamp forests of the eastern counties and the hardwood forests of the midland and mountain counties; these investigations being conducted by Mr. W. W. Ashe, of the State Geological Survey; Mr. H. B. Ayers, of the Government Geological Survey, and the experts of the U. S. Bureau of Forestry.

(4) An investigation as to the influence of excessive forest clearings in producing destructive floods on streams rising in our mountain and midland counties, and the influence of these floods in rendering uncultivable the agricultural lands bordering these streams in the low country.

(5) An investigation of the road-building materials and methods of road construction in North Carolina, by the State Geologist and Mr. W. L. Spoon.

(6) An investigation into the present condition and methods of extending productive oysters beds in the sounds of Eastern North Carolina; these investigations being conducted by the State Geologist, Dr. Caswell Grave, and Mr. R. E. Coker.

(7) An investigation into the artesian-water conditions in Eastern North Carolina, by the State Geologist.

(8) The making of an elaborate map of the State by the officers of the U. S. Geological Survey, in co-operation with the North Carolina Department of Agriculture and the North Carolina Geological Survey. These maps will be of value to the people of the State in many ways, but especially as a basis for mineral and water-power developments, for public road improvements, for an examination and classification of the soils and forests, and for an investigation of water supplies for towns and cities, and for water-power purposes.

In addition to these investigations, which have been conducted both in the field and at the headquarters of the Survey, several reports have been in preparation: one on the mineral resources and mining developments in the State, which is now being published; a somewhat elaborate report on the corundum and associated mineral deposits in Western North Carolina, which is now ready for publication; and other reports which will be ready for publication before the end of the present year.

In addition to the above, a large correspondence has been conducted from the office of the Survey, with people living in every portion of this country and a number of foreign countries. In conducting this correspondence, as in all of the office work of the Survey, the State Geologist has had the valued assistance of Mr. R. H. Sykes, the Chief Clerk of the Survey, and the two stenographers regularly employed in the office.

The work of the State Survey has been greatly enlarged during the past few years, through an arrangement for co-operation between the State Survey and the U. S. Geological Survey and other Government scientific bureaus; the basis of this co-operation being an agreement on the part of the Government bureaus that for the every dollar expended in these investigations by the State Survey the Government scientific bureaus would expend an equal amount toward helping the State to carry forward these investigations on a more elaborate plan and with more satisfactory results. This arrangement has been in effect with good results in connection with:

(1) The investigation of the water powers, and water supplies for towns and cities, in which the measurement of the streams are made at the joint expense of the State Survey and the Government Geological Survey.

(2) In the investigation of forest resources, the State Survey is

receiving the co-operation of both the Government Geological Survey and the Government Bureau of Forestry.

(3) In the investigation of the road materials and road construction, the work of the State Survey has been supplemented by the co-operation of the Government office of Public Road Inquiries at Washington, D. C.

(4) In connection with the investigation of the oyster and other fishery interests along the North Carolina coast, the State Survey has received the active co-operation of the Government Fish Commission; and one of the most noteworthy results of this co-operation has been the establishment at an expense of more than \$25,000 by the Government, of a laboratory at Beaufort, N. C., for the investigation of the oyster and general fishery interests on our coast.

(5) In the making of the great topographic and soil map of North Carolina, now in progress, the State Board of Agriculture and the State Geological Survey are co-operating, and are receiving the active co-operation of the Government Geological Survey.

In connection with this statement of the work of the Survey, it may be said that the investments in and development of our mineral resources are now progressing more rapidly and more satisfactorily than for many years in the past; and the same may be said concerning the development of the water powers of the State, the utilization of our forest resources, which is now greater than it has been at any time during the past; and the work of improving the public roads is now being pushed more rapidly and more intelligently than ever before in the history of the State.

Concerning the general benefits of this work in the State it may be added that during the past few years the Survey has been directly or indirectly instrumental in the investment of not less than \$7,000,000.00 of outside capital in the development of the mineral, timber and water-power resources; and it has awakened such an interest in public road improvement that the people of the State have during the past year voted nearly \$300,000 in taxes for the permanent betterment of these highways, and in every county where this good work is going on the State Geologist or his assistants have aided in the work by giving information and advice. The Survey, by timely advice, prevented the expenditure by the citizens of this State of several hundred thousand dollars where this money, if expended, would have been certainly lost, for the reason that the geological conditions were known by the State Geologist to be such as to render success impossible. Furthermore, the examinations made by the Survey into the results of excessive forest clearings in the mountain counties have shown that this has caused floods during the past two years which have destroyed farms and other

property to the value of \$5,000,000.00 in North Carolina, and \$13,000,000.00 in adjacent States. The publication of this information has doubtless been largely instrumental in securing the passage through the U. S. Senate of a bill carrying an appropriation of \$10,000,000.00 for use in so protecting our mountain forests as to prevent the recurrence of these terrible floods.

A number of reports, embodying the results of the investigations of the Survey, have been published during the past few years; another of these reports is now going through the press, and several others are being prepared for publication. These reports relate to the mineral resources and mines, to the forest resources and development, the water powers, the drinking water supplies, the oyster and general fishery interests, and to public road improvement. These reports are being prepared with especial reference to their distribution at the approaching World's Fair at St. Louis. The demand for these reports is steadily increasing, as is also the demand for miscellaneous information which can only be given through a steadily increasing correspondence.

LIST OF PERSONS CONNECTED WITH THE N. C. GEOLOGICAL SURVEY.

J. A. Holmes, State Geologist, salary	\$2,500.00
J. H. Pratt, Mineralogist, salary	1,500.00
W. W. Ashe, Forestry Expert, salary*	1,500.00
E. W. Myers, Waterpower Engineer, salary*	1,500.00
B. S. Drane, Assistant Water-power Engineer, salary*	600.00
R. E. Coker, Oyster and Fish Expert, salary*	1,200.00
W. L. Spoon, Road Engineer, salary*	1,200.00
R. H. Sykes, Executive Clerk, salary	1,200.00
M. G. Davis, Stenographer, salary	600.00
H. M. Berry, Stenographer, salary	600.00

In addition to the above, J. V. Lewis, Assistant Geologist; Caswell Grave, Oyster and Fish Expert; and H. B. Ayers, Forestry Expert, are employed at intervals on special investigations, and are paid for this work as per agreement.

*Salaries paid in part by U. S. Scientific Bureaus.

THE NORTH CAROLINA STATE FIREMAN'S ASSOCIATION.

The headquarters of this valuable institution are in Fayetteville, and its President is James D. McNiel, of that city. It was incorporated in 1859, its worthy object being stated, "The protection and the promotion of the best interests of the firemen of North Carolina. The compilation of fire statistics, the collection of information concerning the practical working of different systems, * * *, the cultivation of a fraternal fellowship between the different companies of the State."

Our examinations satisfy us that this Association has fully carried out the purposes of its organization. We found its reports full and distinct; its accounts accurate and simple; its administration according to sound business; and in all respects we report it a model institution. Its support, as provided by Chapter 868, Laws 1891, is limited to \$2,500 per annum, "but in no case shall exceed one-half of the license tax levied and collected by the State from insurance companies." By a subsequent act this is divided, three-fourths coming to this Association, and one-fourth to the North Carolina State Volunteer Fireman's Association.

The following is a condensed financial statement for the last two years:

Balance cash on hand August 18, 1900.....	\$1,686.74
Received from State Treasurer, two appropriations.....	3,750.00
	5,436.74
DISBURSEMENTS.	
Paid to injured firemen.....	3,110.30
Treasurer, salary two years.....	300.00
For printing	265.00
	3,675.30
Balance cash on hand July 23, 1902.....	1,761.44

We recommend that no change be made in existing legislation.

THE NORTH CAROLINA VOLUNTEER FIREMAN'S ASSOCIATION.

This institution has for its object rendering aid to colored firemen who are injured in discharge of their duty. Its chief office is at Greensboro, and its Treasurer is J. H. Edwill, of that city. A careful examination of his books show them to be kept in good condition, and enables us to present the following:

STATEMENT OF RECEIPTS AND DISBURSEMENTS.

From September 16, 1900, to August 26, 1902—

Balance cash on hand September 16, 1900.....	\$349.64
Received from State Treasurer, two annual appropriations	1,250.00
	<hr/> 1,599.64
Paid to injured firemen.....	1,493.10
Paid salary of Treasurer and office expenses.....	106.54
	<hr/> 1,599.64

Leaving no balance.

After making inquiry among the best citizens of Greensboro, we find that the administration of this institution is in all respects satisfactory, that it has accomplished much good in relief of suffering, and in encouraging firemen to greater efficiency in performance of their hazardous duties. The Treasurer we hear commended generally, in that almost without compensation he has devoted his time and attention to this work. We therefore recommended that the existing law making this appropriation remain unchanged.

STATE PRISON SUNDAY SCHOOL.

The law providing for this institution will be found in section 3446 of The Code. We find that the appropriation therein made for its support has not been used. For this evidence we can only report that the purpose of our people, as indicated by the Act of their Representatives, is not at this time being complied with.

As citizens of North Carolina, we desire to say that we are entirely in accord with the intent of the section referred to. Our people are indelibly impressed with the conviction that the influences of religion are essential to the well-being of all men. This

being an acknowledged fact, we urge that these influences are as essential for the criminal as for the honest man, so far as the personal welfare of each is concerned, while for the safety of the community at large, the honest man could better be deprived of these influences than the criminal.

We therefore most respectfully but urgently request your Excellency to exert your influence to have this law of our State made thoroughly effective, to the full extent of its intent and purpose.

STATE'S PRISON.

In obedience to your Excellency's direction, and in accord with the request of the Superintendent, we have made as full an investigation into the State's Prison as was possible within the time at our disposal. To do so it was necessary that we should visit six places in which convicts are employed, apart from the Central Prison in Raleigh. In making our report, we think it will be more clearly understood and in all respects be more satisfactory, that we should first state the existing conditions, as we saw them at each of these places, and close with our recommendations of measures which, we think, will promote the efficiency of the institution as a whole.

CONVICT CAMP No. 1.

On October 22d we reached a camp which we designate as "No. 1," situated at Boone's Ford on the Toe River, in Mitchell County. Its Supervisor is J. H. McIver. The location was excellent. The number of convicts was: white, 22, and colored, 159; all males—total present, 181. Of these 8 were in hospital, of whom 2 had been slightly injured while at work, and 6 were sick, but none seriously. There were two deaths from sickness in January last; none since that time. Two convicts had been killed in an effort to escape. After an investigation of the circumstances, we express the opinion that this killing was both justifiable and unavoidable. Prior to its occurrence there had been nine successful attempts to escape, and none since. The State here employs 16 day guards and 5 night guards, each receiving \$15.00 per month and board. In addition there are also 12 overseers, who are employed by the railroad company. Of the whole number of convicts, the average number earning wages has been 170, the others being employed in duties about the camp, or sick. There has been very little sickness during the spring and summer.

By contract made with the Southwestern Railroad Company, the State receives for each convict at work 75 cents per day, the com-

pany furnishing stockades, quarters, fuel and water, and the State providing food, clothing, guards and supervision. We estimate that each convict costs the State about 50 cents per day, and that balance of his earnings are clear profit.

The management of this camp seemed in all respects, commendable.

CONVICT CAMP No. 2.

This camp is located on the bank of the Toe River, about four miles below No. 1; its Supervisor is J. C. Lashley. Here are 171 convicts, of whom 22 are white. No females. The average for duty has been 138. At the time of our visit there were 24 sick, some seriously. During the past year 21 have died from sickness, or more than 10 per cent of the whole number present. One was accidentally killed by the premature discharge of a blast. There are 13 day and 5 night guards. Twelve overseers are employed by the company.

The location of this camp is not desirable, and to this, in great part, is attributable the prevailing sickness. Most of the deaths were caused by pneumonia, brought on by the cold weather of last winter. The great mortality here may also be explained by these men being generally of less robust constitution than those at Camp No. 1. So far as we could see the supervision and management here are also commendable. There has been but one escape from this camp.

We think it only fair that we should express our approval of both these Supervisors. They are well qualified, and, so far as we can judge, are attentive to their duties. Each receives \$65.00 per month and no perquisites. We strongly advise an increase of their wages, which seem to us entirely too small for their duties and responsibilities.

CONVICT CAMP No. 3.

This is located in Wilkes County, on bank of Reddy's River. Its Supervisor is Gragg. Here are 55 convicts, of whom 12 are white. None were sick at the time of our visit, and little serious sickness had occurred during the summer. One death from sickness and two convicts had been killed. The killing was caused by an attack made upon one of the guards, and was fully justified on ground of self-defense.

This force is employed in constructing a turnpike road intended to extend from Wilkesboro to Jefferson, which was being built by authority of Chapter 286, Private Laws of 1901. This work was begun in May last, and at this time there has been about three miles completed, and an equal distance partly done. The State employs 8 guards at \$15.00 per month and board. The Supervisor gets \$30.00 per month from the State and \$40.00 from the company. Reference

is made to the Act above quoted for a full understanding of this contract.

CONVICT CAMP No. 4.

This is situated in Jones County, about eight miles south of Dover. Its Supervisor is T. B. Ricks. His salary is \$35.00 per month and board. The State here employs 10 guards, of whom 7 are paid by the State and 3 by the company. Their pay is \$15.00 per month and board. There are also 5 overseers, who are employed and paid by the company. The physician lives in Dover and is employed and paid by the State \$30.00 per month. Visits camp wherever so requested by the Supervisor. Very little sickness reported since occupation of this place. There have been no deaths. Four prisoners have escaped. Total number of convicts 53, of whom 11 are white, all males.

This force of men is hired to the Goldsboro Lumber Company, and employed in building, repairing and extending their railroad from Dover southward, a distance of about 22 miles.

There are certain features here which we entirely disapprove, and mention now, as they are only applicable to this camp:

1. We consider the food to be wholly insufficient and unsuited to laboring men.

2. The bedding is very bad, filthy and unfit for use, and entirely insufficient for the approaching cold weather.

3. The sleeping house is badly designed and constructed. The roof leaks badly, as we are informed by the Supervisor. We consider it utterly unfit to protect men from suffering during the coming winter.

4. We are informed by the Supervisor that the lessees are permitted to sublet a portion of these men to another company. Of this we express our emphatic disapproval. The Supervisor tells us that the lessees select for such subletting the men who are physically least strong; that the second company demands full labor from these, which, being more than they are able to perform, demands are made upon him for infliction of punishment, which is not deserved, and which he does not allow. We urge that any subletting be at once prohibited.

5. The Goldsboro Lumber Company employs its men in squads scattered along their railroad. To some of these squads only one guard is allowed, which encourages efforts to escape. Moreover, it is impossible for the Supervisor to know what is transpiring at so many different places. The guard or overseer may inflict the most cruel punishment without detection. Such a state of things is intolerable and should not be possible.

THE STATE FARMS.

These are situated in Halifax County, on the bank of the Roanoke River, the nearest railroad station being Tillery, on the Weldon and Kinston branch of the Atlantic Coast Line. The farms are, for convenience of administration, divided in about equal area, and designated as Caledonia No. 1 and Caledonia No. 2. The area in both is about nine thousand acres. We submit separate reports of our findings:

CALEDONIA FARM NO. 1.

The Supervisor is J. M. Christian. His salary is \$75.00 per month. Total number of convicts at this time are 150, of whom 26 are white and 2 Indians, 122 negroes, all males. Number of guards 13, salary \$15.00 per month and board; number of overseers 5, salary \$22.50 per month and board; steward, salary \$25.00 per month and board; one hostler, salary \$22.50 per month and board; physician's salary \$37.50 per month. Number of mules and horses 75, number of cattle 28, hogs 200, of which about 90 will be butchered this fall, and weigh net about 150 pounds each.

The land in cultivation consists of about 600 acres in cotton, 650 acres in corn, 175 acres in peanuts. Number of acres in other crops not estimated.

The products of this year are estimated to be: Cotton 500 to 550 bales; corn, about 14,000 bushels; peanuts, about 5,000 bushels; cotton seed for sale, about \$3,500 worth; peas, about 500 bushels; wheat, about 500 bushels; vegetables of various kinds.

The money returns of this year's crop we estimate to be—

Cotton, about \$21,000, of which \$4,000 has already been realized.

Corn, 7,500 bushels.....	\$3,000
Cotton seed	3,000
Peanuts	2,000

In round figures we think that the balance of crop, which can be sold without embarrassment to the farm, will aggregate nearly \$26,000.

We learn that about 180 tons of fertilizer has been used.

The losses in convicts during the past year have been: Deaths 5, escapes 2. All of the deaths were caused either by consumption or old age; except these, there has been very little sickness. The average number for duty has been 125.

We find that accommodations are ample and comfortable.

CALEDONIA FARM NO. 2.

Supervisor C. J. Rhem, salary \$75.00 per month. Prisoners at this

time are: White males 23, colored males 90, colored females 32. Total, 145.

Guards 18, salary \$15.00 per month and board; overseers 5, salary \$22.50 per month and board; physician, \$37.50 per month; steward, hostler.

Number of mules 65, horses 14, colts 8, cattle 26, hogs 150, of which about half are fit for pork and will net about 200 pounds each.

Land in cultivation: Cotton, about 600 acres; corn, about 700 acres; peanuts, about 175 acres; oats, about 100 acres; wheat, about 100 acres.

The products we estimate to be: Cotton, about 500 bales; corn, about 15,000 bushels; peanuts, about 5,000 bushels; oats, about 1,500 bushels; wheat, about 1,000 bushels; peas, about 800 bushels, and vegetables of various kinds.

We estimate that there can be sold of the above: Cotton, 500 bales, \$20,000, of which \$8,000 has already been realized; corn, about 7,000 bushels, \$2,800; peanuts, \$2,000; cotton seed, \$3,000. Total, \$27,800. Balance still to be sold, \$19,800. About 175 tons fertilizer has been used.

The Supervisor has been in charge of this farm for four years. He thinks that the first year it lost money, but that it has paid well for each of the others, except for a loss by fire during the third year.

We find the accommodations ample and comfortable.

REMARKS APPLICABLE TO BOTH FARMS.

The whole area owned by the State is estimated at 9,000 acres, of which less than half is now under cultivation in some way. The richest portion can not be used on account of a broken dike, which allows it to be overflowed at each freshet. We think that at least 2,000 acres of this might be reclaimed and put in cultivation. To do this will require the labor of 300 convicts continuously for some eight months. If done by hired labor we think it would cost about \$60,000. If the State should thus employ 300 convicts and pay for all their food, clothing, guarding and supervision, it would require an expenditure in cash of about \$40,000, but this should be materially reduced by raising all of their food on the farms, moreover, the crops which could be sold might amply suffice to pay all other expenses.

Another consideration which we deem worthy of careful thought is that by having these additional convicts close at hand a much larger crop of cotton may be planted. At this moment there are about 500 bales of cotton yet unpicked. On Caledonia No. 1, there are 200 acres, estimated to produce a bale to the acre, which has not been picked at all. Here the State runs risk of serious loss; a week

of rain would damage at least 50 bales. With the present force this can not be saved before January. We think it would be a great advantage to have a large force of extra hands to assist in saving the crop already made.

A careful inspection leads us to the opinion that by building a new dike about one and a fourth miles in length, so located as to throw out about 150 acres, and occupying a higher location, that at least 2,000 acres of very fertile land may be reclaimed, but we feel that this is a step too important to be taken without the best engineering counsel. Therefore, we urge that the Board of Directors be instructed at once to employ the very best attainable engineering skill to survey the whole premises, and, in case it is found practicable to reclaim this land, to make full plans and specifications for so doing.

THE CENTRAL PLANT.

This occupies a very large and costly building in the city of Raleigh. It has a capacity for keeping more than one thousand prisoners, but at this time there are in it only about 40 criminal insane, and 19 women and 59 feeble men. A part of it is also used for administration offices. We found these latter in excellent condition, the books well kept and easily understood. From the Directors' annual report for the year 1901, we condense the following statement:

STATE'S PRISON.

Statement of receipts and disbursements for term of 12 months, from January 1, 1901, to December 31, 1902:

Received from State Treasurer, being the amount paid him by W. H. Worth, former Treasurer, making good defalcation of W. H. Martin.....		\$16,060.40
From Aberdeen and Asheboro Railroad.....	\$2,700.75	
W. H. Brittain.....	6,821.38	
H. C. Bridgers.....	12,579.23	
George L. Carter.....	4,597.50	
Mattress Factory.....	4,052.61	
Shirt Factory.....	5,585.67	
Roanoke Navigation Company.....	476.80	
W. A. Johnson.....	1,499.48	
J. A. Mills.....	77.80	
W. B. Troy.....	3,332.46	
Goldsboro Lumber Company.....	3,527.79	
George P. Burgwyn.....	42.92	
Experimental Station.....	142.87	\$45,437.26
		<hr/>
		\$61,497.66

Received from sale of produce of State farms as follows:

Cotton (878 bales).....	\$31,772.46	
Cotton seed.....	2,673.80	
Peanuts.....	19,927.43	
Cattle.....	266.98	
Horses.....	290.00	
		<hr/>
		\$54,930.67
Received for sale of brick.....	8,919.83	
Received money borrowed (interest deducted).....	17,362.72	
Received from miscellaneous sources.....	4,590.31	
		<hr/>
		\$147,301.19

DISBURSEMENTS.

Salaries at Central Station, Raleigh, as follows:

Superintendent.....	\$2,500.00	
Chief Clerk.....	1,200.00	
Assistant Clerk.....	520.00	
Warden.....	900.00	
Physician.....	400.00	
		<hr/>
		\$5,520.00

Wages of overseers, guards, gate-keepers, and other employees at Raleigh.....	10,300.08
--	-----------

Expenses of convicts employed as follows:

On Aberdeen and Asheboro Railroad.....	\$1,662.66	
On W. H. Brittain's works.....	4,253.71	
On H. C. Bridger's works.....	6,978.09	
On George L. Carter's works.....	4,043.21	
On Mattress Factory.....	3,651.08	
On Roanoke Navigation Company's works.....	247.03	
On W. A. Johnson's works.....	1,630.10	
On W. B. Troy's works.....	3,143.50	
Goldsboro Lumber Company's works.....	3,324.96	28,934.34
		<hr/>
		\$44,754.42

Expended on account of State farms.....	54,795.49
Expended on account of brick-making.....	5,514.56
Expended per diem and expenses of Directors.....	3,199.55
Expended on insurance.....	613.33
Expended on interest to State Treasurer, farm bonds.....	2,400.00
Expended on commutation money to convicts.....	2,992.48
*Expended on current expenses of Central Prison.....	32,381.92

Total disbursements.....	\$146,651.75
Balance cash on hand.....	649.44

*In this is included cost of material for clothing
for the whole number of convicts.

\$147,301.19

Our comments upon the above are, that during the year 1901 there was received from former State Treasurer \$16,060.00, and borrowed \$17,362.00, and at the end of the term none of the borrowed money having been repaid, there remained on hand only \$649.00. Therefore, that for this year the State's Prison failed of being self-supporting by the sum of \$32,773.00.

THE STATE'S PRISON.

Receipts and disbursements for term beginning January 1, 1902, and ending October 31, 1902:

Balance cash on hand January 1, 1902.....	\$649.44
---	----------

Received from hire of convicts—

From George L. Carter.....	\$53,068.79	
Goldsboro Lumber Company.....	8,997.96	
Wilkesboro and Jefferson Turnpike Co.	4,400.00	
Geo. P. Burgwyn.....	100.00	
W. B. Troy.....	933.34	
W. H. Brittain.....	811.68	
T. H. Gasten.....	472.56	
		<hr/> \$68,384.33

Received for sale of farm produce—

Cotton	\$37,255.02	
Cotton seed	2,982.70	
Peanuts	6,678.37	
Cattle	1,146.00	
Horses	180.00	
		<hr/> \$48,242.09
From sale of mattresses.....	2,151.34	
From sale of brick.....	6,107.07	
From miscellaneous sources.....	4,206.45	
Borrowed money.....	4,975.00	

Total	\$134,715.72
-------------	--------------

DISBURSEMENTS.

Paid expenses of convict camps, to-wit:

Geo. L. Carter Camps.....	\$32,763.99	
Goldsboro Lumber Company Camp.....	4,875.79	
W. B. Troy Camp.....	109.20	
W. H. Brittain Camp.....	211.41	
		<hr/> \$37,960.39
Expenses of farms.....	29,783.39	

Expenses of Central Prison—

Salaries of officers.....	\$4,600.00	
Wages of overseers, guards, etc.....	4,890.11	9,490.11
Directors' mileage and per diem.....		1,641.88
Commutation to discharged convicts.....		1,818.00
Insurance		1,284.74
Stripes, <i>i. e.</i> convict cloth.....		2,029.15
Expenses of making mattresses.....		1,912.19
Repayment of money borrowed last year.....		15,454.16
Interest on farm bonds.....		2,400.00
Miscellaneous expenditures.....		16,006.65
		<hr/>
Total disbursements		\$119,780.66
Balance cash on hand November 1, 1902.....		14,935.06
		<hr/>
		\$134,715.72

Condensing the financial statements above given, covering the term beginning January 1, 1901, and ending October 31, 1902, we find the following as an approximate statement of the present administration of the State's Prison:

ASSETS.

Cash on hand October 31.....	\$14,935.06
Produce on hand for sale (estimated).....	45,800.00
Brick on hand for sale (estimated).....	5,500.00
Due from convict camps.....	13,261.02

LIABILITIES.

	\$79,496.08
Cash received from former Treasurer.....	\$16,060.40
Produce received from former administration..	35,908.84
Borrowed money, balance.....	6,883.56
	<hr/>
Balance net profit for present administration..	\$20,643.28

GENERAL CONCLUSIONS AND RECOMMENDATIONS.

We deem it one of the most important objects to be attained in employment of convict labor that all competition with honest labor should be avoided, so far as it is possible to do so.

We do not advise the employment of State convicts upon the county roads—by State convicts we mean such as are sent to the Penitentiary generally on long sentences. One great objection to this consists in the fact that it is impossible for the State to provide as many laborers as the counties ought to have, and probably would wish to obtain; consequently, their employment in some of the counties would surely cause dissatisfaction in the others. In support of

this view, we cite the fact that the Legislature of 1901 passed two Acts, known as Chapters 284 and 286 of the Private Laws. The first providing that 50 convicts "shall" be placed on the Marion and Bakersville turnpike, and the other that same number "may" be placed on the Wilkesboro and Jefferson turnpike; and yet we find at this time there are 55 men employed on the latter, and none on the former. Such apparent disobedience of the law can not fail to cause just complaint. Moreover, we do not think that the counties should look to the State for their roads, but should provide them for themselves, either by employing, at their own expense, short-term convicts, or by direct taxation, or by private enterprise.

We urge strongly the passage of an Act that all convicts on being discharged, shall, in addition to the compensation money now provided for, also be transported to the county from which they were sentenced. We submit that the present plan of turning loose numbers of bad men in a strange community with little means for obtaining food is an injustice upon that community, which should not longer be practiced.

In our opinion the most urgent need of the State's Prison is that provision should be made for maintaining regular religious services. So far as we have been able to learn there is no such provision now made. Here in a State professing to be Christian, *i. e.* professing to believe that the Christian religion is calculated, and is able to influence all men, we find to-day that nearly 800 persons in charge of the State are completely deprived of these influences. That these persons are of bad character is fully admitted, and for that reason especially should hear of Him who came to call sinners to repentance. We are told that occasional religious services are held by convicts. Of this practice we express our most emphatic disapproval. If a man is fit to be a preacher he ought not to be a chained convict. As a matter of fact it is safe to say that not one of them is capable to teach others, but that all of them need to be taught.

It seems to us a most terrible thought that of all of these human beings who have died during the past year, not one has received any semblance of Christian burial. The effect of this upon the survivors can only be to harden them into a more complete ignorance of the sanctity of human life, and thus to render them more dangerous to the State after their discharge.

By reference to Section 3446 of The Code, it will be seen that the representatives of our people have recognized the need of religious influence in the State's Prison. The amount they appropriated to secure it is entirely inadequate, but even this small sum is not drawn from the Treasurer, nor used as the laws of our State authorizes.

We most respectfully press our views, as above expressed, upon your Excellency, and beg your influence to obtain for them a favorable consideration by the General Assembly.

INSURANCE MEMORANDA.

The annexed statement of insurance on public buildings and property, while not properly a part of our report, is appended, as we think it may be of value to your Excellency.

PUBLIC BUILDINGS AND PROPERTY.

Governor's Mansion—	Total.
Building \$25,500.00, furniture \$1,000.00.....	\$26,500.00
Department of Agriculture—	
Building and permanent fixtures.....	\$35,000.00
Office and department furniture and fixtures	18,500.00
Mineral, forestry and other exhibits.....	18,500.00
Coal-house	500.00
	<hr/> 72,500.00
Steam boiler, \$5,000.00.	
State Hospital at Morganton—	
Building \$10,000.00, furniture \$1,000.00....	11,000.00
State Hospital at Raleigh—	
Main building.....	42,250.00
Furniture	1,000.00
Steward's dwelling \$800.00, stables \$500.00.	1,300.00
	<hr/> 44,550.00
State Hospital at Goldsboro—	
Main building \$65,500.00, furniture \$1,000..	\$66,500.00
Annex building.....	10,000.00
Superintendent's dwelling.....	2,500.00
Stables and contents.....	1,675.00
Small dwellings.....	1,000.00
Laundry and dwelling.....	1,500.00
	<hr/> 83,175.00
Steam boiler, \$10,000.00.	
University of North Carolina at Chapel Hill—	
"Mary Ann Smith" building.....	11,000.00
Furniture	600.00
Carr building.....	10,000.00
Library	7,500.00
	<hr/> 29,100.00
Boilers, \$10,000.00.	

State Normal and Industrial College—

Main building \$21,000.00, brick dormitory	
\$19,000.00	\$40,000.00
Frame dormitory \$4,000.00, Curry building	
\$12,000.00	16,000.00
Infirmary \$1,500.00, President's building	
\$2,000.00	3,500.00
Laundry and machinery.....	6,000.00
School furniture \$3,000.00, household furniture \$2,800.00	5,800.00
Barn \$1,000.00, feed and cows \$1,000.00....	2,000.00
Dairy \$500.00, Steward's building \$600.00..	1,100.00
	<hr/>
	\$74,400.00
Boilers, \$10,000.00.	

Agricultural and Mechanical College (colored)—

Main building \$12,000.00, contents \$6,500.00	\$18,500.00
Mechanical building \$6,500.00, contents	
\$5,900.00	12,400.00
Male dormitory \$4,500.00, contents \$500.00..	5,000.00
Dwelling \$150.00, dairy \$1,150.00.....	1,300.00
Barn \$1,500.00, contents \$925.00.....	2,425.00
	<hr/>
	39,625.00
Boilers, \$800.00.	

School for Blind at Raleigh (white)—

Main building \$7,000.00, furniture \$1,000.00	\$8,000.00
Dining hall \$1,000.00, kitchen \$500.00.....	1,500.00
Stable \$500.00, contents \$250.00.....	750.00
	<hr/>
	10,250.00

School for Blind at Raleigh (colored)—

Barn at garden \$400, contents \$200.00.....	600.00
	<hr/>
	7,600.00

School for Deaf and Dumb at Morganton—

Main building \$35,168.00, school building	
\$5,000.00	\$40,168.00
Barn \$2,000, boiler-house \$5,165.00.....	7,165.00
Machinery in boiler-house.....	1,112.00
Laundry and machinery.....	755.00
Printing office and fixtures.....	300.00
	<hr/>
	49,500.00
Boilers, \$12,000.00.	

In closing our work we submit a brief tabulated statement in which we have tried to condense the following information:

In the first column is an index to aid in finding anyone of the reports.

In the second column is a list of the State's institutions.

In the third column is the appropriation hitherto made to each institution.

In the fourth column is the appropriation to each which we recommend.

In the fifth column are our remarks explanatory of the whole.

No. of Report.	Name of Institution.	Present Appropriation.	Advised Appropriation.	Remarks.
1	Soldier's Home.	\$13,000 5,000	\$13,000	No change advised.
2	State Normal and Industrial College, Greensboro.	\$40,000	\$40,000	This for maintenance only. No change advised in it. Reference made to report as to other recommendations.
3	The University of North Carolina.	\$37,500	\$37,500	No change for maintenance. See recommendations in report.
4	The Agricultural and Mechanical College, Raleigh.	\$10,000 40,522	\$25,000 7,500	Reference to report for full understanding of recommendations.
5	Culowhee High School.	\$2,000 5,000	\$3,000	See report.
6	Guilford Battle Field.	\$500	\$500	Considered one of the State's educational institutions.
7	Moore's Creek Battle Field.	\$50,000	\$500	Considered one of the State's educational institutions.
8	Normal School for Croatan Indians.	-----	-----	See report for full understanding.
9	Agricultural and Mechanical College, Greensboro.	\$12,500	-----	Report fully explains why no appropriation is recommended.
10	Slater Industrial and State Normal School, Winston.	\$2,852	-----	Recommendations upon the seven Normal Schools will follow the last report of this class.
11	Salisbury Normal School.	\$1,857	-----	Recommendations upon the seven Normal Schools will follow the last report of this class.

No. of Report.	Name of Institution.	Present Appropriation.	Advised Appropriation.	Remarks.
12	Goldsboro Normal School.	\$1,857	-----	Recommendations upon the seven Normal Schools will follow the last report of this class.
13	Elizabeth City Normal School.	\$1,857	-----	Recommendations upon the seven Normal Schools will follow the last report of this class.
14	Plymouth Normal School.	\$1,857	-----	Recommendations upon the seven Normal Schools will follow the last report of this class.
15	Franklinton Normal School.	\$1,857	-----	Recommendations upon the seven Normal Schools will follow the last report of this class.
16	Fayetteville Normal School.	\$1,857	-----	Recommendations upon the seven Normal Schools will follow the last report of this class.
17	State Hospital for Insane, Raleigh.	\$79,000	\$71,500	Fully explained in report.
18	State Hospital for Insane, Morgan- ton.	----- \$165,000	\$30,000 125,000	Fully explained in report.
19	State Hospital for Insane, Goldsboro.	\$122,500	\$60,000	Fully explained in report.
20	State Hospital for Criminal Insane, Raleigh.	\$8,000	\$5,000	Fully explained in report.
21	Oxford Orphan Asylum.	\$10,000	\$10,000	Recommendation of increased appropriation proportioned to increase in population.
22	Colored Orphan Asylum of North Carolina.	\$6,600	\$5,000	Recommendation of increased appropriation proportioned to increase in population.
23	Deaf and Dumb School, Morgan- ton.	\$47,000	\$40,000	See report for full understanding.
24	N. C. Institute for Deaf, Dumb and the Blind, Raleigh.	\$70,000	\$60,000	See report for explanation.
25	North Carolina Agricultural Society.	\$1,500	-----	See recommendations following report on Agricultural Societies.
26	Central Carolina Fair Association.	\$50	-----	See recommendations following report on Agricultural Societies.

No. of Report.	Name of Institution.	Present Appropriation.	Advised Appropriation.	Remarks.
27	Forsyth Agricultural Society.	\$50	-----	See recommendations following report on Agricultural Societies.
28	Albemarle Fair Association.	\$50	-----	See recommendations following report on Agricultural Societies.
29	Cumberland County Agricultural Society.	\$50	-----	See recommendations following report on Agricultural Societies.
30	Albemarle Agricultural and Fish Association.	\$450	-----	See recommendations following report on Agricultural Societies.
31	Oriental and Industrial Association.	\$500	-----	Discontinuance recommended.
32	North Carolina Industrial Association.	\$500	\$500	No change recommended.
33	The Board of Public Charities.	-----	-----	This has no regular appropriation.
34	The Board of Health.	\$2,000	\$3,200	See report for explanation of change.
35	North Carolina Geological Society.	\$10,000	\$10,000	No change.
36	N. C. State Fireman's Association.	\$1,875	\$1,875	No change.
37	N. C. Volunteer Fireman's Association.	\$625	\$625	No change.
38	State Prison Sunday School.	-----	-----	See report.
39	State Prison.	-----	-----	Self-supporting.

We respectfully submit these reports, thanking your Excellency for having permitted us thus to serve our State, and remain,

Your Excellency's obedient servants,

W. P. WOOD,
J. P. JETER,
T. W. PATTON.
